FANTOM FTX

FANTOM X Card Fanning Wallet Instruction Manual

Model: FTX (Carbon Fiber, Extra Slim 4-7)
Brand: FANTOM

1. SETUP

Your FANTOM X Card Fanning Wallet is designed for quick and secure card access. Before first use, familiarize yourself with the card loading and retrieval process.

1.1 Loading Cards

1. Ensure the fanning lever is in the closed position.

2. Gently slide your cards into the main compartment. The Extra Slim model holds 4-7 cards.

3. For optimal performance, distribute cards evenly and avoid overfilling.

Figure 1: Inserting cards into the FANTOM X Card Fanning Wallet. Cards slide smoothly into the main compartment.

2. OPERATING INSTRUCTIONS

2.1 Accessing Cards with the Fanning Lever

1. Locate the patented fanning lever on the side of the wallet.

2. Push the lever upwards with your thumb. This will cause your cards to fan out in a staggered pattern, making each card easily visible and accessible.

3. Select the desired card by gently pulling it out.

4. To retract the cards, simply push them back into the compartment and ensure the lever is fully returned to its closed position.

Figure 2: The fanning lever mechanism allows for quick and organized access to all stored cards.

2.2 Using the Thumb Slot for Most Used Card

The FANTOM X wallet features a dedicated thumb slot on the front for your most frequently used card. This allows for instant access without needing to engage the fanning lever.

Figure 3: The thumb slot provides immediate access to your primary card.

2.3 Product Demonstration Video

Video 1: This video demonstrates the card fanning mechanism and overall operation of the FANTOM X wallet, including comparisons with other minimalist wallets.

3. FEATURES

- **Easy Card Access:** The unique patented fanning lever allows for quick and easy access to any card within the wallet.

- **RFID Shielding:** The aluminum construction provides robust RFID protection, safeguarding your valuable data from unauthorized scanning and theft.

Figure 4: The wallet's aluminum body provides integrated RFID protection.

- **Durable Construction:** Made in Canada from 6061 T6 space-grade aluminum, ensuring longevity and resilience. The billet aluminum lever is tested to over 1,000,000 fanning cycles.

Figure 5: High-quality materials and construction ensure durability and long-term performance.

- **Extra Slim Design:** With a thickness of only 0.34 inches, the wallet maintains a minimalist profile, reducing bulk in your pocket.

Figure 6: The ultra-thin design minimizes bulk while maximizing carrying capacity.

- **Modular Design:** Compatible with various FANTOM attachments (sold separately) to expand functionality for cash, ID, keys, coins, or tracking devices.

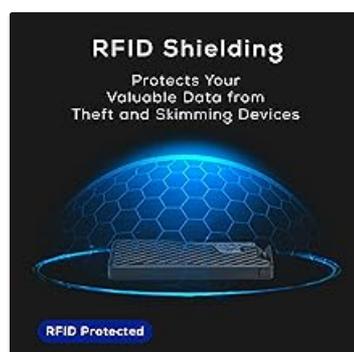

Figure 7: The modular design allows for customization with various attachments to suit individual needs.

- **Not MagSafe Compatible:** Please note that this wallet is not designed for MagSafe compatibility.

4. MAINTENANCE

To ensure the longevity and optimal performance of your FANTOM X Wallet, follow these maintenance guidelines:

- **Cleaning:** Wipe the wallet's exterior with a soft, damp cloth. Avoid using abrasive cleaners or harsh chemicals, as these may damage the anodized aluminum finish.
- **Mechanism Care:** Keep the fanning lever mechanism free from dirt and debris. If the mechanism feels stiff, gently clean around the lever area. Do not attempt to lubricate the internal mechanism with oils or sprays, as this can attract more dust and hinder performance.
- **Screw Check:** Periodically check the small screws on the wallet's body to ensure they are secure. If any screws feel loose, gently tighten them with an appropriate small screwdriver.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cards are difficult to fan out or retract.	Wallet is overfilled with cards. Debris in the fanning mechanism.	Remove one or two cards to ensure it's within the 4-7 card capacity. Gently clean the fanning lever area to remove any obstructions.
Cards feel loose in the compartment.	Insufficient number of cards.	Add more cards to reach the minimum capacity of 4 cards for a secure fit.
Fanning lever feels stiff.	Accumulation of dust or dirt.	Clean the lever and surrounding area with a soft, dry cloth. Avoid lubricants.
