6. TROUBLESHOOTING

Issue	Possible Solution
Tablet does not power on	Ensure the tablet is charged. Connect to the charger for at least 30 minutes before attempting to power on again.
Screen is unresponsive	Perform a force restart by holding the Power button for approximately 10-15 seconds. If the issue persists, contact support.
Wi-Fi connection issues	Restart the tablet and your Wi-Fi router. Forget the network in Wi-Fi settings and reconnect. Ensure you are within range.
Apps are crashing or freezing	Clear the cache for the problematic app (Settings > Apps > [App Name] > Storage & cache > Clear cache). Update the app or uninstall and reinstall it. Ensure sufficient free storage.

Issue	Possible Solution
Slow performance	Close unused background apps. Clear cache and temporary files. Consider a factory reset if performance issues are severe and persistent (back up data first).
SIM card not detected	Ensure the SIM card is correctly inserted into the tray. Restart the tablet. Verify that mobile data is enabled in settings.
