## AIRAPEX T3-US-HP

# AIRAPEX Replacement H13 True HEPA Filter for T3 Air Purifier User Manual

Model: T3-US-HP

## 1. INTRODUCTION

---

Thank you for choosing the AIRAPEX Replacement H13 True HEPA Filter for your T3 Air Purifier. This filter is designed to maintain the high performance of your air purifier, ensuring clean and healthy air in your environment. This manual provides essential information for proper installation, maintenance, and understanding the benefits of your new filter.

## 2. PRODUCT OVERVIEW

---

The AIRAPEX H13 True HEPA Filter is a crucial component of your T3 Air Purifier's advanced filtration system. It is engineered to capture a wide range of airborne particles and pollutants, contributing to a healthier indoor atmosphere.

### 2.1 Key Features

- **H13 True HEPA Filtration:** Captures 99.97% of airborne particles as small as 0.3 microns, including dust, pet dander, pollen, and mold spores.
- **3-Stage Filter System:** Integrates a pre-filter, H13 True HEPA filter, and activated carbon filter to effectively reduce larger particles, fine particulates, odors, and volatile organic compounds (VOCs).
- **Long-lasting Performance:** Designed for extended use, providing efficient filtration for over 5000 hours when combined with the T-type washing purification filter in the T3 Air Purifier.
- **Optimal Compatibility:** Specifically designed for the AIRAPEX T3 Air Purifier to ensure seamless fit and peak performance.

### 3. INSTALLATION (FILTER REPLACEMENT)

---

To ensure continuous optimal performance, replace your AIRAPEX H13 True HEPA Filter when indicated by your T3 Air Purifier or approximately every 6-12 months, depending on usage and air quality.

#### 3.1 Replacement Procedure

1. **Power Off:** Before beginning, ensure your AIRAPEX T3 Air Purifier is turned off and unplugged from the power outlet.
2. **Access Filter Compartment:** Locate the filter compartment on your T3 Air Purifier. Refer to your T3 Air Purifier's main user manual for specific instructions on how to open the compartment. Typically, this involves twisting or unlatching a cover at the base or side of the unit.
3. **Remove Old Filter:** Carefully remove the used filter from the compartment. It may be dusty, so handle it with care to avoid spreading trapped particles. Dispose of the old filter according to local regulations.
4. **Unpack New Filter:** Remove the new AIRAPEX H13 True HEPA Filter from its protective packaging. Ensure the filter is free from any damage.
5. **Insert New Filter:** Insert the new filter into the compartment, ensuring it is seated correctly and securely. Follow any

directional arrows or guides on the filter or the air purifier.

- 6. Close Compartment:** Close the filter compartment cover securely.
- 7. Reset Filter Indicator:** Plug in and power on your T3 Air Purifier. If your unit has a filter replacement indicator, follow the instructions in your T3 Air Purifier's manual to reset it. This usually involves pressing and holding a specific button for a few seconds.

## 4. MAINTENANCE

---

The AIRAPEX H13 True HEPA Filter is designed for maintenance-free operation between replacements. Do not wash or attempt to clean the HEPA filter with water, as this can damage the filter media and reduce its effectiveness.

### 4.1 Filter Lifespan

The lifespan of your filter depends on various factors, including air quality, usage frequency, and the presence of pets or smokers. The T3 Air Purifier will typically indicate when a replacement is needed. For optimal performance, it is recommended to replace the filter every 6 to 12 months.

### 4.2 Cleaning the Pre-filter (if applicable to T3 unit)

While the HEPA filter itself cannot be cleaned, some air purifiers have a separate washable pre-filter. Refer to your T3 Air Purifier's main manual to determine if it has a washable pre-filter and for instructions on how to clean it. Regularly cleaning the pre-filter can help extend the life of your HEPA filter.

## 5. TROUBLESHOOTING

---

If you encounter issues after replacing your filter, consider the following:

- Filter Indicator Still On:** Ensure you have correctly reset the filter replacement indicator on your T3 Air Purifier. Consult your air purifier's manual for specific reset instructions.
- Reduced Airflow/Performance:** Double-check that the new filter is installed correctly and securely within the compartment. Ensure no packaging material was left on the filter.
- Unusual Odors:** A new filter may have a slight, temporary odor that dissipates quickly. If strong or persistent odors occur, ensure the filter is genuine AIRAPEX and properly installed.
- Air Purifier Not Turning On:** Verify the air purifier is properly plugged into a working power outlet. This issue is typically not related to the filter itself.

For further assistance, please refer to the troubleshooting section of your AIRAPEX T3 Air Purifier's main user manual or contact AIRAPEX customer support.

## 6. SPECIFICATIONS

---

Attribute	Detail
Brand	AIRAPEX
Model Number	T3-US-HP
Filter Type	H13 True HEPA 3-in-1 Filter
Material	Fiberglass

<b>Filtration Efficiency</b>	99.97% of particles 0.3 microns
<b>Compatible Devices</b>	AIRAPEX T3 Air Purifier
<b>Product Dimensions</b>	16.99 x 16.99 x 8.89 cm
<b>Item Weight</b>	220 g (0.22 Kilograms)
<b>Recommended Replacement</b>	Every 6-12 months (or as indicated by purifier)

## 7. WARRANTY AND SUPPORT

---

For any questions regarding your AIRAPEX Replacement H13 True HEPA Filter or for support with your T3 Air Purifier, please contact AIRAPEX customer service. Refer to the contact information provided with your original air purifier purchase or visit the official AIRAPEX website for assistance.
