› Baby Brezza Superfast 10 Minute Baby Bottle Sterilizer + Dryer - 75% Faster Drying – Universal Electric Steam Sterilization for All Bottles, Pacifiers + Breast Pump Parts

Baby Brezza Superfast Sterilizer Dryer (ASIN: B0CKRWHX8P)

Baby Brezza Superfast Sterilizer Dryer Instruction Manual

Model: Superfast Sterilizer Dryer (ASIN: B0CKRWHX8P)

1. PRODUCT OVERVIEW

The Baby Brezza Superfast Sterilizer Dryer is designed to sterilize and dry baby bottles, breast pump parts, pacifiers, and other accessories quickly and efficiently using natural steam and hot air. This appliance offers a 4-in-1 functionality to simplify your daily routine.

Figure 1: Baby Brezza Superfast Sterilizer Dryer.

2. SETUP

2.1 Unboxing and Component Identification

Carefully remove all components from the packaging. Ensure you have the main unit, the removable racks, and the measuring cup. Inspect all parts for any damage before initial use.

2.2 Initial Cleaning

Before first use, wash all removable parts (racks, lid) with warm soapy water and rinse thoroughly. Wipe the base unit with a damp cloth. Do not immerse the electrical base in water.

2.3 Placement

Place the sterilizer dryer on a flat, stable, heat-resistant surface, away from direct sunlight and heat sources. Ensure there is adequate ventilation around the unit.

Figure 2: The included measuring cup for precise water filling.

3. OPERATING INSTRUCTIONS

The Baby Brezza Superfast Sterilizer Dryer offers four distinct functions for your convenience:

1. **Sterilizer & Dryer:** Sterilizes with natural steam and then automatically dries items. This is the fastest mode, completing the process in just 10 minutes (6 minutes for sterilization, 4 minutes for drying).
2. **Sterilizer Only:** Uses natural steam to kill 99.9% of germs.
3. **Dryer Only:** Dries items with hot air.

4. **Storage Rack:** Keeps sterilized items stored inside for up to 48 hours.

3.1 Loading Items

Place clean bottles, pump parts, pacifiers, and other accessories onto the racks. The large universal capacity can hold up to 6 bottles and 2 full pump part sets from any brand. Ensure items are placed upside down to allow steam and air to circulate effectively.

Figure 3: Large capacity accommodates various baby feeding items.

3.2 Adding Water

Use the provided measuring cup to add the correct amount of distilled water to the heating plate at the base of the unit. Refer to the markings on the measuring cup for appropriate fill levels based on the desired function.

3.3 Starting a Cycle

Close the lid securely. Press the single push button control to select your desired function. The unit will automatically begin the cycle. An auto shut-off feature ensures safety once the cycle is complete.

Sterilizes & dries in 10 minutes!

**75%+ FASTER than other
sterilizer dryers**

	Baby Brezza SuperFast Sterilizer Dryer	Other Sterilizer Dryers
Sterilize Time	6 min	8-10 min
Drying Time	4 min	30-60 min
Total Time	10 min	38-70 min

Figure 4: The Superfast Sterilizer Dryer completes cycles significantly faster.

Figure 5: Natural steam kills germs, followed by rapid hot air drying.

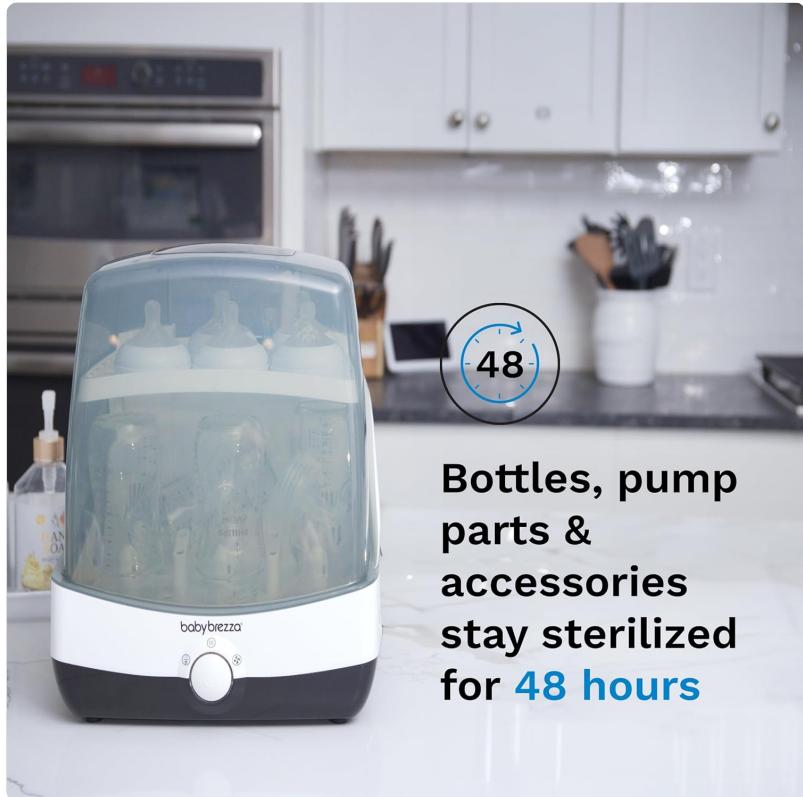

Figure 6: Items remain sterilized inside the unit for up to 48 hours.

4. MAINTENANCE

4.1 Regular Cleaning

After each use, empty any remaining water from the heating plate. Wipe the heating plate and interior of the base with a damp cloth to prevent mineral buildup. The stainless steel heating plate is designed to resist rust.

4.2 Descaling

Over time, mineral deposits (limescale) may accumulate on the heating plate, especially in areas with hard water. To descale, mix 2 oz. (60ml) of white vinegar with 4 oz. (120ml) of distilled water. Pour the solution onto the heating plate and let it sit for 30 minutes. Do not run a cycle. Pour out the solution and rinse the heating plate thoroughly with clean water. Repeat if necessary. Regular descaling ensures optimal performance and longevity of the unit.

5. TROUBLESHOOTING

If you encounter any issues with your Superfast Sterilizer Dryer, please refer to the following common solutions:

- **Unit not turning on:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the auto shut-off feature has activated.
- **Items not completely dry:** Ensure items are properly spaced on the racks to allow for adequate air

circulation. You may need to run an additional "Dryer Only" cycle for certain items or if the unit is heavily loaded.

- **Sterilization not effective:** Ensure you are using distilled water as recommended. Check that the heating plate is clean and free of mineral buildup.
- **Unusual noises or odors:** Discontinue use immediately and unplug the unit. Contact customer support for assistance.

For more detailed troubleshooting or issues not listed here, please contact Baby Brezza customer support.

6. SPECIFICATIONS

Feature	Detail
Package Dimensions	15.25 x 13.5 x 12.75 inches
Material Composition	Plastic
Batteries Required	No
Item Weight	8.88 pounds (4.04 Kilograms)
Color	White
Unit Count	1.0 Count
Manufacturer	Baby Brezza

7. WARRANTY AND SUPPORT
