HONDIGI VK-6067B

HONDIGI VK-6067B Pet Allergy Air Purifier Filter User Manual

Model: VK-6067B | Brand: HONDIGI

INTRODUCTION

This user manual provides essential information for the HONDIGI VK-6067B Pet Allergy Air Purifier Replacement Filter. Designed to enhance air quality, this filter is compatible with specific Vremi and Hokeki air purifier models, offering advanced filtration for a cleaner and healthier indoor environment, especially for pet owners.

KEY FEATURES

- **Customized for Pet Allergies:** Features modified activated carbon highly effective in removing ammonia (NH₃) and other pet odors, providing fresh air for homes with pets.
- **Advanced 360° Purification:** Utilizes a higher grade H13 True HEPA material in a barrel-type 360° filtration design. This effectively intercepts suspended solids and filters particles as small as 0.3µm, including dust, hair, pet dander, and common air pollutants, with a purification rate exceeding 99.97%.
- **Efficient Odor Removal:** Activated carbon filters are designed to neutralize various unfavorable odors and fumes, such as volatile organic compounds (VOCs), tobacco smoke, cooking smells, and general household odors, contributing to a pure indoor environment.
- **Premium Quality:** Manufactured to the highest standards, ensuring performance comparable to original equipment filters.

Layers of Defense

3-Stage of Filtration, 360° of Purification

Preferred By Pet Owners

Using customized upgraded modified activated carbon - a stronger adsorption capacity for ammonia produced by pets, together with advanced yellow H13 HEPA, can remove most of the pet allergy and odors in life, more suitable for pet families and people who are sensitive to pet hair.

INSTALLATION GUIDE

Replacing your air purifier filter is a simple process that requires no special tools. Follow these steps for proper installation:

1. **Step 1: Prepare the Air Purifier.** Ensure your air purifier is turned off and unplugged from the power outlet before beginning the filter replacement process.
2. **Step 2: Remove the Base Cover.** Gently rotate and remove the base cover of your air purifier. This will expose the old filter.
3. **Step 3: Remove the Old Filter.** Carefully pull out the used filter from the main unit. Dispose of the old filter responsibly.
4. **Step 4: Install the New Filter.** Place the new HONDIGI VK-6067B filter into the main unit, ensuring it is seated correctly.
5. **Step 5: Replace the Base Cover.** Reattach the base cover by rotating it back into place until it is securely fastened.

6. **Step 6: Reset the Filter Indicator.** Plug in your air purifier. Locate the filter reset button (refer to your air purifier's specific manual if unsure). Press and hold the filter reset button for approximately 3 seconds until the indicator light resets.

MAINTENANCE AND FILTER REPLACEMENT FREQUENCY

To ensure optimal performance and maintain clean air quality, it is recommended to replace your HONDIGI VK-6067B filter every **6 to 8 months**. The actual replacement interval may vary depending on air quality, usage frequency, and the presence of pets or other airborne pollutants in your environment.

Regular filter replacement is crucial for the efficiency of your air purifier and for maximizing its ability to capture dust, allergens, pet dander, and odors.

MERV Rating	13
Number of Items	2 (filters per package)
Compatible Devices	Vremi Air Purifier, Hokeki Air Purifier VK-6067B, Honkeeki Brillante Toyuugo, Voremy Air Purifier

TROUBLESHOOTING

If you encounter issues after replacing your filter, consider the following common solutions:

- **Filter Indicator Light Remains On:** Ensure you have properly reset the filter indicator by pressing and holding the reset button for 3 seconds after installation. Refer to your air purifier's manual for the exact location and procedure of the reset button.
- **Reduced Airflow or Odor Persistence:** Verify that the new filter is correctly seated within the air purifier and that the base cover is securely closed. If the issue persists, ensure the filter is not damaged and that it is the correct model for your air purifier.
- **Unusual Noises:** Check that the filter is installed evenly and not obstructing any internal components. Re-install the filter if necessary.
- **General Performance Issues:** Confirm that your air purifier model is listed under the compatible devices for the VK-6067B filter.

WARRANTY AND SUPPORT

HONDIGI is committed to providing high-quality products. For any questions regarding your VK-6067B replacement filter, or if you require assistance with installation or performance, please do not hesitate to contact our customer service team.
