WHAT'S IN THE BOX

Upon opening the package, verify that all the following items are present:

- Radiant Smartwatch RAS10703
- Charging Cable
- User Manual (this document)

SETUP

1. Charging the Smartwatch

Before initial use, fully charge your smartwatch. Connect the charging cable to the charging port on the back of the watch and plug the other end into a USB power adapter (not included) or a computer's USB port. The watch display will indicate charging status.

2. Installing the Companion Application

To unlock the full functionality of your Radiant Smartwatch, download and install the official companion application on your smartphone. Search for "Radiant Smartwatch" or a similar name in your smartphone's app store (Google Play Store for Android, Apple App Store for iOS).

3. Pairing with Your Smartphone (Bluetooth)

1. Ensure your smartwatch is charged and powered on.
2. Enable Bluetooth on your smartphone.
3. Open the Radiant companion application.
4. Follow the on-screen instructions within the app to search for and connect to your RAS10703 smartwatch. The watch will typically appear as "RAS10703" or "Radiant Smartwatch".
5. Confirm the pairing request on both your smartphone and the smartwatch if prompted.

Note: If you experience frequent disconnections, ensure the smartwatch and smartphone are within Bluetooth range and that no other devices are interfering with the connection.

OPERATING INSTRUCTIONS

Basic Navigation

The Radiant Smartwatch RAS10703 features a touch screen for navigation. Swipe left, right, up, or down to access different menus and functions. Tap to select an option or confirm an action. A physical button (if present) typically serves as a power button or a 'back' function.

Key Functions

- **Time and Date:** The main screen displays the current time and date.
- **Notifications:** Receive notifications for calls, text messages, and app alerts directly on your watch when connected to your smartphone.
- **Calendar:** Access your synced calendar events.
- **Pedometer:** Track your steps taken throughout the day. This data is synchronized with the companion app.
- **Other Features:** Explore additional features like alarms, stopwatch, and remote camera control through the watch interface and companion app.

FEATURES

The Radiant Smartwatch RAS10703 offers a range of features designed to enhance your daily life:

- **Connectivity:** Bluetooth for seamless connection to your smartphone.
- **Display:** 37mm Analog-digital display with touch screen input.
- **Notifications:** Alerts for calls, text messages, and other applications.
- **Activity Tracking:** Integrated pedometer to monitor daily steps.
- **Calendar Functionality:** Keep track of your schedule directly from your wrist.
- **Durability:** Waterproof design for everyday use.

MAINTENANCE

- **Cleaning:** Wipe the watch screen and strap regularly with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Water Resistance:** The watch is waterproof. However, avoid prolonged submersion in water, hot water, or steam, as this may affect its seals. Do not operate buttons underwater.
- **Charging:** Use only the provided charging cable. Do not attempt to charge the watch if it is wet.
- **Storage:** Store the smartwatch in a cool, dry place when not in use.

TROUBLESHOOTING

Problem	Solution
Watch does not turn on.	Ensure the watch is fully charged. Connect it to the charger for at least 30 minutes.
Cannot pair with smartphone.	1. Ensure Bluetooth is enabled on your smartphone. 2. Make sure the watch is within range of your smartphone. 3. Restart both the smartwatch and your smartphone. 4. Try unpairing and re-pairing the device through the companion app.
Frequent disconnections.	1. Keep the smartwatch and smartphone close to each other. 2. Check for app updates and ensure the app is running in the background. 3. Disable power-saving modes on your smartphone that might restrict background app activity.
Notifications are not received.	1. Verify that the watch is successfully paired with your smartphone. 2. Check notification settings within the companion app and your smartphone's system settings. 3. Ensure the companion app has the necessary permissions to access notifications.
