

## VEVOR B2-2

# VEVOR Wall-Mounted Baby Changing Station User Manual

Model: B2-2 | Brand: VEVOR

## INTRODUCTION

This manual provides essential instructions for the safe and effective installation, operation, and maintenance of your VEVOR Wall-Mounted Baby Changing Station, Model B2-2. Please read this manual thoroughly before use and retain it for future reference. This changing station is designed for use in commercial bathrooms, daycare centers, homes, and nurseries, providing a secure and convenient surface for changing infants.

## SAFETY INFORMATION

**WARNING: Failure to follow these safety instructions may result in serious injury or death.**

- Never leave a child unattended on the changing station.
- Always use the adjustable safety strap to secure the child. Ensure the strap is properly fastened and snug around the child.
- Before folding the changing station, ensure the button of the quick-release safety strap is pressed to prevent accidental folding or injury.
- Do not exceed the maximum load capacity of 44 lbs (20 kg).
- Ensure the changing station is securely mounted to a structural wall capable of supporting the weight of the unit and a child.
- Keep all parts of the changing station clean and free from debris.
- Regularly inspect the changing station for any signs of wear, damage, or loose components. Discontinue use if any damage is found.

## SETUP AND INSTALLATION

The VEVOR Wall-Mounted Baby Changing Station is designed for easy installation, compatible with standard 16-inch setups. It is crucial to mount the unit securely to a wall stud or appropriate structural support.

1. **Choose Location:** Select a suitable wall location, ensuring it is free from obstructions and has adequate structural support.
2. **Mark Drilling Points:** Hold the changing station against the wall at the desired height. Use a pencil to mark the four mounting hole locations. Ensure the marks are level.
3. **Drill Holes:** Drill pilot holes at the marked locations. The size of the drill bit should correspond to the combination bolts provided.
4. **Insert Bolts:** Insert the combination bolts into the drilled holes.

5. **Mount Station:** Align the changing station with the bolts and secure it firmly to the wall using the provided hardware. Tighten all bolts until the unit is stable and does not wobble.
6. **Apply Decorative Covers:** Place the hole decorative covers over the bolt heads for a finished appearance.

## OPERATING INSTRUCTIONS

### Folding and Unfolding

The changing station features a one-key smooth folding mechanism with a built-in cylinder for controlled operation.

1. **To Unfold:** Gently pull the changing surface downwards. The built-in cylinder will assist in a smooth, controlled opening.
2. **To Fold:** Lift the changing surface upwards until it clicks into its locked, folded position. Ensure it is fully secured against the wall.

## Using the Safety Belt

An adjustable safety belt is integrated to secure the child during diaper changes.

1. Place the child on the changing surface.
2. Bring the safety belt around the child's waist.
3. Fasten the buckle securely.
4. Adjust the straps to ensure a snug fit, preventing the child from rolling or falling.

# ADJUSTABLE SAFETY STRAPS

Take baby's safety in mind

## Utilizing Hanging Rods and Storage

The changing station includes practical features for convenience:

- **Hanging Rods:** Use the hanging rods on both sides to hold towels, diaper bags, or clothing, keeping essentials within easy reach.
- **Tissue Box/Storage:** The integrated compartments can hold tissues, wipes, or other small items.

## CLEVER HOOK DESIGN

Organized and convenient storage

## MAINTENANCE

The VEVOR Wall-Mounted Baby Changing Station is constructed from high-quality HDPE material, making it durable and easy to clean.

- **Cleaning:** Wipe the changing station with a dry cloth after each use. For more thorough cleaning, use a mild soap and water solution, then wipe dry. Avoid abrasive cleaners or solvents that could damage the HDPE material.
- **Inspection:** Periodically check all mounting hardware and moving parts to ensure they are secure and functioning correctly. Tighten any loose bolts.

## TROUBLESHOOTING

If you encounter any issues with your VEVOR Wall-Mounted Baby Changing Station, please refer to the following common concerns:

- **Station feels unstable:** Ensure all mounting bolts are securely tightened. Verify that the station is mounted into a wall stud or appropriate structural support.
- **Folding mechanism is stiff:** Check for any obstructions. Ensure the unit is clean and free of debris. If the issue persists, contact customer support.
- **Safety strap not securing:** Inspect the buckle and straps for damage. Ensure the straps are adjusted correctly for the child's size.

For problems not listed here, or if troubleshooting steps do not resolve the issue, please contact VEVOR customer support.
