3. SPECIFICATIONS

Model Number	CL441
Dimensions	5.5 x 5.6 feet (167 x 170 cm)
Number of LEDs	441
Light Source Type	LED
Light Color	Multicolor (RGB)
Power Source	Corded Electric
Voltage	5 Volts
Wattage	25 Watts
Indoor/Outdoor Usage	Indoor (Waterproof design for versatility)
Control Method	App Control, Voice Control (Alexa, Google Assistant)
Material	Acrylonitrile Butadiene Styrene
Item Weight	2.57 pounds (1.17 Kilograms)

4. SETUP

- Unpack:** Carefully remove all components from the packaging.
- Inspect:** Check the curtain lights and power adapter for any visible damage. Do not use if damaged.
- Placement:** Determine the desired location for your curtain lights. Ensure the surface is clean and dry for optimal adhesion if using sticky hooks.
- Power Connection:** Connect the power adapter to the control box of the curtain lights, then plug the adapter into a standard electrical outlet.
- Initial Power On:** The lights should illuminate in a default pattern upon first power-up.

5. INSTALLATION

The Findpop AI Smart Curtain Lights offer two primary installation methods:

Method 1: Using Sticky Hooks

- Clean the surface where you intend to hang the lights.
- Peel off the protective backing from the sticky hooks.
- Attach the hooks to the top edge of your desired installation area, ensuring they are evenly spaced to support the curtain lights.
- Hang the curtain lights onto the installed sticky hooks.

Method 2: Using Zip Ties

- Identify a suitable structure (e.g., curtain rod, railing, frame) to attach the lights.
- Position the top string of the curtain lights along the structure.
- Secure the curtain lights to the structure using the provided zip ties, threading them through the

designated loops on the light string and tightening them.

Image: An illustration demonstrating the two easy installation methods: using sticky hooks for smooth surfaces and zip ties for securing to various structures.

6. OPERATING INSTRUCTIONS

The Findpop AI Smart Curtain Lights offer versatile control options and dynamic features.

6.1. App Control & Voice Control

Control your lights conveniently via the dedicated smartphone app or integrate with smart home assistants.

- **Smartphone App:** Download the Findpop app from your device's app store. Follow the in-app instructions to pair your lights. The app allows you to adjust colors, brightness, select dynamic modes, and customize patterns.
- **Voice Control:** This smart LED curtain light is compatible with Alexa and Google Assistant. Link your Findpop account within the Alexa or Google Home app to enable voice commands for turning lights on/off, changing colors, and adjusting brightness.

Image: A woman interacting with an Alexa device to control the Findpop curtain lights, demonstrating seamless smart home integration.

6.2. AI Color Picking

The upgraded Smart AI feature allows for intuitive color selection.

- **Text-based Color Extraction:** Input text descriptions (e.g., "Ocean" for blue hues, "happy" for bright, warm colors) and the AI will suggest corresponding color palettes.
- **Image-based Color Extraction:** Upload an image, and the AI can extract colors from it to apply to your lights.

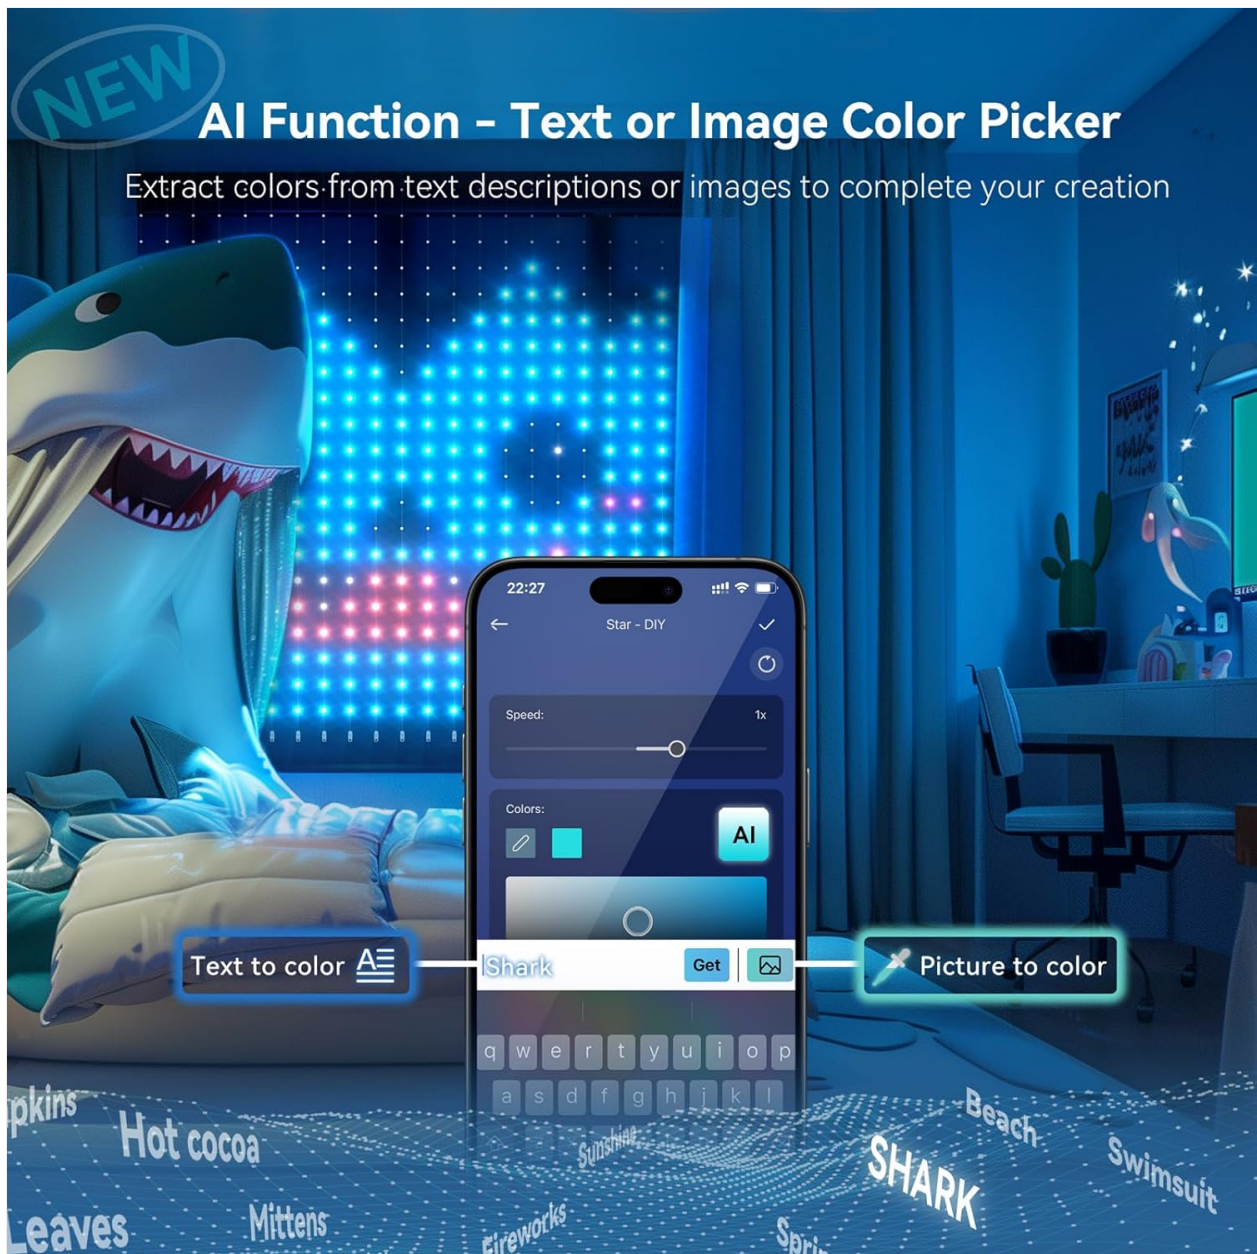

Image: A smartphone screen displaying the AI function within the app, allowing users to extract colors from text or images for their light creations.

6.3. Dynamic Scene Modes

Explore over 200 pre-programmed dynamic modes for various occasions.

- Select from a wide array of scenes, including themes for holidays (e.g., Christmas, Halloween), parties, and everyday ambiance.
- New effects are regularly added to the app, ensuring fresh and engaging displays.

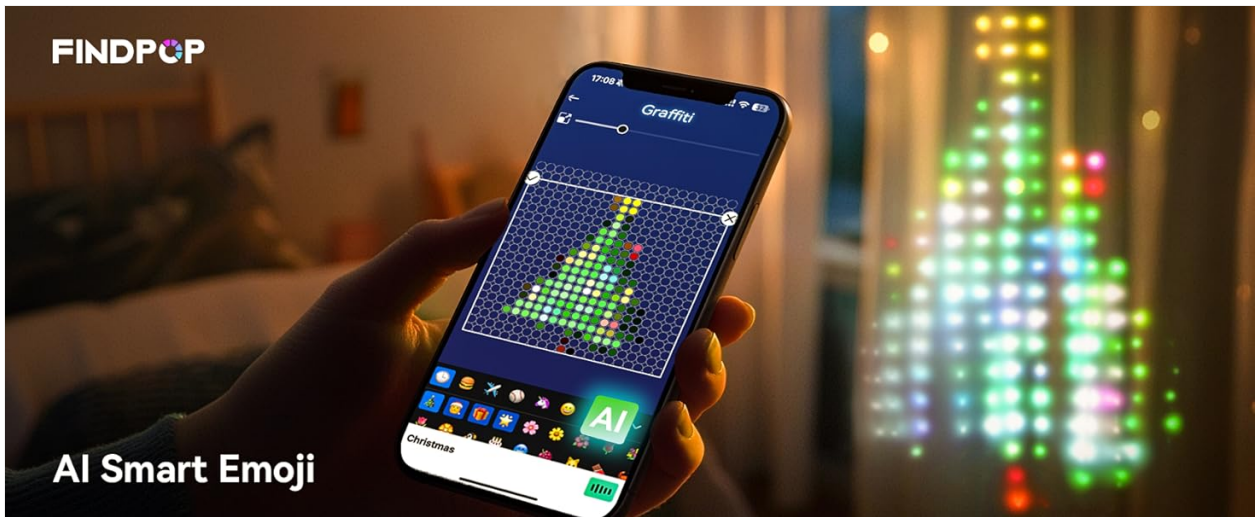

Image: Findpop curtain lights displaying a vibrant Halloween-themed pattern, enhancing outdoor decor with dynamic lighting effects.

6.4. Music Sync Mode

Enhance your gatherings with lights that react to sound.

- The lights feature 4 music effects that synchronize with the rhythm of your audio.
- Lights will flash, change colors, and adjust brightness in response to music, creating an immersive experience for parties and events.

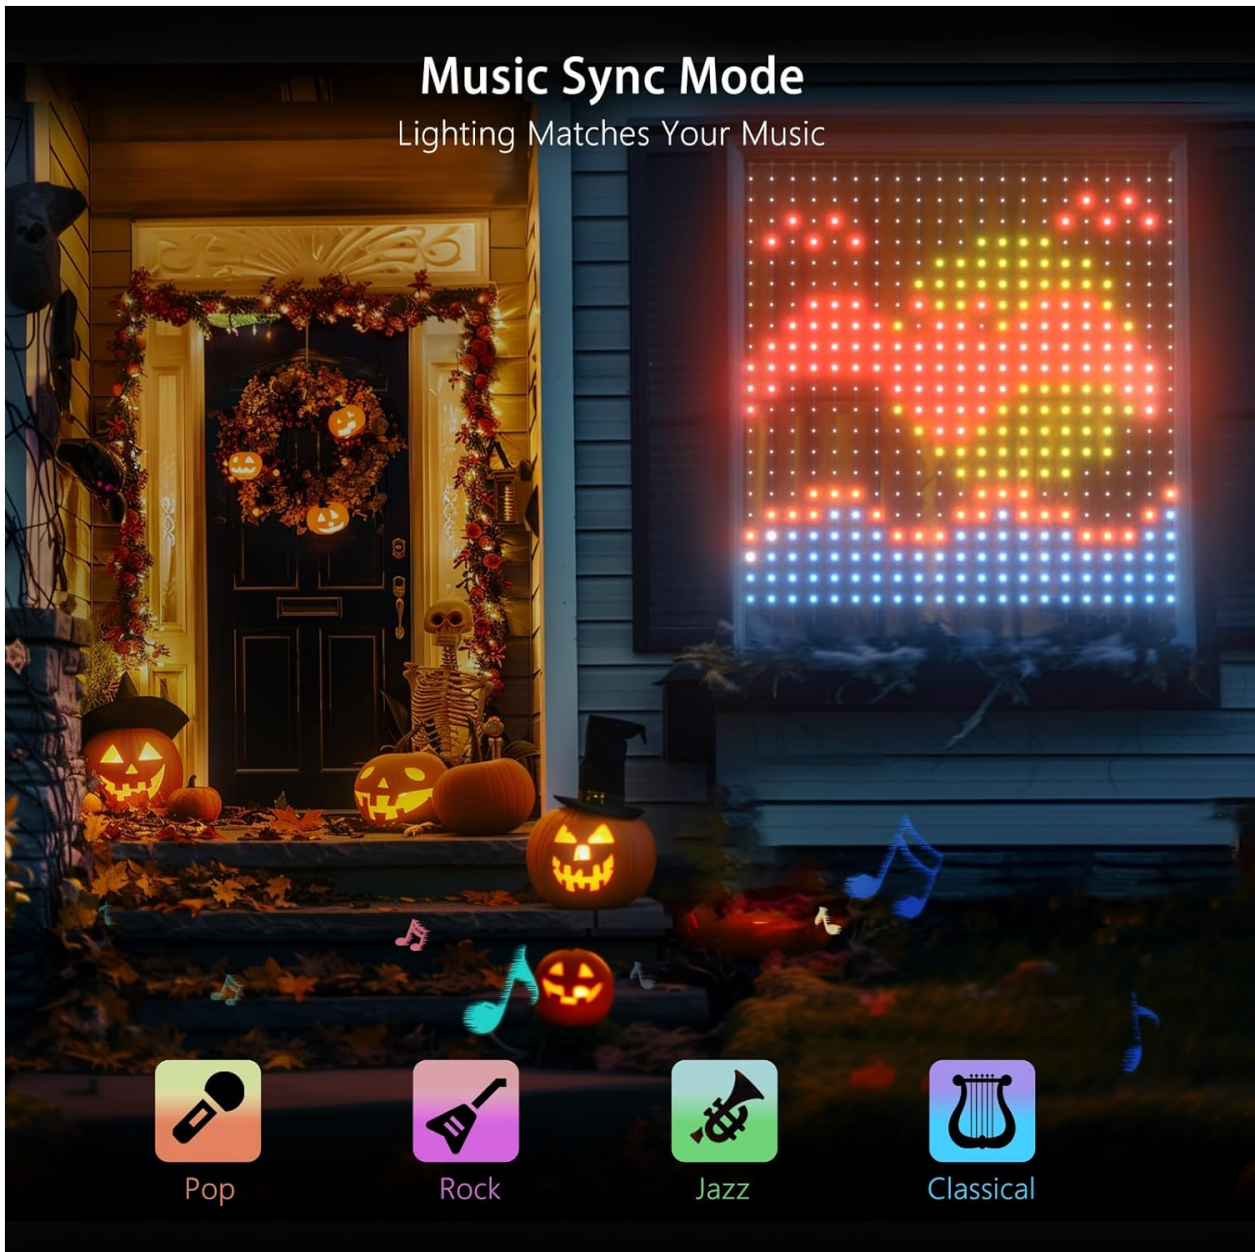

Image: Findpop curtain lights displaying dynamic patterns that synchronize with music, set against a Halloween-decorated porch scene.

6.5. DIY & Programmable Text

Unleash your creativity with customizable lighting options.

- **DIY Mode:** Create your own patterns and designs using the app's graffiti feature.
- **Programmable Text:** Display custom messages with various fonts and backgrounds, ideal for personal messages or commercial use.
- **Image & GIF Upload:** Upload images or GIFs to be displayed on the curtain lights. Note: GIFs are limited to one scene.

More Creativity with DIY Mode

Image: A collage of smartphone screens showcasing the advanced app interface with various DIY customization options, including dynamic scenes, text, GIF, emoji, graffiti, and music rhythm.

6.6. Multi-Set Control

Expand your lighting displays by controlling multiple sets of Findpop curtain lights.

- **Bluetooth Mode:** Connect one device to control up to 8 sets of products for synchronized layouts.
- **Wi-Fi Mode:** Supports multiple devices and sets, ideal for larger installations and events.
- Customize colors, flicker speed, and upload images across all connected sets.

Image: Three Findpop curtain light sets installed on a garage door, displaying a large, synchronized pattern, illustrating the multi-set control capability.

6.7. Timer Function

Automate your lighting schedule for convenience.

- Set specific times for the lights to automatically turn on and off.
- Adjust the lighting schedule as needed through the app to suit your daily routine or special events.

7. MAINTENANCE

To ensure the longevity and optimal performance of your Findpop AI Smart Curtain Lights, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the LED strings with a soft, dry cloth to remove dust. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, carefully coil the light strings and store them in a cool, dry place away from direct sunlight and extreme temperatures.
- **Power Adapter Care:** Ensure the power adapter and connections remain dry. Avoid bending or crimping the power cord excessively.
- **Water Resistance:** While the lights are waterproof, avoid submerging them in water or exposing the power adapter to moisture.

8. TROUBLESHOOTING

If you encounter any issues with your Findpop AI Smart Curtain Lights, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Lights do not turn on.	No power, loose connection, faulty adapter.	Check if the power adapter is securely plugged into both the lights and the outlet. Test the outlet with another device. Ensure the power adapter is functional.
Lights are not responding to the app.	Bluetooth/Wi-Fi disconnected, app issue, lights not paired.	Ensure Bluetooth is enabled on your phone and the lights are within range. For Wi-Fi, check your network connection. Re-pair the lights through the app if necessary. Restart the app or your phone.
Colors or patterns are incorrect/flickering.	Software glitch, poor power supply.	Restart the lights by unplugging and re-plugging the power. Update the app to the latest version. Ensure the power supply is stable.
Voice control not working.	Incorrect setup with Alexa/Google Assistant, network issue.	Verify that your Findpop account is correctly linked in the Alexa or Google Home app. Check your internet connection. Ensure your voice assistant device is online.

If the problem persists after trying these solutions, please contact Findpop customer support for further assistance.

9. WARRANTY AND SUPPORT

Findpop products are designed for quality and reliability. For specific warranty information regarding your AI Smart Curtain Lights (Model CL441), please refer to the warranty card included in your product packaging or visit the official Findpop website.

Customer Support:

If you have any questions, require technical assistance, or need to report an issue, please contact Findpop customer support through the following channels:

- **Website:** Visit the official Findpop website for support resources and contact forms.
- **Email:** Refer to your product packaging or the Findpop website for the customer support email address.

Please have your product model number (CL441) and purchase information ready when contacting support.
