3. Important Safety Instructions

Please read and follow these safety guidelines to prevent damage to the product or injury to yourself:

- Do not expose this appliance to rain, moisture, dripping, or splashing.
- Do not place objects filled with liquids, such as vases, on the apparatus.
- Ensure proper ventilation. Do not block any ventilation openings.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Protect the power cord from being walked on or pinched, particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.

- Only use attachments/accessories specified by the manufacturer.
- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way.

4. Product Overview

The ULTIMEA Apollo S50 is a 4.1-channel soundbar system designed for an immersive audio experience. Key features include:

- **Versatile and Space-Saving Form:** The soundbar's detachable design allows for various mounting styles to suit your room's layout and ambiance. The split design saves space, and the unique 7° tilt design enriches the soundstage with exclusive details.
- **Wired Subwoofer with Enhanced Bass:** This 4.1-channel TV soundbar features 2 built-in tweeters and woofers, producing balanced sound with richer lows and sharper highs. Additionally, the Apollo S50 soundbar includes an extra 7.2L large-volume wired subwoofer, allowing the diaphragm amplitude to reach 15mm for more powerful bass.
- **Personalized Sound Experience:** Enhance your audio with 3 EQ modes designed for music, movies, and games. Utimea's exclusive BassMX technology enriches low frequencies, enabling adjustable bass for a rumbling, pulsating sound. All modes are easily accessible via the EQ settings button.
- **Fuller and Clearer Sound:** The soundbar utilizes an enhanced DSP chip to reduce audio static. This ensures every word and sound is heard precisely as intended.
- **Seamless Connectivity:** The soundbar offers wired and wireless dual connection options, including ARC, Optical, AUX, and USB ports (all cables included). Bluetooth 5.3 technology provides higher speeds and a coverage range of up to 45 feet.
- **Simplified Control:** CEC synchronization allows you to control your TV and soundbar simultaneously via an ARC connection. One-click switching between power/volume reduces the need for multiple remote controls.

5. Setup

5.1. Assembly and Placement

The Apollo S50 soundbar offers flexible assembly options:

- **Single Soundbar Configuration:** Connect the two soundbar sections using the twist-locking system and the short jumper cable. Place it horizontally below your TV.
- **Detached Tower Configuration:** Separate the two soundbar sections and attach each to its respective base. Place them vertically on either side of your TV.
- **Wall Mount:** Use the provided wall mounting kits and brackets to mount the soundbar (either combined or detached) to the wall.

Detachable Design to Free up Space

Unique 7° tilt design enriches the soundstage
with exclusive details.

5.2. Connecting to Your TV/Devices

The Apollo S50 offers multiple connection methods:

- **ARC (Audio Return Channel):** Connect the provided HDMI ARC cable from the soundbar's ARC port to your TV's HDMI ARC port. This allows for TV remote control synchronization.
- **Optical:** Connect the provided optical cable from the soundbar's OPTICAL port to your TV's optical output.
- **AUX:** Use the provided 3.5mm audio cable or RCA cables to connect to devices with analog audio outputs.

- **USB:** Insert a USB drive into the USB port for direct audio playback.
- **Bluetooth 5.3:** For wireless connection, refer to section 6.4 for Bluetooth pairing instructions.

Ensure the wired subwoofer is connected to the soundbar using the dedicated subwoofer cable.

6. Operating Instructions

6.1. Power On/Off

Press the Power button on the soundbar or remote control to turn the unit on or off. If connected via ARC with CEC enabled, your TV may control the soundbar's power automatically.

6.2. Input Selection

Press the 'Input' or 'Source' button on the remote control or the soundbar to cycle through available input modes (ARC, Optical, AUX, USB, Bluetooth).

6.3. Volume Control

Use the Volume Up (+) and Volume Down (-) buttons on the soundbar or remote control to adjust the volume. If using ARC with CEC, your TV remote can also control the volume.

6.4. EQ Modes

The Apollo S50 features three preset Equalizer (EQ) modes to optimize audio for different content:

- **Music Mode:** Balanced audio for music playback.
- **Movie Mode:** Enhanced dialogue and dynamic range for films.
- **Game Mode:** Optimized sound for gaming, often emphasizing effects.

Press the corresponding EQ button on the remote control to switch between modes.

6.5. BassMX Adjustment

Utilize the BassMX feature to adjust the low-frequency output of the subwoofer. Use the dedicated BassMX buttons on the remote control to increase or decrease the bass level according to your preference.

6.6. Bluetooth Pairing

To pair a Bluetooth device:

1. Switch the soundbar to Bluetooth mode. The LED indicator will flash.
2. Enable Bluetooth on your device (smartphone, tablet, etc.).
3. Search for "ULTIMEA Apollo S50" in your device's Bluetooth list and select it to connect.
4. Once connected, the LED indicator will stop flashing and remain solid.

7. Maintenance

7.1. Cleaning

Wipe the surface of the soundbar and subwoofer with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they may damage the finish.

7.2. Storage

If storing the unit for an extended period, unplug it from the power outlet and store it in a cool, dry place, away from direct sunlight and extreme temperatures.

8. Troubleshooting

If you encounter issues with your Apollo S50 soundbar, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power	Power cord not connected; Power outlet not active	Ensure power cord is securely connected. Test the outlet with another device.
No sound	Incorrect input selected; Volume too low; Cables not connected properly	Select the correct input source. Increase volume. Check all audio cables are securely connected.
Distorted sound	Volume too high; Poor cable connection; Source audio quality	Lower the volume. Re-seat audio cables. Test with a different audio source.
Bluetooth pairing failed	Soundbar not in pairing mode; Device too far; Interference	Ensure soundbar is in Bluetooth pairing mode. Move device closer. Avoid other wireless devices.
Remote control not working	Batteries depleted; Obstruction; Remote not aimed correctly	Replace batteries. Remove any obstructions between remote and soundbar. Aim remote directly at the soundbar's sensor.

9. Technical Specifications

Feature	Specification
Brand	ULTIMEA
