Ninja BR201AMZ

Ninja BR201AMZ Professional Blender 2.0 Instruction Manual

Model: BR201AMZ

INTRODUCTION

The Ninja BR201AMZ Professional Blender 2.0 is designed to provide powerful blending performance for a variety of tasks. Featuring a 1200-watt motor, Total Crushing Blades, and Auto-iQ technology, this appliance efficiently processes ingredients for smoothies, shakes, frozen drinks, and more. This manual provides essential information for safe operation, assembly, maintenance, and troubleshooting.

IMPORTANT SAFEGUARDS

Please read all instructions carefully before using your Ninja BR201AMZ Professional Blender 2.0 to ensure safe operation and prevent property damage. Keep this manual for future reference.

- Always ensure the appliance is unplugged from the electrical outlet before assembling, disassembling, or cleaning.
- Do not immerse the motor base in water or other liquids. Clean the motor base with a damp cloth only.
- Avoid contact with moving parts. Keep hands and utensils out of the pitcher while blending to reduce the risk of severe personal injury.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- Always operate the blender on a clean, dry, and level surface.
- Do not overfill the pitcher. The maximum liquid capacity is 64 oz.
- Ensure the lid is securely locked in place before operating the blender.
- This appliance is not intended for use by persons with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

WHAT'S INCLUDED

Your Ninja BR201AMZ Professional Blender 2.0 package includes the following components:

- 1200-Watt Motor Base
- 72-oz. Total Crushing Pitcher with Pour Spout (64-oz. max liquid capacity)
- Stacked Blade Assembly
- Pitcher Lid
- 10-Recipe Quick Start Guide

Easy to clean
Pitcher and blade assembly are dishwasher safe.

ASSEMBLY AND SETUP

Follow these steps to assemble your blender before first use:

1. **Place the Motor Base:** Position the 1200-watt motor base on a clean, dry, and level surface.

2. **Attach the Pitcher:** Place the 72-oz. Total Crushing Pitcher onto the motor base. Align the pitcher handle with the right side of the motor base.
3. **Install the Blade Assembly:** Carefully lower the Stacked Blade Assembly onto the drive gear inside the pitcher. Ensure it is seated properly.
4. **Add Ingredients:** Place your desired ingredients into the pitcher. Do not exceed the MAX LIQUID fill line (64 oz.).
5. **Secure the Lid:** Place the pitcher lid onto the pitcher and press down firmly until it clicks into place. The handle on the lid should align with the handle on the pitcher.

OPERATING INSTRUCTIONS

The Ninja BR201AMZ Professional Blender 2.0 offers both Auto-iQ programs and manual speed controls for versatile blending.

Control Panel Overview

A blender for everything

Power through fruits, veggies, and ice for perfectly smooth shakes, smoothies, and more.

Image: The Ninja BR201AMZ Professional Blender 2.0 positioned on a kitchen counter, showcasing its control panel with power, speed, and Auto-iQ buttons, alongside two glasses of blended beverages.

Power Button (U): Turns the unit on or off.

LOW: Provides a continuous low-speed blend. Ideal for mixing thin batters, gravies, and marinades.

MED: Provides a continuous medium-speed blend. Suitable for sauces, dips, and light chopping.

HIGH: Provides a continuous high-speed blend. Best for pureeing, crushing ice, and making smoothies.

PULSE: Offers controlled processing. Press and hold for short bursts of blending. Release to stop. Useful for chopping and controlled processing.

CRUSH (Auto-iQ): A pre-programmed setting that combines unique timed pulsing, blending, and pausing patterns to efficiently crush ice into snow for frozen drinks and smoothies.

Using Auto-iQ Program

The Auto-iQ program takes the guesswork out of blending. For crushing ice or making frozen drinks, simply select the

CRUSH button. The program will run for a set duration with optimized patterns and automatically stop when complete.

Using Manual Speeds

For complete control over your blending, use the manual speed settings:

- Press the **Power** button to turn the unit on.
- Select **LOW**, **MED**, or **HIGH** for continuous blending at your desired speed.
- For controlled processing, press and hold the **PULSE** button. Release to stop.
- To stop any manual speed, press the selected speed button again or press the **Power** button.

Blend frozen drinks

Crush ice for resort-style frozen drinks like margaritas, daiquiris, and more.

CARE AND MAINTENANCE

Proper care and maintenance will ensure the longevity and optimal performance of your Ninja BR201AMZ Professional Blender 2.0.

Cleaning

- **Motor Base:** Unplug the motor base before cleaning. Wipe it clean with a damp cloth. Do not immerse the motor base in water.
- **Pitcher, Lid, and Blade Assembly:** The pitcher, lid, and stacked blade assembly are all BPA-free and top-rack dishwasher safe. For best results, rinse immediately after use.
- **Hand-Washing:** If hand-washing, use warm, soapy water and a non-abrasive sponge. Exercise caution when handling the blade assembly as the blades are sharp.

10-Recipe Inspiration Guide

Check out the Recipe Inspiration Guide for frozen drinks, smoothies, sauces, dips, and more.

Storage

Store the blender in an upright position with the lid securely on the pitcher and the blade assembly inside. Do not stack items on top of the blender.

TROUBLESHOOTING

If you encounter any issues with your blender, refer to the following table for common problems and solutions.

Problem	Possible Cause	Solution
Blender does not turn on.	Unit is not plugged in. Pitcher or lid not properly assembled. Overheating.	Ensure the power cord is securely plugged into an outlet. Verify the pitcher is fully seated and the lid is locked. Allow the unit to cool down for 15 minutes if it has overheated.
Ingredients are not blending smoothly.	Too many ingredients. Not enough liquid. Ingredients are too large.	Reduce the amount of ingredients. Add more liquid. Cut larger ingredients into smaller pieces. Use the PULSE function to break down larger chunks.
Unit is leaking.	Lid is not properly secured. Pitcher is overfilled.	Ensure the lid is firmly pressed down and locked into place. Do not exceed the MAX LIQUID fill line (64 oz.).
Motor sounds strained.	Overloading the blender.	Reduce the amount of ingredients. Add more liquid. Use the PULSE function to start breaking down tough ingredients.
