

CUCICU B0CKVD6JSL

CUCICU 3-in-1 Magnetic Foldable Wireless Charging Station

USER MANUAL

Brand: CUCICU | Model: B0CKVD6JSL

1. Introduction and Overview

The CUCICU 3-in-1 Magnetic Foldable Wireless Charging Station is designed to provide a convenient and efficient charging solution for multiple Apple devices simultaneously. This compact and portable charger is ideal for home, office, or travel, allowing you to power your iPhone (12 series and above), Apple Watch, and AirPods (with wireless charging case) from a single, streamlined device.

Its magnetic design ensures secure placement for your iPhone, while dedicated spots cater to your Apple Watch and AirPods. The included 20W USB-C adapter ensures stable and fast charging.

2. What's in the Box

Upon unboxing your CUCICU Wireless Charging Station, please ensure all components are present:

- 1 x CUCICU 3-in-1 Wireless Charging Station
- 1 x 20W USB-C Power Adapter
- 1 x USB-C to USB-C Charging Cable
- 1 x User Manual (this document)

3. Specifications

Feature	Detail
Product Dimensions	6.06 x 5.51 x 1.42 inches (unfolded)
Item Weight	11.3 ounces

Connectivity Technology	Wireless
Connector Type	USB Type C
Input Voltage	9 Volts
Special Feature	Magnetic, Foldable
Power Adapter	20W USB-C (Included)

4. Compatibility

This charging station is specifically designed for Apple devices. Please ensure your devices are compatible:

- **iPhone:** iPhone 16, 15, 14, 13, 12 Series (Mini/Plus/Pro/Pro Max). *Note: Magnetic function is only suitable for iPhone 12 and above.*
- **Apple Watch:** Apple Watch 10/9/8/7/6/5/4/3/2/SE/Ultra 2.
- **AirPods:** AirPods 3 and AirPods 4 (with wireless charging case). *Note: For AirPods 2/3, a wireless charging case is required.*

This charger is not suitable for Samsung, Xiaomi, or other Android phones.

Universal Compatibility

7.5W-15W Max For iPhone

iPhone 16 Series

iPhone 15 Series

iPhone 14 Series

iPhone 13 Series

iPhone 12 Series

3W Max For Apple Watch

Apple Watch Series 10

Apple Watch Ultra 2 / Ultra

Apple Watch Series 5 / 6 / 7 / 8 / 9

Apple Watch Series 2 / 3 / 4

5W Max For AirPods

AirPods 2

AirPods 3

AirPods Pro

AirPods Pro 2

Note: for AirPods 2/3, needs work with a wireless charging case.

Image: A visual chart detailing the compatibility of the charging station with various iPhone models (12-16 series), Apple Watch models (Series 2-10, Ultra/Ultra 2), and AirPods models (2, 3, Pro, Pro 2), highlighting the need for a wireless charging case for older AirPods models.

5. Setup Instructions

- 1. Unfold the Charger:** Gently unfold the charging station from its compact, folded state. The main phone charging pad will lift, and the Apple Watch charging arm will extend.

Foldable & Portable Design

Image: A three-step visual guide demonstrating how to unfold the charging station: 1. Rotate the phone charging pad 180 degrees. 2. Adjust the Apple Watch charging arm to a 65-degree angle. 3. The station is fully consolidated and ready for use.

2. **Connect Power:** Insert one end of the provided USB-C to USB-C charging cable into the USB-C port on the side of the charging station. Plug the other end of the cable into the included 20W USB-C power adapter.
3. **Plug into Wall Outlet:** Insert the 20W USB-C power adapter into a standard wall outlet.

3 in 1 Wireless Charging

Faster, More Stable Charging for All Devices

Image: The CUCICU 3-in-1 Wireless Charging Station is shown connected to a wall outlet via its 20W USB-C adapter and cable, with an iPhone and Apple Watch charging simultaneously.

4. **Ready for Use:** The charging station is now powered on and ready to charge your devices.

6. Operating Instructions

1. **Charging iPhone:** Place your compatible iPhone (iPhone 12 series or newer) onto the main magnetic charging pad. The magnetic alignment will securely hold your phone in place. The phone can be charged vertically for video calls or horizontally for watching movies.

Strong Magnetism

For Efficient Wireless Charging

Image: A hand placing an iPhone onto the magnetic charging pad of the CUCICU station, illustrating the strong magnetic connection for efficient wireless charging.

Vertica charging

Horizontally Charging

Watch movies at anytime

Horizontally

Image: The charging station is shown supporting an iPhone in both vertical and horizontal orientations, allowing for video calls or media consumption while charging.

2. **Charging Apple Watch:** Place your Apple Watch onto the dedicated charging puck on the extended arm. Ensure the watch is properly aligned for charging.
3. **Charging AirPods:** Place your AirPods (with wireless charging case) onto the charging area located at the base of the station, behind the phone charging pad.
4. **Simultaneous Charging:** All three devices can be charged simultaneously. The intelligent protection technology ensures safe and stable charging for all connected devices.

7. Important Safety Information

- This wireless charging station is equipped with intelligent protection technology, providing multiple protections such as overheat protection, overcharge protection, short circuit protection, overcurrent protection, and foreign object detection.
- Ensure your device is placed correctly on the charging area to prevent overheating or inefficient charging.
- Do not place metal objects, credit cards, or cases with metal rings/magnetic pads between your device and the charging pad, as this may interfere with wireless charging or cause damage.

Case-Friendly

Image: An illustration showing which types of phone cases are compatible with the magnetic charging function. It indicates that MagSafe cases or no cases are compatible, while metal cases, metal rings, credit cards, magnetic pads, and defender cases are not.

- Keep the charging station away from water, moisture, and extreme temperatures.
- Do not disassemble, modify, or attempt to repair the device yourself. Contact customer service if issues arise.
- Use only the provided 20W adapter and charging cable for optimal performance and safety.

8. Troubleshooting

• Device not charging:

- Ensure the charging station is properly connected to the 20W adapter and a live wall outlet.
- Verify that your device is compatible with wireless charging and is placed correctly on the charging pad.
- Remove any thick or metallic phone cases, metal rings, or credit cards from your phone, as these can interfere with wireless charging.
- Try repositioning your device on the charging pad to ensure proper alignment with the internal coils.

• Slow charging:

- Confirm you are using the included 20W USB-C adapter and cable. Lower wattage adapters

may result in slower charging speeds.

- Ensure your device is not running power-intensive applications in the background.
- Check for proper device alignment on the charging pad.

- **Overheating:**

- While the charger has overheat protection, excessive heat can occur if the device is not properly aligned or if there are foreign objects on the pad. Remove the device, allow it to cool, and re-place it correctly.
- Ensure the charging station is in a well-ventilated area.

9. Maintenance and Care

- To clean the charging station, disconnect it from the power source and wipe it with a soft, dry cloth.
- Avoid using harsh chemicals, abrasive cleaners, or solvents.
- When traveling or storing, fold the charging station into its compact form to protect the charging surfaces.

10. Warranty and Support

CUCICU is committed to providing high-quality products and friendly customer service. For any questions, concerns, or warranty claims, please refer to the contact information provided with your product packaging or visit the official CUCICU website for support.

Please retain your proof of purchase for warranty purposes.
