- **Cover:** The cushion cover is hand-washable. Remove the cover, hand wash with mild detergent in cold water, and air dry. Do not machine wash or tumble dry.

6.3 Seasonal Storage

During periods of non-use or harsh weather, it is recommended to store the stools indoors or cover them with appropriate outdoor furniture covers to protect them from elements and prolong their lifespan.

7. TROUBLESHOOTING

If you encounter any issues with your bar stools, refer to the following common problems and solutions:

- **Stool is Wobbly:**
Solution: Check if all screws are tightened securely. Adjust the anti-slip foot pads on each leg to ensure the stool is level on uneven surfaces.
- **Swivel Mechanism is Stiff:**
Solution: Ensure no debris is obstructing the swivel mechanism. A small amount of silicone-based lubricant can be applied to the moving parts if necessary, but avoid oil-based lubricants that can attract dirt.

- **Cushion Cover Difficult to Remove/Replace:**

Solution: Ensure the zipper is fully open. Gently fold the cushion to ease removal or replacement. Do not force the zipper.

- **Rust Spots on Frame:**

Solution: The metal frame is painted to resist rust. If minor rust spots appear due to prolonged exposure to moisture or damage to the paint, clean the area, lightly sand if necessary, and apply a rust-inhibiting paint suitable for outdoor metal.
