## BABELIO CB-M-101

# Babelio Baby/Dog Gate Instruction Manual

Model: CB-M-101

Brand: BABELIO

## 1. INTRODUCTION & PRODUCT OVERVIEW

Thank you for choosing the Babelio No Bottom Bar Baby/Dog Gate. This hardware-mounted safety gate is designed to provide a secure barrier for children and pets in various indoor spaces, including stairs and doorways. Its innovative design prioritizes safety and convenience, featuring an adjustable width, an auto-close mechanism, and a unique no-bottom-bar structure to prevent tripping hazards.

The Babelio No Bottom Bar Baby/Dog Gate providing a safe space for your child.

## Key Features:

- **No Bottom Bar Design:** Minimizes tripping risk, ideal for top of stairs.
- **Adjustable Width:** Extends from 29.7 to 46.5 inches to fit various openings.
- **Auto-Close Feature:** Gate closes softly behind you when opened less than 90 degrees.
- **Stay-Open Feature:** Stays open when pushed past 90 degrees for convenient passage.
- **Durable Construction:** Made from high-quality alloy steel with a dual-locking system.
- **Hardware Mount:** Provides secure and stable installation.

## 2. IMPORTANT SAFETY INFORMATION

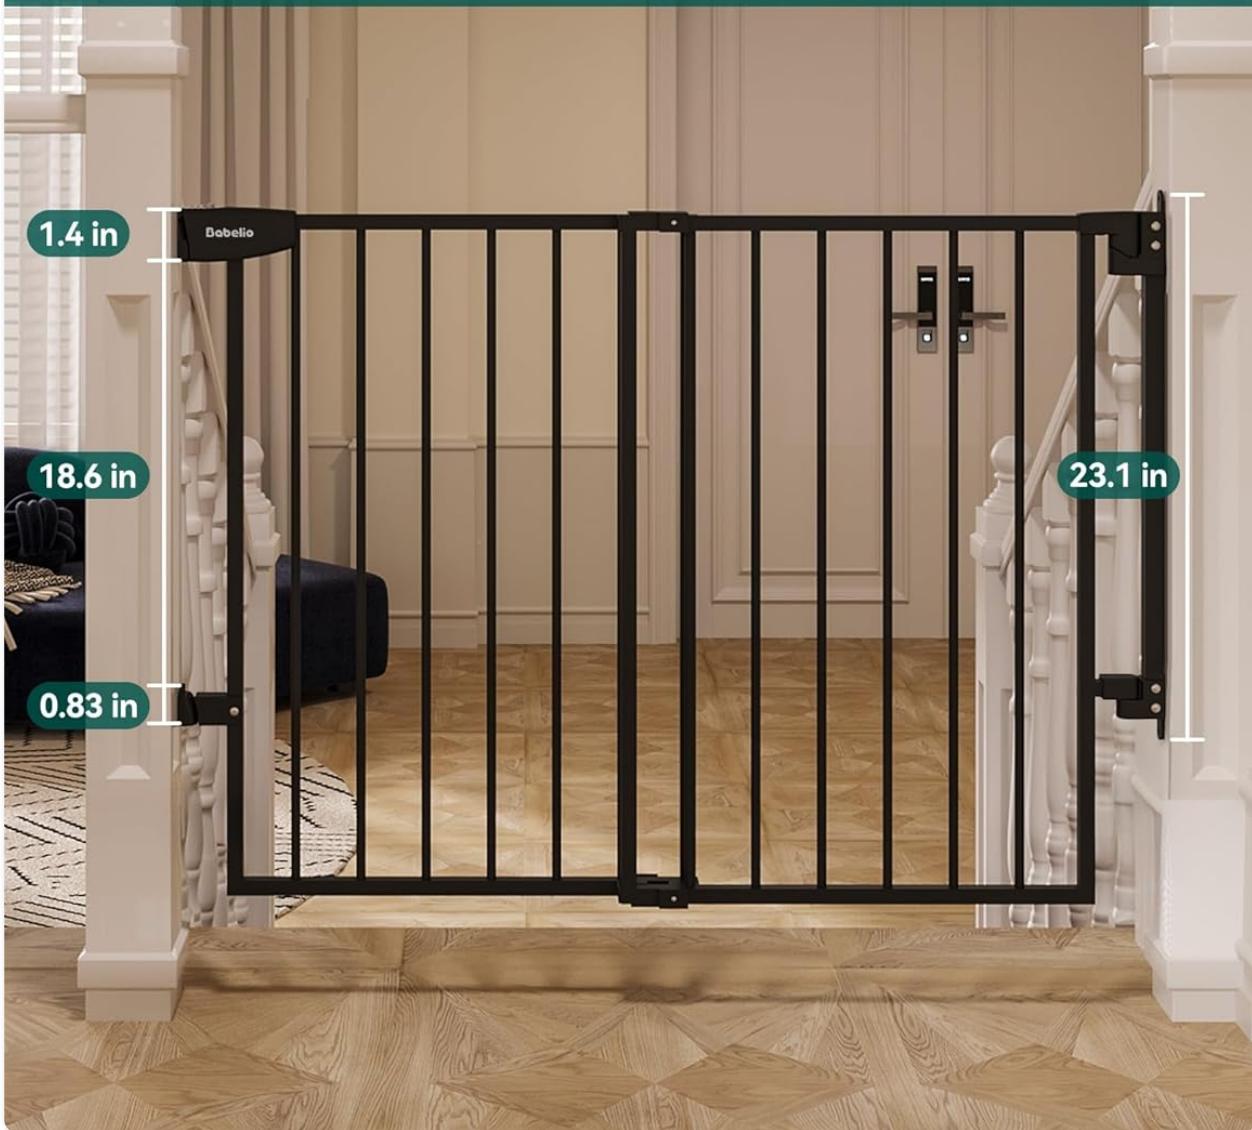

Please read all instructions carefully before installation and use. Failure to follow these warnings and instructions could result in serious injury or death.

- **WARNING:** Never leave child unattended.
- **WARNING:** This product is not a substitute for adult supervision.
- **WARNING:** Always install and use the gate as directed.
- **WARNING:** To prevent serious injury or death, securely install gate or enclosure and use according to manufacturer's instructions.
- **WARNING:** This gate is designed for use with children from 6 to 24 months.
- **WARNING:** This gate is for domestic use only.
- **Installation Requirement:** Ensure that the upper and lower drilling positions of the gate wall hinge are on the same vertical plane for proper and secure installation.
- **Wall Compatibility:** This gate is suitable for wooden walls, concrete walls, and brick walls. It is**NOT** compatible with drywall or plasterboard for mounting.

## PLEASE MEASURE THE STAIRS

The hinges on both sides of the gate need to be installed on the same vertical plane.

Ensure proper measurements and vertical alignment for secure installation.

### 3. PACKAGE CONTENTS

Please check the package contents to ensure all parts are present before beginning installation. If any parts are missing or damaged, please contact customer support.

**A** Upper Latch x 1

**B** Lower Latch x 1

**C** Gate Frame x 1

**D** Template x 1

**E** Hexagonal Wrench x 1

**F** Mounting Screw x 10

**G** Wall Anchor x 10

All components included in your Babelio gate package.

Part	Description	Quantity
A	Upper Latch	1
B	Lower Latch	1
C	Gate Frame	1
D	Template	1
E	Hexagonal Wrench	1
F	Mounting Screw	10
G	Wall Anchor	10

## 4. SETUP & INSTALLATION

Follow these steps for proper installation of your Babelio gate. For a visual guide, please refer to the installation video below.

- Step 1: Verify Installation Requirements.** Ensure your stairs or doorway meet the necessary dimensions and wall types. The gate extends from 29.7 to 46.5 inches wide. The hinges on both sides must be installed on the same vertical plane.
- Step 2: Confirm All Included Parts.** Refer to the 'Package Contents' section to ensure you have all necessary components.
- Step 3: Select Proper Accessories.** Choose appropriate tools for wood mounting (6mm drill, screwdriver, nails) or sturdy wall mounting (6mm drill, screwdriver, wall anchors).
- Step 4: Paste the Template on the Wall.** Position the provided template on the wall where the gate will be installed, ensuring it is at a 90-degree angle to the floor.
- Step 5: Punch Holes.** Using a 6mm drill bit, carefully drill holes according to the markings on the template.
- Step 6: Secure the Connecting Rod.** Attach the gate's connecting rod to the drilled holes using screws. Ensure the gate is in the open position during this step.
- Step 7: Unscrew E-latches and Extend Gate.** Unscrew the four E-latches (two on top, two on bottom) and extend the gate frame to reach the opposite wall.
- Step 8: Determine Latch Position.** With the gate extended, determine the sticking position for the upper and lower latches on the opposite wall.
- Step 9: Paste Latches to Wall.** Securely paste the upper and lower latches to the wall at the determined positions.
- Step 10: Adjust Gate Width.** Adjust the width of the gate again using the E-buckles to ensure a snug fit.
- Step 11: Lock E-latches.** Lock the E-latches when the distance between the gate handle and the upper latch is less than 0.078 inches (2mm).
- Step 12: Install Latches.** Open the gate and install the upper and lower latches securely with screws.

## 5. OPERATING INSTRUCTIONS

### Opening the Gate:

- To open the gate, lift the handle and push the gate in either direction.
- The dual-locking system ensures secure closure.

### Auto-Close & Stay-Open Features:

- Auto-Close:** If the gate is opened less than 90 degrees, it will automatically and softly close behind you.
- Stay-Open:** If the gate is opened to 90 degrees or more, it will remain open for convenient, continuous passage.

$\geq 90^\circ$

Stay Open

## More Convenient Passage

$< 90^\circ$

Self Close

Understanding the auto-close and stay-open functionalities for convenient use.

### Adjusting Gate Width:

- The gate's width can be adjusted from 29.7 to 46.5 inches.
- Use the hexagonal wrench (Part E) to loosen or tighten the E-latches on the gate frame to achieve the desired width.

# Easy Width Adjustment

Up to 46.5 inch

The gate's width can be easily adjusted to fit various openings.

## 6. MAINTENANCE

- **Cleaning:** Wipe the gate regularly with a damp cloth and mild soap. Do not use abrasive cleaners or harsh chemicals.

- **Regular Checks:** Periodically check all mounting hardware and latches to ensure they are secure and functioning correctly. Tighten any loose screws as needed.
- **Lubrication:** If the gate hinges become stiff, apply a small amount of silicone-based lubricant to the hinge points.

## 7. TROUBLESHOOTING

- **Gate not closing properly:**
  - Check if the gate is installed on a perfectly vertical plane. Adjust if necessary.
  - Ensure the E-latches are tightened correctly, providing enough tension for the auto-close feature.
  - Verify that the distance between the handle and the upper latch is less than 0.078 inches (2mm) when the gate is closed.
- **Gate feels loose or wobbly:**
  - Re-check all mounting screws and wall anchors for tightness.
  - Ensure the gate is installed on a suitable wall type (wood, concrete, brick) and not drywall/plasterboard.
- **Difficulty opening the gate:**
  - Ensure you are lifting the handle sufficiently to disengage the dual-locking mechanism.
  - Check for any obstructions around the gate's swing path.

If you encounter issues not listed here or if troubleshooting steps do not resolve the problem, please contact our customer support team.

## 8. SPECIFICATIONS

Attribute	Value
Brand	BABELIO
Model Number	CB-M-101
Product Dimensions	48 x 48 x 28 inches (Gate: 29.7-46.5"W x 28"H)
Item Weight	10.53 pounds
Material Type	Alloy Steel
Color	Boundless - Black
Mounting Type	Hardware Mount

Attribute	Value
Target Species	Dog, Baby
Age Range (Description)	Baby
Closure Type	Button
Batteries Required	No
Country/Region of Origin	China

## 9. WARRANTY & SUPPORT

---

### Warranty:

Your Babelio child gate includes a **one-year warranty** from the date of purchase. This warranty covers manufacturing defects and material flaws under normal use. Please retain your proof of purchase for warranty claims.

### Customer Support:

For installation assistance, troubleshooting, or any other queries, our dedicated support team is available **24/7** to help you every step of the way. Please refer to the contact information provided in your product packaging or on the official Babelio website.
