Cecotec Bolero MiniCooling 25L Portable Mini-Fridge User Manual

Model: 02703

1. INTRODUCTION

This manual provides essential information for the safe and efficient operation of your Cecotec Bolero MiniCooling 25L Portable Mini-Fridge. Please read these instructions carefully before use and retain them for future reference.

The Cecotec Bolero MiniCooling 25L is a versatile portable mini-fridge designed for both cooling and heating functions, suitable for various environments including home, office, car, and caravan use. It operates on both 12V DC and 220V AC power sources.

2. SAFETY INSTRUCTIONS

- Ensure the appliance is placed on a stable, level surface.
- Do not block ventilation openings. Maintain adequate space around the unit for proper airflow.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Keep the appliance away from direct sunlight and heat sources.
- Use only the provided power cables. Connect to the correct voltage (12V DC for vehicles, 220V AC for household outlets).
- Unplug the appliance before cleaning or when not in use.
- Do not attempt to repair or modify the appliance yourself. Contact qualified service personnel for repairs.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

3. PACKAGE CONTENTS

Verify that all components are present upon unpacking:

- 1 x Cecotec Bolero MiniCooling 25L Portable Mini-Fridge
- 1 x AC Power Cable (220V)
- 1 x DC Power Cable (12V)
- 1 x User Manual

4. PRODUCT FEATURES

- **Capacity:** 25 Liters, providing ample storage for beverages, snacks, and other items.
- **Dual Power Supply:** Operates on 12V DC (car/caravan) and 220V AC (household).
- **Cooling Function:** Maintains temperatures down to approximately 7°C.
- **Heating Function:** Can warm contents up to approximately 65°C.
- **Portable Design:** Equipped with a convenient carrying handle for easy transport.
- **Quiet Operation:** Designed for minimal noise, suitable for various environments.
- **Compact Size:** Dimensions of 37 x 33.8 x 52.5 cm for versatile placement.

5. SETUP

5.1 Placement

Choose a location that is dry, well-ventilated, and away from direct sunlight or heat sources. Ensure there is at least 10 cm of space around all sides of the unit for proper air circulation.

Side view of the Cecotec Bolero MiniCooling 25L portable mini-fridge, illustrating its dimensions: 37 cm depth, 33.8 cm width, and 52.52 cm height.

5.2 Power Connection

- 1. For Household Use (220V AC):** Connect the AC power cable to the appliance's AC input port, then plug the other end into a standard wall outlet.
- 2. For Vehicle Use (12V DC):** Connect the DC power cable to the appliance's DC input port, then plug the other end into your vehicle's 12V cigarette lighter socket.

Note: Ensure the power source matches the cable type to prevent damage to the unit.

The Cecotec Bolero MiniCooling 25L mini-fridge placed inside a caravan, highlighting its compatibility and portability for travel and outdoor use.

6. OPERATING INSTRUCTIONS

6.1 Powering On/Off

Once connected to a power source, locate the power switch on the unit. Flip the switch to the 'ON' position to power on the appliance.

6.2 Selecting Cooling or Heating Mode

The appliance features a switch to select between cooling and heating modes. Move the switch to the desired setting:

- **Cooling Mode:** Select this mode to cool contents. The internal temperature will be maintained at approximately 7°C, depending on ambient conditions.
- **Heating Mode:** Select this mode to warm contents. The internal temperature will be maintained at approximately 65°C.

Important Note: This mini-fridge does not have a thermostat for precise temperature adjustment. It operates

at a fixed cooling temperature (approx. 7°C) or heating temperature (approx. 65°C).

7. MAINTENANCE

7.1 Cleaning

1. Always unplug the appliance before cleaning.
2. Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or solvents.
3. Clean the interior with a mild detergent and a damp cloth. Rinse with a clean, damp cloth and dry thoroughly.
4. Ensure ventilation openings are free from dust and debris. Use a soft brush or vacuum cleaner to gently clean them.

7.2 Storage

If storing the appliance for an extended period, ensure it is clean and dry. Store it in a cool, dry place, away from direct sunlight and extreme temperatures.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance not powering on	No power supply; incorrect cable; power switch off	Check power connection; ensure correct cable is used; turn power switch to 'ON'.
Not cooling/heating effectively	Blocked vents; ambient temperature too high/low; door not closed properly; overfilled	Clear vents; ensure proper ventilation; check door seal; do not overfill. Allow time for temperature stabilization.
Excessive noise	Blocked fan; unstable surface	Check for obstructions around the fan; place on a stable surface.

If the problem persists after attempting these solutions, please contact customer support.
