

Cecotec Conga Ash 3000 Compact Plus (Model 08119)

Cecotec Conga Ash 3000 Compact Plus Ash Vacuum Cleaner User Manual

Model: 08119

1. INTRODUCTION AND OVERVIEW

The Cecotec Conga Ash 3000 Compact Plus is a powerful ash vacuum cleaner designed for efficient removal of cold ash and various debris. With a 1000W motor and a 15-liter stainless steel tank, it offers robust performance for cleaning fireplaces, pellet stoves, barbecues, and other areas with fine or coarse dirt. This manual provides essential information for safe and effective use, setup, operation, and maintenance of your ash vacuum cleaner.

An overview of the Cecotec Conga Ash 3000 Compact Plus ash vacuum cleaner, showcasing its main unit, flexible suction hose, and various nozzles for different cleaning tasks.

2. SAFETY INSTRUCTIONS

Please read all safety instructions carefully before using the appliance to prevent accidents and ensure proper operation. Keep this manual for future reference.

- **Cold Ash Only:** Only vacuum completely cold ash. Hot ash or embers can cause fire and damage the appliance.
- **No Liquids:** This appliance is designed for dry vacuuming only. Do not vacuum liquids or wet materials.
- **Electrical Safety:** Ensure the power cord and plug are undamaged. Do not operate with a damaged cord or plug. Unplug the appliance from the power outlet before cleaning or performing any maintenance.
- **Filter Installation:** Always ensure the filter is correctly installed and clean before use to maintain suction efficiency and prevent motor damage.
- **Supervision:** This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards

involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

- **Proper Use:** Do not use the appliance for purposes other than those described in this manual.
- **Ventilation:** Ensure adequate ventilation when operating the vacuum cleaner in enclosed spaces.

3. PACKAGE CONTENTS

Verify that all components are present and in good condition upon unpacking:

- Cecotec Conga Ash 3000 Compact Plus Ash Vacuum Cleaner Unit
- Reinforced Suction Hose with Metallic Coating
- 38mm Nozzle
- Filter with Metallic Mesh

A clear front view of the ash vacuum cleaner, highlighting its compact design and the 15L capacity marking on the tank.

4. PRODUCT FEATURES

- **UltraPower Technology:** Equipped with a 1000W motor for powerful and efficient suction.
- **Extreme Suction Capability:** Designed to effectively vacuum various types of debris, including cold ash from fireplaces and pellet stoves, barbecue residues, soil, glass shards, construction material remnants, leaves, and sawdust.
- **Resistant Suction Hose:** Features a reinforced suction hose with a metallic coating, ensuring durability and heat resistance for demanding cleaning tasks.
- **InoxDeposit Tank:** Large 15-liter capacity tank made from stainless steel, offering high resistance to heat and dirt.
- **Metallic Mesh Filter:** The integrated filter with a metallic mesh ensures optimal suction performance and helps prevent damage from fine particles.
- **Easy Handling and Portability:** Designed with an integrated handle for convenient transport and

maneuverability.

- **Large Diameter Accessories:** Includes accessories with a wide diameter for efficient and effortless cleaning of various surfaces.

A person easily carrying the compact ash vacuum cleaner by its integrated handle, illustrating its portability and ease of transport.

5. SETUP

Follow these steps to prepare your ash vacuum cleaner for use:

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Attach Suction Hose:** Connect the reinforced suction hose securely to the inlet port on the vacuum cleaner unit.
3. **Install Nozzle:** Insert the 38mm nozzle firmly onto the free end of the suction hose.
4. **Verify Filter:** Ensure the metallic mesh filter is properly seated and secured inside the tank, beneath the motor head.
5. **Secure Tank:** Place the motor head onto the tank and fasten the clips on both sides to ensure a tight seal.

6. OPERATING INSTRUCTIONS

To operate the Cecotec Conga Ash 3000 Compact Plus:

1. **Ensure Ash is Cold:** Crucially, confirm that the ash or debris you intend to vacuum is completely cold. Vacuuming hot materials can cause severe damage and fire hazards.
2. **Plug In:** Insert the power plug into a suitable electrical outlet.
3. **Power On:** Locate the power switch on the unit and switch it to the 'ON' position. The vacuum cleaner will start.
4. **Vacuuming:** Direct the nozzle towards the ash or debris. Move the nozzle slowly and steadily over the surface to ensure thorough cleaning.
5. **Power Off:** After cleaning, switch the power button to the 'OFF' position and unplug the appliance from the power outlet.

Demonstration of the ash vacuum cleaner in use, effectively removing cold ash from a fireplace hearth using the specialized nozzle.

A user cleaning leaves and light debris from a tiled area near a pool, showcasing the vacuum's versatility for various dry cleaning tasks.

7. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your ash vacuum cleaner.

7.1 Emptying the Tank

1. **Unplug:** Always unplug the vacuum cleaner from the power outlet before any maintenance.
2. **Unlatch:** Release the clips on the sides of the tank that secure the motor head.
3. **Lift Head:** Carefully lift the motor head from the stainless steel tank.
4. **Empty:** Dispose of the collected ash and debris into an appropriate waste container.

7.2 Cleaning the Filter

The metallic mesh filter should be cleaned regularly, especially when suction power decreases.

1. **Remove Filter:** With the motor head removed, carefully detach the filter.
2. **Clean:** Gently tap the filter against a hard surface to dislodge accumulated dust and ash. For a more

thorough cleaning, you can use a soft brush or rinse it with water.

3. **Dry Completely:** If rinsed with water, ensure the filter is completely dry before reinstallation to prevent damage to the motor.
4. **Reinstall:** Place the clean, dry filter back into its position and secure the motor head.

An image showing the motor head being lifted and the metallic mesh filter being removed from the ash vacuum cleaner's tank for maintenance and cleaning.

7.3 Hose and Nozzle Cleaning

- Inspect the suction hose and nozzle for any blockages. Clear any obstructions using a long, blunt object.
- Wipe down the exterior of the hose and nozzles with a damp cloth if necessary.

8. TROUBLESHOOTING

If you encounter issues with your ash vacuum cleaner, refer to the following troubleshooting guide:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No Suction / Weak Suction	Tank is full Filter is clogged Hose or nozzle is blocked Connections are loose	Empty the tank. Clean or replace the filter. Check and clear any obstructions in the hose or nozzle. Ensure all connections are secure.
Vacuum Cleaner Does Not Turn On	Power cord not plugged in Power outlet is not functional Power switch is off	Plug the power cord securely into an outlet. Test the outlet with another appliance. Ensure the power switch is in the 'ON' position.

9. SPECIFICATIONS

Brand	Cecotec
Model Number	08119
Power	1000 Watts
Capacity	15 Liters
Voltage	1000 Volts
Color	Black
Item Weight	3.5 Kilograms
Package Dimensions	35 x 28 x 28 cm
Special Feature	High suction power, heat resistant, extreme debris suction capability
Filter Type	Filter with metallic mesh
Included Components	Suction tube, nozzle, and filter
Cordless	No
Spare Parts Availability	10 Years

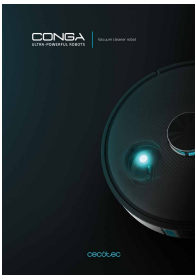

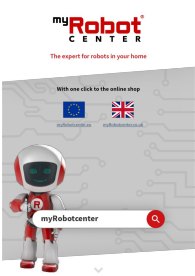

10. WARRANTY AND SUPPORT

Cecotec products are designed for durability and performance. For specific warranty details, terms, and conditions, please refer to the warranty card included with your product packaging. You may also visit the official Cecotec website for the most up-to-date support information, FAQs, and contact details for customer service.

Please note that spare parts for this model are available for up to 10 years from the date of purchase, ensuring long-term usability and maintenance.
