Matchbox 2023 70th Anniversary Special Edition Moving Parts Diecast Vehicles User Manual

Model: HMV12-956A

INTRODUCTION

This manual provides instructions for the Matchbox 2023 70th Anniversary Special Edition Moving Parts Complete Set of 5 Diecast Vehicles. This collection celebrates the 70th anniversary of the Matchbox brand, featuring highly detailed diecast models with functional moving parts such as doors, hoods, or trunks. Each vehicle is finished in a matte orange color and includes special 70th Years badges.

PRODUCT OVERVIEW

The set includes five distinct diecast vehicles, each with unique moving parts:

SETUP

The Matchbox 70th Anniversary Special Edition vehicles are ready for use directly out of the packaging. No assembly or batteries are required.

1. Carefully remove each diecast vehicle from its individual packaging.
2. Inspect each vehicle for any visible damage or manufacturing defects.
3. Ensure all moving parts (doors, hoods, trunks) operate smoothly.

Warning: Choking Hazard - Small Parts. Not suitable for children under 3 years.

OPERATING

These diecast vehicles are designed for manual operation and display. The primary interactive feature is the "Moving Parts" mechanism on each vehicle.

- **Moving Parts:** Gently open and close the designated moving parts (doors, hoods, or trunks) on each vehicle. Avoid excessive force to prevent damage to the hinges or the vehicle body.
- **Rolling Wheels:** The vehicles feature free-rolling wheels. They can be manually pushed across smooth surfaces.
- **Display:** These models are also suitable for display purposes due to their detailed design and special anniversary branding.

MAINTENANCE

Proper care will ensure the longevity and appearance of your diecast vehicles.

- **Cleaning:** To clean the vehicles, gently wipe them with a soft, dry cloth. For stubborn dust or grime, a slightly damp cloth can be used, followed immediately by a dry cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the paint finish and decals.
- **Storage:** Store the vehicles in a cool, dry place away from direct sunlight and extreme temperatures to prevent fading or material degradation. Keeping them in their original packaging or a display case can help protect them from dust and damage.
- **Handling:** Handle the vehicles by their main body. Avoid gripping or applying pressure to delicate parts like mirrors, spoilers, or the moving components.

TROUBLESHOOTING

These diecast vehicles are simple in design and operation, minimizing common issues. However, if you encounter any problems:

- **Stiff Moving Parts:** If a door, hood, or trunk feels stiff, gently try to open and close it a few times. Do not force it. Over time, the mechanism should loosen slightly with careful use.
- **Damaged Parts:** If any part appears broken or detached, inspect it carefully. For minor detachments, a small amount of model-safe adhesive might be used for repair. For significant damage, contact customer support.
- **Paint Chipping/Scratches:** Diecast models are susceptible to paint damage from impacts or rough handling. This is generally considered wear and tear and is not typically covered under warranty.
