JOYOUNG Y1

Joyoung Y1 Intelligent Soymilk Machine User Manual

Model: Y1-US03

Introduction

The Joyoung Y1 Intelligent Soymilk Machine is a versatile appliance designed for preparing various beverages and foods, including soymilk, vegan milk, soups, and smoothies. This fully automatic food blender features self-cleaning capabilities and a high-speed motor for efficient processing. This manual provides essential information for safe operation, maintenance, and troubleshooting.

Important Safety Information

Please read all safety instructions carefully before using the appliance. Failure to follow these instructions may result in injury or damage to the appliance.

- **Do not open the lid during the blending process** to avoid burns from hot contents or steam.
- When room temperature exceeds 30°C (86°F), **do not set the timer for more than 12 hours**
- Avoid placing the blending cup over an open flame or heating it on an induction cooker.
- After preparation, the blending cup, outlet, mixer, and mixer lid will be hot to the touch. **Avoid direct contact**.
- If there are uncrushed ingredients inside the blending cup, select the speed adjustment function on the control panel to crush and release them.
- Please strictly follow recipes when preparing beverages to ensure proper consistency and safety.
- **Do not disconnect the power during automatic cleaning** to ensure the cycle completes correctly.
- For further precautions, always refer to the complete instruction manual provided with the product.

Product Overview

The Joyoung Y1 Soymilk Machine is designed for efficiency and convenience. Key features include:

- **Capacity:** Available in capacities from 0.3L to 1L, suitable for families of 1 to 6 people.
- **High-Speed Blending:** Reaches speeds up to 32,000 RPM, delivering a smooth, pulp-free blend for a refined texture.
- **Compact Design:** Sleek and stylish design that is both compact and attractive, making storage easy.
- **Advanced Scheduling:** 24-hour advanced scheduling allows you to prepare ingredients in advance and enjoy fresh

beverages without waiting.

- **Self-Cleaning Technology:** Features patented self-cleaning technology for easy maintenance.
- **Steam Sterilization:** Achieves a 99.99% sterilization rate for safe and healthy drinks.

Figure 2: Illustration of the patented self-cleaning technology, highlighting 3D flushing, high temperature degerming, and high-speed stirring for thorough cleaning.

Setup

Before first use, ensure all packaging materials are removed and the appliance is placed on a stable, flat surface.

1. Unpack all components: main unit, blending cup, and power cord.
2. Wipe down the exterior of the main unit with a damp cloth.
3. Wash the blending cup and lid with warm, soapy water, then rinse thoroughly and dry.
4. Ensure the blending cup is properly seated in the main unit.
5. Fill the water reservoir with clean water up to the desired level, observing the minimum and maximum marks.
6. Connect the power cord to the machine and then to a standard electrical outlet (120 Volts).

Operating Instructions

The Joyoung Y1 offers various functions for different preparations. Always ensure ingredients are properly measured according to recipes.

Making Soymilk / Vegan Milk

1. Add desired ingredients (e.g., soybeans, almonds) to the blending cup. For best results, use the recommended quantities.
2. Add water to the blending cup, ensuring it is between the minimum and maximum fill lines.
3. Close the lid securely.
4. Select the "Soymilk" or "Vegan Milk" program on the touch control panel.
5. Press the Start button. The machine will automatically process the ingredients.
6. Once the program is complete, the machine will signal. Carefully open the lid and pour out the prepared beverage.

Figure 3: The machine's capability to produce vegan milk in 3 minutes, illustrating the addition of ingredients and the dispensing of the finished product.

Using the 24-Hour Advanced Scheduling

This feature allows you to set a delayed start time for your desired program.

1. Add ingredients and water to the blending cup as usual.
2. Select your desired program (e.g., Soymilk).
3. Press the "Timer" or "Schedule" button and adjust the delay time using the control panel.
4. Confirm the setting. The machine will start automatically after the set delay.

Figure 4: Preparing ingredients for a fresh drink without pre-soaking, showing walnuts and water being added to the machine.

Maintenance and Cleaning

Regular cleaning ensures the longevity and hygienic operation of your Joyoung Y1 machine.

Automatic Self-Cleaning

1. After each use, ensure the blending cup is empty.
2. Fill the water reservoir with clean water.

3. Select the "Self-Clean" program on the control panel.
4. Press Start. The machine will perform a cleaning cycle, including flushing and high-temperature sterilization.
5. Once complete, empty any remaining water from the blending cup.

Manual Cleaning

- Always unplug the machine before manual cleaning.
- Wipe the exterior of the main unit with a soft, damp cloth. Do not immerse the main unit in water.
- For stubborn residue in the blending cup, use a soft brush and mild detergent. Rinse thoroughly.
- Ensure all parts are completely dry before reassembling or storing the machine.

Troubleshooting

Refer to this section for common issues and their solutions.

Problem	Possible Cause	Solution
Machine does not power on.	Not plugged in; power outlet issue.	Ensure power cord is securely plugged into both the machine and a working outlet.
E25 error code displayed.	Internal malfunction; contact manufacturer.	Unplug the machine, wait 5 minutes, then plug it back in. If the error persists, contact Joyoung customer support.
Strong plastic smell during initial use.	New product odor; low-grade plastic (as per some reviews).	Run several cleaning cycles with water only. Ensure proper ventilation. If smell persists after extended use, contact support.
Beverage not smooth/ingredients uncrushed.	Insufficient blending time; incorrect program; too many ingredients.	Select the speed adjustment function to further crush ingredients. Reduce ingredient quantity. Ensure correct program is selected.
Drink spilled during operation.	Lid not properly secured; overfilling.	Ensure the lid is securely closed before starting. Do not exceed the maximum fill line.

Specifications

Technical specifications for the Joyoung Y1 Intelligent Soymilk Machine.

- **Brand:** JOYOUNG
- **Model:** Y1
- **Color:** Brown
- **Special Features:** Portable, Programmable
