Burton Infants' Buddy Bunting Insulated Snow Suit Instruction Manual

Model: 171481070

PRODUCT OVERVIEW

The Burton Infants' Buddy Bunting Insulated Snow Suit is designed to provide warmth and protection for infants in cold weather conditions. This one-piece suit features insulation and durable materials suitable for winter activities.

SETUP AND WEARING INSTRUCTIONS

Follow these steps to properly dress your infant in the snow suit:

1. **Preparation:** Ensure the infant is wearing appropriate base layers for the temperature.
2. **Opening the Suit:** Unzip the main closure fully to open the suit.
3. **Placing the Infant:** Gently place the infant into the suit, guiding their arms and legs through the respective openings.
4. **Securing the Zipper:** Carefully zip up the main closure, ensuring no fabric or skin is caught. The zipper provides a secure fit.
5. **Hood Adjustment:** Position the hood comfortably around the infant's head for added warmth and protection.
6. **Leg Cuffs:** Ensure the cuffed legs are properly positioned over boots or around the ankles to prevent snow entry.

OPERATING THE SNOW SUIT

The Buddy Bunting Insulated Snow Suit is designed for use in cold, snowy, and wet conditions. Its primary function is to keep the infant warm and dry during outdoor activities.

- **Insulation:** The synthetic insulation and nylon lining provide warmth.
- **Outer Material:** The ripstop polyester outer material offers durability and resistance to elements.
- **Weather Protection:** The suit is suitable for winter seasons, offering protection against cold and light precipitation.

MAINTENANCE AND CARE

Proper care extends the life of your snow suit and maintains its performance:

- **Washing:** Machine wash the snow suit according to the care label. Use cold water and a gentle cycle.
- **Detergent:** Use a mild detergent. Avoid bleach or fabric softeners, as these can damage the fabric's water-repellent properties and insulation.
- **Drying:** Tumble dry on low heat or hang to dry. Ensure the suit is completely dry before storage to prevent mildew.
- **Storage:** Store in a clean, dry place away from direct sunlight when not in use.
- **Inspection:** Regularly inspect the suit for any tears, loose seams, or zipper issues. Address minor damages promptly to prevent further wear.

TROUBLESHOOTING

If you encounter issues with the snow suit, consider the following:

- **Insufficient Warmth:**
 - Ensure the infant is wearing appropriate layers underneath the suit.
 - Verify the suit is fully zipped and all openings (cuffs, hood) are properly secured to prevent cold air entry.
 - Check if the suit's size is appropriate; an ill-fitting suit may not provide optimal insulation.
- **Zipper Malfunction:**
 - Check for fabric caught in the zipper. Gently pull the fabric away and try to operate the zipper again.
 - Ensure the zipper teeth are clean and free of debris.
- **Water Penetration:**
 - While the suit offers protection, it is not fully waterproof. In heavy or prolonged wet conditions, some moisture may penetrate.
 - Ensure all closures are properly sealed.

SPECIFICATIONS

Product Specifications

Brand:	Burton
Model Name:	Burton Infants' Buddy Bunting Insulated Snow Suit
Model Number:	171481070
UPC:	193177879095
Material:	Ripstop

Fabric Type:	100% Polyester
Lining Description:	Synthetic Insulation, Nylon Lining
Closure Type:	Zipper
Care Instructions:	Machine Wash
Seasons:	Winter
Fit Type:	Regular Fit
Neck Style:	Hooded Neck
Sleeve Type:	Long Sleeve
