CarpodGo T3 Pro Portable Car Stereo User Manual

Model: CarpodGo T3 Pro

Brand: CarpodGo

INTRODUCTION

The CarpodGo T3 Pro is a portable 8.9-inch IPS touch screen car stereo designed to enhance your in-car connectivity with wireless CarPlay and Android Auto. Featuring a fully laminated display, 60fps responsiveness, and versatile audio output options, it offers a seamless and intuitive user experience. This manual provides essential information for setup, operation, maintenance, and troubleshooting.

WHAT'S IN THE BOX

Your CarpodGo T3 Pro package includes the following components:

- Wireless CarPlay Display screen
- Bracket
- Cables (including 9V power cord, OTG cable)
- User Manual
- Fixed console mount
- Bluetooth Aux Receiver (for cars without built-in Bluetooth)
- Backup camera (optional accessory)
- Suction cup mount (for console glass only)

What's in the Box

SETUP

Mounting the Display

The CarpodGo T3 Pro features a strong magnetic base for secure attachment. It is compatible with a 17mm ball head mount and includes complementary central control seamless mounts and a suction cup mount for glass. Choose the most suitable mounting option for your vehicle's dashboard or windshield to ensure optimal visibility and stability.

Power Connection

Connect the provided 9V power cord to the USB Type-C port on the device and plug the other end into your car's 12V cigarette lighter socket. Ensure the connection is secure. The device supports automatic dark mode to intelligently reduce

brightness at night.

Initial Boot-up and Connectivity

Upon powering on, the device will boot up quickly, typically within 12 seconds to display CarPlay. For wireless CarPlay or Android Auto, ensure your phone's Bluetooth and Wi-Fi are enabled. The device will automatically connect to your phone once paired. For optimal audio experience, activate the "Display-Only Bluetooth Mode" and connect your phone directly to your car's Bluetooth system.

OPERATING

Display Features

The 8.9-inch display features a fully laminated screen with a seamless black texture, offering a 1920x720 resolution and 16.7 million colors. With 700nit highlight screen, it ensures clear visibility even in bright conditions. The 60fps wireless CarPlay ensures smoother hand scrolling responsiveness without any sense of delay.

Wireless CarPlay and Android Auto

Experience seamless integration with your smartphone. The device supports both wireless CarPlay and Android Auto, allowing you to access navigation, music, calls, and other apps directly from the touch screen. The multi-core Linux system ensures quick reactions and smooth performance.

Display-Only Bluetooth Mode

This mode allows you to connect your phone to the car's existing Bluetooth for full playback of maps, music, and calls, while the CarpodGo T3 Pro acts solely as a display. This preserves your car's native steering wheel button controls and microphone functionality.

TROUBLESHOOTING

If you encounter any issues with your CarpodGo T3 Pro, please consider the following general troubleshooting steps:

- **No Power:** Ensure the 9V power cord is securely connected to both the device and the car's cigarette lighter socket. Check if the car's 12V socket is functioning.
- **No CarPlay/Android Auto Connection:** Verify that Bluetooth and Wi-Fi are enabled on your smartphone. Ensure the device is properly paired. Try restarting both the CarpodGo T3 Pro and your phone.

- **Audio Issues:** If using "Display-Only Bluetooth Mode," confirm your phone is connected to your car's native Bluetooth. Check volume levels on both the device and your car stereo.
- **Screen Responsiveness:** If the screen is unresponsive, try restarting the device. Ensure the screen is clean and free from debris.
