YITAHOME MAYIHK22v3

YITAHOME Cat Cage (Model MAYIHK22v3) Instruction Manual

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your YITAHOME Cat Cage, Model MAYIHK22v3. This versatile enclosure is designed to provide a secure and comfortable environment for your cats and other small pets, suitable for both indoor and outdoor use.

The cat cage measures 55.0"L x 55.0"W x 59.0"H and features a modular design allowing for flexible customization. It includes multiple platforms, stairs, and a hammock to create an engaging space for your pets.

2. SAFETY INSTRUCTIONS

- Always ensure all panels are securely connected using the provided connectors and cable ties. Insufficient fastening can compromise the stability of the structure.
- Utilize the included anti-tipping design components to secure the cage to a wall, especially if placing it in an area where it could be bumped or if pets are prone to climbing.
- Regularly inspect the cage for any loose parts, damaged panels, or worn accessories. Replace or re-secure components as needed to prevent injury to your pets.
- Ensure the cage is placed on a flat, stable surface to prevent wobbling or tipping.
- Keep small children away from the assembly area and supervise them when they are near the assembled cage.

ANTI-TIPPING DESIGN

Comes with plastic expansion screws for enhanced stability and safety

3. PACKAGE CONTENTS

Before assembly, verify that all components listed below are present and undamaged. If any parts are missing or defective, please contact customer support.

Image 3: Visual representation of all included parts.

- Iron Panels (various sizes)
- Dense Panels
- Platforms
- Doors
- Stairs
- Connectors (white)
- Hemispherical Buckles
- Ball Buckles
- Cable Ties
- Door Locks
- Hammock
- Plastic Hammer (for assembly assistance)

4. SETUP AND ASSEMBLY

The YITAHOME Cat Cage features a DIY modular design, allowing you to customize its shape and size. Follow these general steps for assembly:

1. **Plan Your Layout:** Before connecting panels, lay out your desired configuration. Consider the placement of doors, platforms, and accessories.
2. **Connect Panels:** Use the white connectors to join the wire mesh panels. Ensure each panel corner is firmly inserted into the connector slots. The plastic hammer can assist in securing tight connections.
3. **Build the Base:** Start by assembling the bottom layer of the cage, ensuring it is stable.
4. **Add Vertical Layers:** Continue adding panels vertically, building up the walls of the enclosure.
5. **Install Platforms and Stairs:** Position platforms and hook-top stairs at desired levels. Ensure stairs are securely hooked onto the iron frame.
6. **Attach Doors:** Integrate door panels into your design where access is needed. Secure them with the provided door locks.
7. **Secure with Cable Ties:** For enhanced stability and firmness, use the cable ties to reinforce connections between panels, especially at critical joints. This step is crucial for the overall integrity of the cage.
8. **Install Hammock:** Attach the hammock at a suitable height for your pet.
9. **Apply Anti-Tipping Design:** If desired, use the plastic expansion screws to secure the cage to a wall, preventing accidental tipping.

DIY

Note: Please make sure to use strips and connectors to tie up the structure. Customize to the shape you want.

5. OPERATING INSTRUCTIONS

- **Access:** Use the designated door panels for easy access to your pets for feeding, cleaning, and interaction. Secure doors with the provided locks when not in use.
- **Customization:** The modular design allows for rearrangement of platforms and stairs to suit your pet's preferences and activity levels.
- **Versatility:** This enclosure is suitable for 1-4 cats and can also accommodate other small animals such as pet pigs, rabbits, chinchillas, ferrets, and squirrels.
- **Outdoor Use:** The cage features a sunscreen roof, making it suitable for outdoor placement without direct sun exposure to your pet.

SUNSCREEN ROOF

place the cat cage outdoors without worrying about sunburns to your pet

FREE HAMMOCKS

You can avoid the trouble of purchasing hammocks

SAFE STAIRS

Hook-top stairs are more stable on the iron frame

Image 8: Key features including the sunscreen roof for outdoor use, the comfortable hammock, and stable hook-top stairs.

6. MAINTENANCE

- **Cleaning:** The cage components are hand washable. Use mild soap and water to clean panels and accessories. Rinse thoroughly and dry completely before reassembly or allowing pets back into the cage.
- **Regular Inspection:** Periodically check all connections, especially cable ties, for tightness and wear. Replace any damaged parts to maintain structural integrity.
- **Hammock Care:** The plush hammock can be removed and hand washed as needed.

7. TROUBLESHOOTING

Issue: Cage feels unstable or wobbly.

Solution: Ensure all panel connectors are fully engaged. Use the plastic hammer to tap connections firmly into place. Crucially, reinforce all major joints and connections with the provided cable ties. Consider utilizing the anti-tipping hardware to secure the cage to a wall.

Issue: Panels or accessories detach easily.

Solution: This often indicates insufficient use of cable ties. Re-examine all connections and add more cable ties,

especially where panels meet or where platforms/stairs are attached. Ensure the hook-top stairs are properly seated on the iron frame.

Issue: Difficulty connecting panels.

Solution: Ensure the connectors are oriented correctly. Apply firm, even pressure. The plastic hammer can be used gently to help seat the panels into the connectors.

8. SPECIFICATIONS

Feature	Detail
Model Number	MAYIHK22v3
