1. INTRODUCTION

Thank you for choosing the ZINUS 8 Inch Full Green Tea Memory Foam Mattress. This mattress is designed to provide comfortable support and lasting freshness for a restful sleep experience. It features pressure-relieving memory foam infused with green tea and natural charcoal, and is made with CertiPUR-US® certified foams and an OEKO-TEX® certified cover. This manual provides essential information for setting up, using, and maintaining your new mattress.

2. SAFETY INFORMATION

- **CertiPUR-US® Certified Foams:** This mattress is made with CertiPUR-US® certified foam, ensuring it is free from harmful chemicals such as ozone depleters, PBDE flame retardants, mercury, lead, and other heavy metals, formaldehyde, and phthalates. It also has low VOC (Volatile Organic Compound) emissions for indoor air quality.
- **OEKO-TEX® Certified Cover:** The mattress cover is OEKO-TEX® certified, meaning it has been tested for harmful substances and is safe for human ecological requirements.
- **Handling:** The mattress is compressed and rolled in a box. Exercise caution when unboxing and unrolling to avoid injury. It is recommended to have two people for easier handling.
- **Ventilation:** While the mattress is designed to have minimal odor, it is advisable to unbox it in a well-ventilated area and allow it to air out for 24-72 hours for optimal expansion and dissipation of any new product scent.

Original vs. New Box

Original big box

Innovative,
smaller box

Conveniently
packed & delivered
to your doorstep

Same quick &
easy delivery with
a smaller carbon
footprint

Incredible comfort,
dependable value

Incredible comfort,
even more
dependable value

3. SETUP INSTRUCTIONS

Your ZINUS mattress is conveniently shipped in a compact box, making it easy to transport. Follow these steps for proper setup:

1. **Prepare the Area:** Choose a clean, flat surface, such as your bed frame or foundation, where you intend to use the mattress. Ensure there is enough space around the bed for the mattress to expand.
2. **Remove from Box:** Carefully remove the rolled mattress from its shipping box. It is still compressed and wrapped in plastic.
3. **Unroll the Mattress:** Place the wrapped mattress onto your bed frame or foundation. Carefully unroll it.
4. **Cut the Plastic Packaging:** Locate the outer plastic layer. Carefully cut and remove this layer. The mattress will begin to decompress. Avoid using sharp objects that could damage the mattress fabric.
5. **Allow for Expansion:** Once the plastic is removed, the mattress will start to expand. Allow 24 to 72 hours for the

mattress to fully expand to its intended shape and firmness. During this time, you may notice a slight new product scent, which is normal and will dissipate.

Better sleep & a cleaner planet

Shipped in a smaller box
for a reduced carbon footprint

5. CARE AND MAINTENANCE

- **Mattress Protector:** To prolong the life of your mattress and protect it from spills and stains, use a high-quality mattress protector.
- **Rotation:** Rotate your mattress 180 degrees every 3-6 months. This helps distribute wear evenly and maintain consistent support. This mattress is not designed to be flipped.
- **Cleaning:** Spot clean any spills or stains immediately using a mild detergent and a damp cloth. Avoid saturating the mattress with water. Do not machine wash or dry clean the mattress itself.
- **Ventilation:** Periodically air out your mattress by removing bedding to allow for better airflow.
- **Support:** Ensure your mattress is placed on a sturdy, supportive bed frame or foundation to prevent sagging and maintain its structural integrity.

6. TROUBLESHOOTING

- **Slow Expansion:** If your mattress does not fully expand within 24-72 hours, ensure it is in a warm room (memory foam expands better in warmer temperatures). Continue to allow more time, up to a week, for full expansion. Walking on the mattress gently can sometimes help break up air pockets.
- **Initial Odor:** A slight odor, often referred to as 'new mattress smell' or 'off-gassing,' is normal and harmless. It will dissipate within a few days to a week. Ensure the room is well-ventilated during the initial expansion period.
- **Firmness:** Memory foam mattresses can feel firmer in cooler temperatures and softer in warmer temperatures. Allow your body to adjust to the new mattress for a few weeks. If it feels too firm, consider adding a mattress topper.
- **Sagging:** Ensure your bed frame or foundation provides adequate support. A weak or improperly supported foundation can lead to premature sagging. Check the weight limit for your mattress and ensure it is not exceeded.

7. SPECIFICATIONS

Attribute	Detail
Brand	ZINUS
Model Number	ZU-MFMA1ZZI-08F
Size	Full
Product Dimensions (L x W x Th)	75 x 54 x 8 inches
Item Weight	36.7 pounds
Color	White
Top Style	Tight Top
Cover Material	Polyester
Number of Layers	3
Fill Material	High Density Foam, Memory Foam
Weight Limit	500 Pounds
Special Feature	Breathable, Pressure Relief
