PRODUCT OVERVIEW

A top-down view of the Purity Air Open Ear Headphones, showcasing their unique design with the pink chevron pattern on the earpieces and the flexible white neckband.

The Purity Air Open Ear Headphones feature a lightweight, flexible neckband design that rests comfortably behind your head, with the speaker units positioned just outside your ear canals. The main control unit is integrated into one of the earpieces, housing the charging port, control buttons, and microphones.

SETUP

1. Charging the Headphones

Before first use, fully charge your Purity Air Open Ear Headphones. Connect the provided USB-A charging cable to the charging port on the headphone unit and plug the other end into a compatible USB power source (e.g., computer USB port, wall adapter). The LED indicator will show charging status. A full charge provides approximately 6 hours of battery life.

Note: These headphones use a proprietary charging cable. Two cables are included for your convenience.

2. Bluetooth Pairing

1. Ensure the headphones are powered off.
2. Press and hold the Power button until the LED indicator flashes, indicating pairing mode.
3. On your device (smartphone, tablet, computer), enable Bluetooth and search for available devices.
4. Select "P Air k7" from the list of found devices.
5. Once connected, the LED indicator will turn solid blue. You are now ready to use your headphones.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Headphones do not power on.	Low battery.	Charge the headphones fully.
Cannot pair with device.	Headphones not in pairing mode; Bluetooth off on device; previously paired to another device.	Ensure headphones are in pairing mode (flashing LED). Turn Bluetooth off and on on your device. Forget "P Air k7" from previously paired devices and try again.

Problem	Possible Cause	Solution
No sound or low volume.	Volume too low on headphones or device; headphones not connected.	Increase volume on both headphones and your device. Ensure headphones are properly connected via Bluetooth.
Loud voice prompts (e.g., "Power On", "Battery Low").	System voice prompt volume is fixed.	This is a characteristic of the product and cannot be adjusted. Be aware of this when powering on or when the battery is low.
Sound audible to others.	Open-ear design; high volume.	This is inherent to the open-ear design. Reduce volume in quiet environments to minimize sound leakage.
