6. MAINTENANCE

To ensure the longevity and appearance of your Yaheetech Loveseat, follow these maintenance guidelines:

- **Cleaning:** For general cleaning, vacuum the fabric regularly to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for polyester upholstery, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position the loveseat away from direct sunlight or use curtains/blinds.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, bleach, or harsh chemicals, as these can damage the fabric and finish.
- **Leg Care:** Periodically check the tightness of the wooden legs and re-tighten if necessary to maintain stability.

7. TROUBLESHOOTING

If you encounter any issues with your loveseat, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Loveseat feels wobbly	Loose legs or uneven floor.	Check and tighten all leg screws. Ensure the loveseat is on a flat, even surface.
Fabric appears discolored or faded	Exposure to direct sunlight or harsh cleaning agents.	Relocate the loveseat away from direct sunlight. Use only recommended fabric cleaners.
Uncomfortable seating	New product, needs breaking in.	The foam may initially feel firm. Continued use will soften the cushions over time. Utilize the lumbar pillows for additional support.
