To access the storage, simply lift the top of the designated unit. Ensure items are dry before storing to prevent mildew.

5. MAINTENANCE

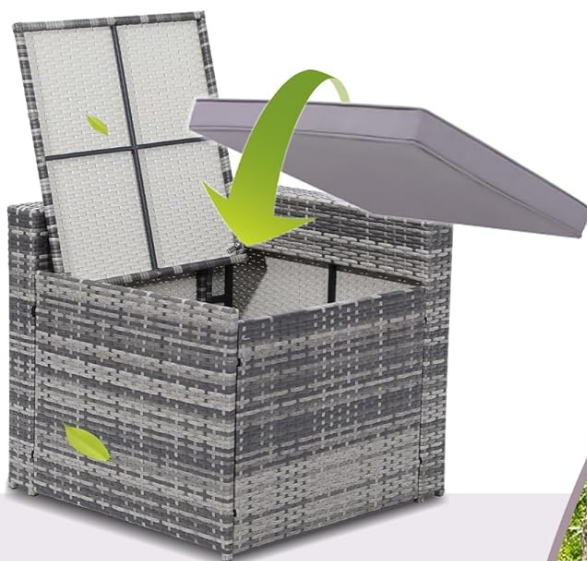

Proper care will extend the life and appearance of your patio furniture. The materials are designed for outdoor use, but regular maintenance is recommended.

Cleaning:

- For general cleaning, wipe surfaces with a dry cloth.
- The cushions are waterproof; simply wipe off any water or spills. For deeper cleaning, use a mild soap solution and a soft brush, then rinse thoroughly and allow to air dry completely before storing.
- The tempered glass tabletop can be cleaned with standard glass cleaner.

Protection:

- While the cushions are waterproof, storing them in the hidden compartments or using additional covers during heavy rain or off-season periods will further protect them.
- The PE rattan is UV resistant, but prolonged exposure to direct sunlight may cause fading over many years. Consider using a furniture cover when the set is not in use for extended periods.
