ODK L-Shaped Desk with Drawers and USB Charging

User Manual

INTRODUCTION

Thank you for choosing the ODK L-Shaped Desk. This manual provides essential information for the assembly, operation, and maintenance of your new desk. Please read it carefully before beginning assembly or use to ensure safe and optimal performance.

This L-shaped desk offers ample storage, including two document drawers, a printer cabinet, a two-tier lower shelf, and a dedicated computer stand. It also features convenient integrated power outlets and USB charging ports, along with cool LED lighting options.

Safety Warnings

Warning:

- This desk is equipped with electrical components. Always disconnect the desk from the power source when not in use or before performing any maintenance.
- Follow all appropriate safety guidelines when handling electrical components.
- Ensure all connections are secure and properly insulated.
- Do not overload the power outlets.

SETUP AND ASSEMBLY

Your ODK L-Shaped Desk is designed for straightforward assembly. It features a reversible design, allowing you to configure the L-shape to either the left or right side to best fit your space. Please ensure all parts are present before you begin.

Package Contents

Verify that all components listed in the assembly guide (typically included in the packaging) are present and undamaged. If any parts are missing or damaged, please contact customer support.

Assembly Steps (General Guidelines)

1. **Unpack and Organize:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Group similar parts together.
2. **Review Instructions:** Refer to the detailed step-by-step assembly instructions provided in your product packaging. Pay close attention to diagrams and part labels.
3. **Assemble Frame:** Begin by assembling the main metal frame components, ensuring all screws are tightened securely but do not overtighten until the entire frame is assembled.
4. **Attach Desk Panels:** Secure the main desk panels to the assembled frame.
5. **Install Storage Units:** Assemble and install the drawers, printer cabinet, and lower shelves according to the instructions. Note the reversible design for the L-shape configuration.
6. **Mount Monitor Stand and Power Strip:** Attach the monitor stand and integrate the power strip with AC outlets and USB ports. Ensure all electrical connections are properly seated.
7. **Connect LED Lighting:** Install and connect the LED light strip as directed.
8. **Final Tightening:** Once all components are in place, go back and securely tighten all screws and fasteners.

LED Lighting

Enhance your workspace ambiance with the integrated LED lighting system. The lighting strip offers a variety of customization options:

- **Colors:** Choose from 10 different colors to match your mood or decor.
- **Modes:** Select from 10 lighting modes, including static colors, fades, and flashes.
- **Brightness:** Adjust the brightness with 8 adjustable levels.
- **Flicker Frequency:** There are 9 flicker frequencies available for dynamic lighting effects.
- **Memory Function:** The LED system remembers your last used mode and settings when powered on, ensuring a consistent experience.

Use the included remote control or integrated buttons (if applicable) to cycle through colors, modes, and adjust brightness.

Problem	Possible Cause	Solution
Desk is wobbly or unstable.	Loose screws or uneven floor.	Ensure all assembly screws are securely tightened. Adjust leveling feet (if present) or place shims under legs on uneven surfaces.
LED lights are not working.	Power connection issue, faulty LED strip, or remote control battery.	Check if the desk is plugged into a working outlet. Ensure the LED strip is properly connected to its power source. Replace remote control batteries if applicable. Contact support if the issue persists.
Power outlets/USB ports are not working.	Desk not plugged in, power strip switch off, or overloaded circuit.	Verify the desk's main power cable is securely plugged into a live wall outlet. Check if there's a power switch on the integrated power strip and ensure it's ON. Avoid overloading the outlets.
Drawers are difficult to open/close.	Improper assembly of drawer slides or obstruction.	Recheck drawer slide installation according to assembly instructions. Ensure nothing is obstructing the drawer's path.

If you experience a problem not listed here, or if the suggested solutions do not resolve the issue, please contact ODK customer support for further assistance.
