SETUP AND ASSEMBLY

Assembly typically requires two people. An Allen key is usually provided, but a battery-powered driver can expedite the process. Follow the step-by-step diagrams in your physical manual for precise assembly.

1. Determine Desk Orientation

The ODK L-Shaped Corner Desk is reversible, allowing you to configure the longer side of the L-shape to either the left or right, depending on your space requirements. Decide on your preferred orientation before starting assembly.

2. Assemble Frame and Desk Panels

Begin by assembling the metal frame components according to the chosen orientation. Attach the main desk panels to the frame, ensuring all screws are finger-tightened initially. Once all panels are in place, fully tighten all fasteners.

3. Assemble Shelving Unit

Assemble the integrated shelving unit. This unit can be positioned on either side of the desk, depending on your reversible configuration choice. Secure the shelves to the frame using the provided hardware.

4. Attach Monitor Stand

The desk includes a long monitor stand. Attach the support brackets to the desk surface, then place the monitor stand panel on top. Ensure it is securely fastened.

OPERATING INSTRUCTIONS

Adjusting Monitor Stand Height

The monitor stand offers three adjustable height options to suit your ergonomic needs. To adjust the height, detach the monitor stand panel and re-position the support brackets to the desired height setting (10cm, 13cm, or 16cm) using the designated screw holes. Re-attach the monitor stand panel securely.
