SETUP GUIDE

General Connection

The SD SPACE DAZZLE 4-in-1 OTG USB Drive is designed for plug-and-play operation. Simply select the appropriate connector for your device and insert the drive.

For iPhone/iPad Devices

1. Download the "**Y-Disk**" application from the Apple App Store.
2. Connect the Lightning connector of the USB drive to your iPhone or iPad.
3. Open the "Y-Disk" app to access and manage files on the drive.

For Android Devices

Your Android phone must have **OTG (On-The-Go) function** enabled to use this flash drive. No additional app download is typically required.

1. Connect the Micro Android or USB Type C connector of the USB drive to your Android device.
2. Access the drive through your device's file manager or a notification that appears upon connection.

For PC/Mac Devices

1. Connect the USB Type A or USB Type C connector of the USB drive to your computer.
2. The drive will appear as a removable storage device in your computer's file explorer (Windows) or Finder (Mac).

OPERATING INSTRUCTIONS

File Transfer

To transfer files, simply drag and drop them between your device's internal storage and the USB drive. For iPhone/iPad, use the "Y-Disk" app's interface to copy, move, or delete files.

Data Backup

Regularly back up important files from your mobile device to the USB drive to free up space and ensure data safety. The high-speed USB 3.0 interface facilitates quick backups.

Speed And Enjoyment

USB3.0 interface with a new era of speed
play extraordinary experience

USB3.0

MAINTENANCE

To ensure the longevity and optimal performance of your SD SPACE DAZZLE 4-in-1 OTG USB Drive, follow these maintenance guidelines:

- **Protect Connectors:** Utilize the 360° swivel design to protect the unused connector from dust, dirt, and physical damage.
- **Avoid Extreme Conditions:** Do not expose the drive to extreme temperatures, direct sunlight, or high humidity.
- **Clean Gently:** If necessary, clean the exterior of the drive with a soft, dry cloth. Avoid using liquid cleaners or solvents.
- **Safe Removal:** Always safely eject the USB drive from your computer or mobile device before physically removing it to prevent data corruption.

360° rotation design is adopted to transmit data without error
making the application more simple and convenient

TROUBLESHOOTING

- **Drive Not Recognized:**
 - Ensure the drive is fully inserted into the port.
 - Try connecting to a different USB port or device.
 - For Android, verify that OTG function is enabled in your device settings.
 - For iPhone/iPad, ensure the "Y-Disk" app is installed and open.
- **Slow Transfer Speeds:**
 - Ensure you are using a USB 3.0 compatible port on your computer for optimal speeds.
 - Transferring many small files can be slower than transferring a few large files.
- **"Y-Disk" App Issues:**
 - Ensure the app is updated to the latest version.
 - Restart the app or your iPhone/iPad.
- **Data Corruption:**
 - Always safely eject the drive before removal.
 - Avoid disconnecting the drive during file transfer.
