Coolife M(24in)

Coolife M(24in) Silver Hardside Luggage Instruction Manual

Model: M(24in) | Brand: Coolife

1. PRODUCT OVERVIEW

Thank you for choosing Coolife Luggage. This manual provides essential information for the proper setup, operation, and maintenance of your M(24in) Silver Hardside Luggage. Designed for durability and convenience, this suitcase features a lightweight hardshell, smooth spinner wheels, an integrated TSA-approved lock, and a USB charging port for on-the-go power.

2. KEY FEATURES

- **Durable Construction:** Crafted from robust polycarbonate and ABS materials for enhanced longevity.
- **Lightweight Hardside:** Offers excellent protection for your belongings without excessive weight.
- **TSA-Approved Combination Lock:** Ensures security while allowing TSA agents to inspect your luggage without damage.
- **Integrated USB Charging Port:** Conveniently charge your mobile devices on the go (power

bank not included).

- **Ergonomic Telescopic Handle:** Features multiple height adjustments for comfortable maneuvering.
- **360-Degree Spinner Wheels:** Four smooth-gliding wheels provide effortless mobility in any direction.
- **Top and Side Grab Handles:** For easy lifting and carrying.
- **Spacious & Organized Interior:** Includes divider panels, strong X-type elastic straps, closed mesh pockets, and zippered side pockets.

3. SETUP & FIRST USE

Unpacking and Inspection

Upon receiving your Coolife luggage, carefully remove all packaging materials. Inspect the suitcase for any signs of damage during transit. If any damage is found, please contact customer support immediately.

Adjusting the Telescopic Handle

To extend the telescopic handle, press the button located on the top of the handle and pull upwards. Release the button at your desired height. To retract, press the button and push the handle downwards until it is fully nested.

Setting the TSA Combination Lock

Your luggage comes with a built-in TSA-approved 3-digit combination lock. The default combination is 0-0-0.

1. Set the dials to the default combination (0-0-0).
2. Locate the small reset button (usually a tiny hole) on the side of the lock. Use a pen or a pointed object to press and hold this button until you hear a 'click'.
3. While holding the reset button, set your desired 3-digit combination by turning the dials.
4. Release the reset button. Your new combination is now set. Test it by scrambling the numbers and then entering your new combination to open the lock.

Peace of mind

TSA-approved combination lock for security of your belongings.

Pack more easily

Zipper pullers are designed for smooth, reliable operation.

Connecting a Power Bank to the USB Port

The M(24in) carry-on model features an integrated USB port. To use it:

1. Open the luggage and locate the internal pocket connected to the USB port.
2. Place your power bank (not included) inside this pocket.
3. Connect the internal USB cable to your power bank.
4. You can now connect your device's charging cable to the external USB port on the side of the luggage to charge your device.

Resistance to impact

Crafted from durable polycarbonate and ABS materials, this luggage is both robust and lightweight.

4. OPERATING INSTRUCTIONS

Packing Efficiently

Utilize the spacious interior designed for optimal organization. Place heavier items at the bottom near the wheels. Use the X-type elastic straps to secure your clothes and prevent shifting. The mesh and zippered pockets are ideal for smaller items, toiletries, or documents.

Spacious packing interior

Pack more and stress less with our spacious luggage interior.

Maneuvering the Luggage

The four 360-degree spinner wheels allow for effortless movement. You can push, pull, or roll the suitcase alongside you with minimal effort, making navigation through busy airports or streets smooth and easy.

Travel easier

Spinner wheels, retractable handle system, side feet and two grip handles help you move your luggage easily and flexibly.

5. MAINTENANCE & CARE

Cleaning the Hardshell Exterior

Wipe the exterior with a soft, damp cloth and mild soap. Avoid abrasive cleaners or solvents that could damage the finish. Dry thoroughly with a clean cloth.

Zippers Care

Keep zippers free from debris. If zippers become stiff, apply a small amount of zipper lubricant or wax to the teeth.

Wheel Maintenance

Periodically check the spinner wheels for any tangled hair or debris. Clean them gently to ensure smooth rolling. Avoid exposing wheels to extreme temperatures or harsh chemicals.

Storage Recommendations

Store your luggage in a cool, dry place away from direct sunlight. If storing multiple pieces, the smaller sizes can nest inside the larger ones for space-saving convenience.

6. TROUBLESHOOTING

- **Stiff Telescopic Handle:** Ensure no debris is obstructing the handle mechanism. Extend and retract a few times to loosen.
- **Wheels Not Rolling Smoothly:** Check for hair, lint, or dirt caught in the wheel axles. Clean as described in the Maintenance section.
- **Zipper Issues:** If a zipper gets stuck, avoid forcing it. Gently pull the fabric away from the zipper teeth and try to move the slider. Lubricate if necessary.
- **Combination Lock Reset Failure:** Double-check that you are pressing the reset button correctly and holding it down while setting the new combination. Ensure the dials are set to the default 0-0-0 before attempting to reset.

7. SPECIFICATIONS

Feature	Detail
Size	M(24in)
Item Dimensions L x W x H	15.7"L x 10.2"W x 25"H
