Coolife YD105

Coolife Luggage Instruction Manual

Model: YD105 | Brand: Coolife

1. Introduction

Welcome to the Coolife Luggage user manual. This guide provides essential information for the proper setup, operation, and maintenance of your new Coolife luggage set. Designed for durability and convenience, your luggage features a lightweight hardshell construction, spinner wheels, a TSA-approved lock, and an integrated USB port for on-the-go charging.

2. Key Features

- **Multiple Sizes:** Available in 20" (carry-on), 24" (medium), and 28" (expandable) to suit various travel needs. The 20" carry-on is designed to fit most standard overhead bins.
- **TSA-Approved Lock:** Enhances security and simplifies airport security checks.
- **Integrated USB Port:** Conveniently charge your mobile devices on the go (power bank not included).
- **Ergonomic Telescopic Handle:** Provides comfortable maneuvering and adjusts to multiple heights.
- **Four Smooth-Gliding Spinner Wheels:** Allows for effortless 360-degree mobility.
- **Durable Construction:** Crafted from robust and lightweight polycarbonate and ABS materials.

- **Spacious Interior:** Features interior divider panels, X-type elastic straps, closed mesh pockets, and zippered side pockets for optimal organization.

3. Setup

3.1 Setting the TSA Combination Lock

Your luggage comes with a built-in TSA-approved combination lock. The default combination is usually 0-0-0. To set your personal combination:

1. Ensure the lock is set to the current combination (default 0-0-0).
2. Locate the small reset button (often a tiny hole) next to the dials.
3. Use a pen or a pointed object to press and hold the reset button until you hear a click.
4. While holding the reset button, set your desired 3-digit combination by turning the dials.
5. Release the reset button. Your new combination is now set. Test it by scrambling the numbers and then entering

your new combination to open the lock.

4. Operation

4.1 Using the Telescopic Handle and Spinner Wheels

The ergonomic telescopic handle extends and retracts smoothly for comfortable pulling or pushing. Press the button on the handle to adjust its height. The four spinner wheels allow for 360-degree rotation, making it easy to navigate through crowded airports or tight spaces.

Image 5: Visual guide demonstrating the adjustable telescopic handle and multi-directional spinner wheels.

4.2 Utilizing the USB Port

To use the integrated USB port, connect your own power bank (not included) to the internal cable located within the luggage. Then, simply plug your device's charging cable into the external USB port on the side of the luggage.

5. Maintenance

- **Cleaning:** Wipe the hardshell exterior with a damp cloth and mild soap. For interior lining, spot clean with a gentle fabric cleaner.
- **Storage:** Store luggage in a cool, dry place away from direct sunlight. Ensure it is clean and dry before storing to prevent mold or mildew.
- **Wheels & Handle:** Periodically check wheels and telescopic handle for smooth operation. Clean any debris from

the wheels.

6. Troubleshooting

- **Stuck Handle:** Ensure no items inside the luggage are obstructing the handle mechanism. Gently pull and push the handle while pressing the release button.
- **Wheels Not Spinning Smoothly:** Check for hair, lint, or debris caught in the wheel axles. Clean thoroughly.
- **Zipper Issues:** If zippers are stiff, apply a small amount of zipper lubricant or wax. Avoid overpacking to prevent zipper strain.
- **Lock Reset Issues:** Refer to Section 3.1 for detailed instructions on resetting the TSA lock. Ensure the reset button is fully pressed before setting a new combination.

7. Specifications

Feature	Detail
Product Dimensions	18.3 x 12 x 28.5 inches (for 28" set piece)
Item Weight	24.1 pounds (for 3-piece set)
Material	Polycarbonate, ABS
Capacity (28" piece)	99 Liters
Item Model Number	YD105
