ZINUS ZU-FPBNP1ZC-14T

ZINUS Ellie 14 Inch Twin Bamboo Platform Bed Frame User Manual

Brand: ZINUS | **Model:** ZU-FPBNP1ZC-14T

1. Introduction

The ZINUS Ellie 14 Inch Twin Bamboo Platform Bed Frame is designed to provide robust mattress support with a sleek, minimalist aesthetic. Crafted from sustainable bamboo, this frame offers durability and a noise-free experience. Its thoughtful design eliminates the need for a box spring and provides ample under-bed storage space, making it a practical and stylish addition to any bedroom.

2. Safety Information

To ensure safe and stable use of your ZINUS Ellie bed frame, please adhere to the following guidelines:

- Do not exceed the maximum weight capacity of**350 lbs** for the Twin size. For other sizes, the limit is 700 lbs.
- Always follow the assembly instructions carefully to ensure proper stability and prevent potential collapse.
- Regularly check all bolts and connections to ensure they remain tight. Loose connections can compromise the frame's integrity.
- Keep small parts and packaging materials away from children to prevent choking hazards.

3. Package Contents

Before beginning assembly, ensure all parts and tools are present. The package includes:

- Bamboo frame components (side rails, end rails, legs)
- Wood slats with non-slip tape
- Metal support bars and legs
- Hardware kit (bolts, washers, nuts)
- Ratcheting hex wrench (for easy assembly)
- Instruction Sheet

All components of the ZINUS Ellie bed frame laid out on the floor, including wooden pieces, metal supports, hardware, and instructions.

4. Assembly Instructions

Assembly is designed to be straightforward and typically takes less than an hour with two people.

Follow these steps:

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface. Match each part to the corresponding labels in the instruction manual.
2. **Assemble Side and End Rails:** Connect the side rails to the end rails using the provided bolts and the ratcheting hex wrench. Ensure all connections are finger-tight first, then fully tighten once the frame is aligned.
3. **Attach Center Support Bars:** Secure the metal center support bars to the frame. These provide crucial stability for your mattress. Ensure they are tightly bolted.
4. **Place Wood Slats:** Lay the wooden slats across the frame. The slats feature non-slip tape to prevent your mattress from shifting. Ensure the 'Please peel off the upper strip' side is facing up.
5. **Final Tightening:** Double-check all bolts and connections to ensure they are securely tightened.

5. Operating Instructions

The ZINUS Ellie Platform Bed Frame is designed for direct mattress placement, eliminating the need for a box spring. Simply place your latex, memory foam, or spring mattress directly onto the wooden slats.

Under-Bed Storage

This bed frame offers approximately 11 inches of valuable under-bed storage space. This allows you to neatly tuck away extra items, helping to maintain a tidy and organized room.

6. Maintenance & Care

To keep your ZINUS Ellie bed frame in optimal condition:

- **Cleaning:** Spot clean only. Use a soft, damp cloth to wipe down the bamboo surfaces. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Regular Checks:** Periodically inspect all bolts and connections to ensure they are tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Avoid Excessive Moisture:** While bamboo is durable, prolonged exposure to moisture can affect its integrity. Wipe up spills immediately.

7. Troubleshooting

If you encounter any issues with your bed frame, consider the following:

- **Squeaking Noises:** Squeaking is often caused by loose bolts. Re-tighten all assembly bolts, especially those connecting the frame and support legs. Ensure slats are properly seated.
- **Instability/Wobbling:** Check that the frame is assembled on a level surface. Verify that all legs are making firm contact with the floor and that all bolts are fully tightened.
- **Mattress Shifting:** The wooden slats are equipped with non-slip tape. Ensure the protective strip has been peeled off to activate the non-slip surface.

8. Specifications

Feature	Detail
Size	Twin
Product Dimensions	74.5"L x 38"W x 14"H
Color	Brown
Material	Bamboo, Plywood, Steel
Item Weight	31.3 pounds
Weight Capacity (Twin)	350 lbs
Under-Bed Clearance	10.87 Inches
Assembly Required	Yes
Model Number	ZU-FPBNP1ZC-14T
