

VANTRUE S1 Pro

Vantrue S1 Pro Dual Dash Cam User Manual

Your comprehensive guide to setup, operation, and maintenance.

1. INTRODUCTION

Thank you for choosing the Vantrue S1 Pro Dual Dash Cam. This device is designed to provide reliable and high-quality video recording for your vehicle, enhancing your safety and providing crucial evidence in case of incidents. Featuring advanced STARVIS 2 sensors, HDR night vision, 5G Wi-Fi, GPS, and voice control, the S1 Pro offers a comprehensive solution for monitoring your journey and parked vehicle.

2. WHAT'S IN THE BOX

Please verify that all items listed below are included in your package:

- Vantrue S1 PRO Front and Rear Cameras
- 20ft Rear Camera Cable
- Quick Guide
- Car Charger
- Type C GPS Adhesive Mount and Electrostatic stickers

Figure 2.1: All components included in the Vantrue S1 Pro package.

The image above displays the complete set of items you should find in your Vantrue S1 Pro package. Ensure all components are present before proceeding with installation.

3. SETUP

3.1 Installation Overview

The Vantrue S1 Pro is designed for discreet and easy installation. The front camera mounts behind your rearview

mirror, and the rear camera mounts on your rear windshield. The included 20ft cable provides ample length for routing.

Figure 3.1: Vantrue S1 Pro system components and app integration.

This image illustrates the main components of the Vantrue S1 Pro system, including the front and rear cameras, and how they integrate with the mobile application for remote viewing and control.

3.2 Mounting the Cameras

Use the provided 3M adhesive mount for secure attachment to your windshield. Ensure the windshield is clean and dry before applying the adhesive. The front camera offers up/down and left/right rotation for optimal positioning.

Buffered 24 Hour Parking Mode

Figure 3.2: Discreet installation of the front and rear dash cameras.

The diagram above demonstrates the compact and hidden design of the S1 Pro, allowing it to be installed without obstructing your view. The front camera can be rotated 36 degrees for optimal angle adjustment, and the rear camera also offers 360-degree rotation.

3.3 Power Connection

Connect the dash cam to your vehicle's power outlet using the provided car charger. For 24/7 parking mode functionality, a hardwire kit (sold separately, ASIN: B083XB8T7T) is required.

3.4 Unboxing and Installation Guide Video

Video 3.1: A detailed unboxing and initial setup guide for the Vantrue S1 Pro Dual Dash Cam.

Video 3.2: A comprehensive guide covering installation, features, app usage, and video quality of the Vantrue S1 Pro.

4. OPERATING INSTRUCTIONS

4.1 Basic Operation

The S1 Pro automatically begins recording when powered on. The 2-inch IPS display provides a live view of both front and rear cameras. Use the physical buttons on the device for basic navigation and settings adjustments.

4.2 Voice Control

The dash cam supports multiple voice commands (English, Japanese, Russian, Chinese) for hands-free operation. Commands include starting/saving video, taking photos, and turning audio/Wi-Fi/screen on/off.

Hands-Free Voice Control

It comes with multiple basic voice commands and you can quickly lock emergency videos, making the need hands-free, making driving safe.

Figure 4.1: Hands-free voice control for safe driving.

This image highlights the voice control capabilities of the S1 Pro, allowing you to manage recording and settings without taking your hands off the wheel.

4.3 App Control & Wi-Fi Connectivity

Connect to the "Vantrue" app (iOS & Android) via 5GHz Wi-Fi for live preview, settings customization, playback, firmware updates (OTA), and direct sharing of footage to social media. The built-in GPS accurately records your route, location, and speed.

Built-in WiFi & GPS

The built-in WiFi allows for live viewing, file browsing, video editing, OTA upgrades, and easy sharing. Additionally, the dual GPS module effortlessly tracks your location and speed.

Figure 4.2: Seamless control and data access via the Vantrue app and 5GHz Wi-Fi.

The image above demonstrates the user-friendly Vantrue app interface, providing easy access to live footage, GPS data, and sharing functionalities.

4.4 Optional LTE Remote Monitoring

With an optional LTE module (ASIN: B0F1ZY4Y3S), you can access 24/7 remote monitoring features, including real-time collision alerts, GPS tracking, geo-fencing, and cloud storage backup.

This image illustrates the remote monitoring features available with the optional LTE module, providing enhanced security and peace of mind.

Video 4.1: Overview of the Vantrue S1 Pro's 2.7K front and rear recording, 5G Wi-Fi, and hidden design.

Video 4.2: Demonstrates the optional LTE Module for S1 Pro, enabling remote live view and incident notifications.

5. KEY FEATURES

5.1 High-Resolution Dual Recording

The S1 Pro captures sharp details with dual-lens recording (1944P+1080P@30fps) or 1440P@60fps front video for blur-free license plates and signs. The 160° ultra-wide lenses cover multiple lanes without distortion.

2.7K+1080P Dual Recording

The S1 Pro provide vivid images to help you clearly capture license plates as well as street signs.

Front: 1944P/30FPS, 1440P/60FPS

Rear: 1080P/30FPS

Figure 5.1: Dual recording capabilities with wide-angle lenses.

This image illustrates the dual recording capabilities of the S1 Pro, capturing both front and rear views with high resolution and wide angles.

5.2 Superior Night Vision with STARVIS 2

Equipped with cutting-edge STARVIS 2 sensors and an f/1.8 aperture lens, the S1 Pro delivers unmatched low-light clarity. Dual HDR on both cameras dynamically balances exposures for sharp nighttime details, ensuring vivid footage in near darkness.

Super Night Vision 2.0

Leverages Sony STARVIS 2's high sensitivity, dual HDR, and low-noise tech to deliver clearer low-light footage with S1 Pro.

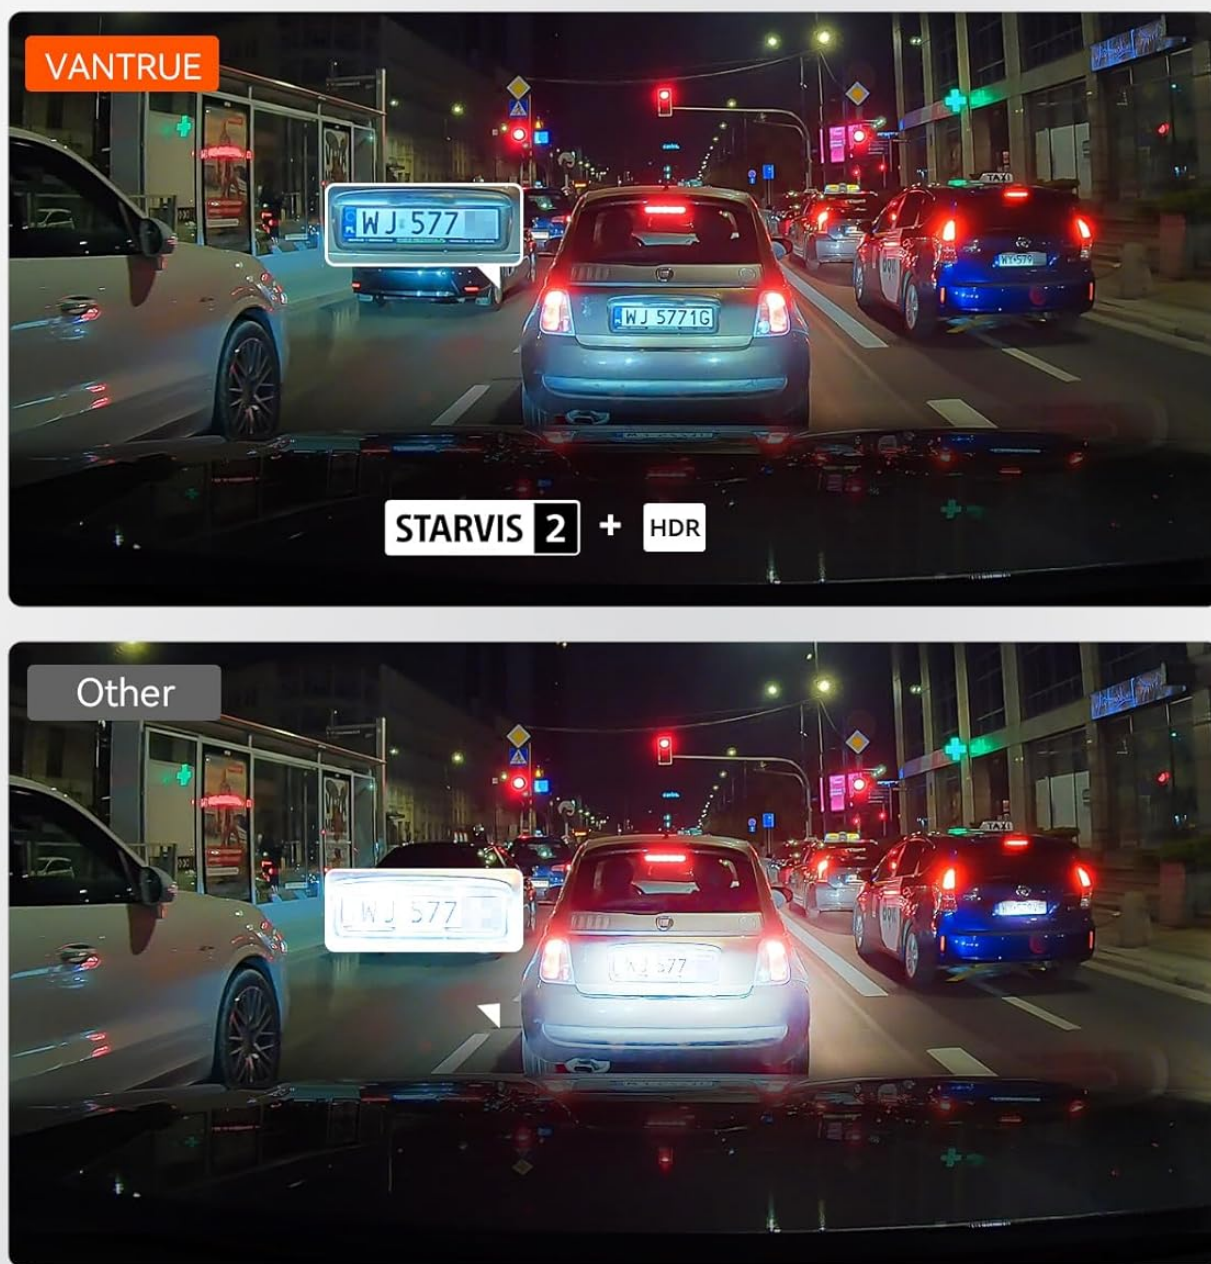

Figure 5.2: Enhanced night vision performance with STARVIS 2.

The comparison image above demonstrates the superior low-light performance of the S1 Pro's Super Night Vision 2.0, capturing clearer details than standard dash cams.

5.3 24/7 Parking Mode

The S1 Pro offers four parking modes for 24/7 protection: 15s pre-record motion detection, collision detection, low frame rate, and low bitrate mode. These modes ensure comprehensive coverage while parked, saving SD card space.

Compact & Discreet Design

It can directly stick to your windshield for optimal field-of-view, thus not blocking the sight and making safety driving.

Figure 5.3: Buffered 24-hour parking mode for continuous surveillance.

This image explains the buffered 24-hour parking mode, which captures incidents with 15 seconds of pre-recording

to ensure no details are missed.

6. MAINTENANCE

6.1 SD Card Management

The S1 Pro supports up to 512GB external memory cards (recommended Vantrue SD card, ASIN: B09SNRFSS3). It features loop recording, which automatically overwrites the oldest file when the card is full, ensuring continuous recording without manual intervention.

6.2 Supercapacitor

The built-in supercapacitor provides enhanced durability and reliability, allowing the dash cam to withstand extreme temperatures from 14°F to 158°F (-10°C to 70°C) without performance degradation. This eliminates the risk of battery-related issues common in extreme climates.

6.3 Cleaning

Regularly clean the camera lenses with a soft, lint-free cloth to ensure clear video quality. Avoid using abrasive cleaners or solvents that could damage the lens coating.

7. TROUBLESHOOTING

If you encounter any issues with your Vantrue S1 Pro, please refer to the following common solutions:

- **Recording Issues:** Ensure the SD card is properly inserted and formatted. Check the loop recording settings in the app.
- **Wi-Fi Connectivity:** Verify that 5GHz Wi-Fi is enabled on your smartphone and the dash cam. Restart both devices if connection problems persist.
- **GPS Not Working:** Ensure the GPS module is securely connected and the vehicle is in an open area with clear sky view.
- **Voice Control Not Responding:** Check the voice control settings in the menu and ensure the commands are spoken clearly and in a supported language.
- **Parking Mode Not Activating:** Confirm that a hardwire kit is installed correctly and the parking mode settings are configured as desired.

For more detailed troubleshooting or persistent issues, please contact Vantrue customer support.

8. SPECIFICATIONS

Feature	Detail
Product Dimensions	1.97 x 1.97 x 3.54 inches
Item Weight	1.76 pounds
Model Number	VT-F010038-VC-IN
Video Capture Resolution	1440P/60fps+1080P/30fps, 1944P+1080P/30fps

Feature	Detail
Connectivity Technology	Bluetooth, Wi-Fi, USB
