STANLEY 10-10787-120

STANLEY Aerolight Transit Mug 0.47L User Manual

Model: 10-10787-120

1. Overview

The STANLEY Aerolight Transit Mug is designed for portability and superior temperature retention. Featuring double-wall vacuum insulation, this mug keeps beverages hot for 6 hours, cold for 8 hours, and iced for up to 30 hours. Its lightweight and slim design makes it ideal for daily commutes and travel. The mug is equipped with a leakproof, locking drink-through lid for secure transport.

2. Setup

Before first use, it is recommended to wash all parts of the mug thoroughly. The mug is dishwasher safe, making initial cleaning simple.

1. Unscrew the lid from the mug body.
2. Disassemble the lid components (refer to Figure 2 for visual guidance).
3. Wash the mug body and all lid components with warm, soapy water or place them in the dishwasher.
4. Rinse all parts thoroughly and allow them to air dry completely before reassembly.

3. Operating Instructions

Filling the Mug

1. Ensure the mug is clean and dry.
2. Unscrew the lid from the mug body.
3. Pour your desired hot or cold beverage into the mug. Do not overfill; leave space for the lid.
4. Securely screw the lid back onto the mug body.

Using the Locking Drink-Through Lid

The mug features a locking drink-through lid designed for convenience and to prevent spills.

- To open for drinking: Push the small lever on the lid upwards to unlock, then press the button to flip open the drinking spout.
- To close and lock: Push the drinking spout down until it clicks into place, then push the small lever downwards to lock it securely. This ensures a leakproof seal, allowing for safe transport in bags or car holders.

Temperature Retention

The Aerolight Transit Mug is engineered for extended temperature retention:

- Keeps hot beverages hot for up to 6 hours.
- Keeps cold beverages cold for up to 8 hours.
- Keeps iced beverages iced for up to 30 hours.

4. Maintenance

Proper care ensures the longevity and performance of your Aerolight Transit Mug.

Cleaning

The mug is designed for easy cleaning and is dishwasher safe.

- For best results, disassemble the lid completely before placing it in the dishwasher.
- The mug body can also be placed in the dishwasher.
- Alternatively, hand wash with warm, soapy water and a soft brush for hard-to-reach areas.
- Ensure all parts are thoroughly dry before reassembly and storage.

Figure 6: The mug with a visual indicator confirming its dishwasher-safe property.

5. Troubleshooting

If you encounter any issues with your mug, please refer to the following common solutions:

- **Lid not sealing properly:** Ensure all silicone gaskets are correctly seated and free from debris. Make sure the lid is screwed on tightly and the locking mechanism is fully engaged.
- **Difficulty opening/closing the lid:** Check for any obstructions in the lid mechanism. Regular cleaning of all lid components can prevent buildup that might hinder operation.
- **Reduced temperature retention:** Ensure the lid is securely closed and locked. Extreme external temperatures can affect retention, but the double-wall vacuum insulation is designed to minimize this.

6. Specifications

Figure 7: Visual representation of the mug's dimensions, capacity, and temperature retention capabilities.

Feature	Detail
Brand	STANLEY
Model Number	10-10787-120
Capacity	0.47 Liters (15.9 Ounces)
