4. SETUP

4.1 Initial Connection

1. For the first connection, you must activate the device using the provided USB Type-C cable. Connect one end of the cable to the controller and the other end to your console (PS4/PS5) or PC.
2. Once connected, press the Home button on the controller to pair it with your device.
3. After successful pairing, you can disconnect the USB cable for wireless use.

Note: If the controller fails to connect, it is recommended to try a high-power USB Type-C data cable.

4.2 Charging the Controller

The controller has a built-in 800mAh lithium battery. To charge:

1. Connect the provided USB Type-C charging cable to the controller's USB Charging Jack.
2. Connect the other end of the cable to a USB power source (e.g., console, PC, USB wall adapter).
3. The controller will fully charge in approximately 2.5 hours. The light bar will indicate charging status.

5. OPERATING INSTRUCTIONS

5.1 Bluetooth Connection

The controller uses Bluetooth 4.2 technology, providing a stable connection with a receiving distance of up to 10 meters (390 inches). After initial wired activation, the controller should automatically connect wirelessly to your paired device when powered on.

5.2 Turbo Function

The Turbo function allows for rapid, repeated input of a button press, useful in certain games.

TURBO FUNCTION

Hold the T/SHARE key and then press any function key, the function key will have Turbo function

It is compatible with:

- PS4 (P4, P4 Pro, P4 Slim)
- PC (Windows)
- Android devices
- iOS devices
- Some PS4 games on PS5

7. MAINTENANCE

7.1 Battery Life Management

The 800mAh battery provides approximately 12-15 hours of continuous use on a full charge. To prolong battery life:

- Always shut down the controller when not in use for extended periods.
- Avoid fully draining the battery frequently.
- Charge the controller using the provided Type-C cable and a suitable power source.

7.2 Cleaning and Storage

- Clean the controller with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the controller in a cool, dry place away from direct sunlight and extreme temperatures.
- Avoid dropping the controller or exposing it to excessive force.

8. TROUBLESHOOTING

- **Controller not connecting:** Ensure the controller is charged. For the first connection, use the USB cable to activate it. If issues persist, try a different high-power USB Type-C data cable.
- **Input lag or disconnection:** Ensure the controller is within the 10-meter Bluetooth range. Check for potential interference from other wireless devices.
- **Buttons unresponsive:** Try resetting the controller (refer to the device's specific reset procedure, usually a small pinhole button on the back). Ensure the controller is fully charged.
- **Charging issues:** Verify the USB Type-C cable and power source are working correctly.
