## TakTark WN100

# TakTark Sound Machine User Manual

Model: WN100

## INTRODUCTION

---

The TakTark Sound Machine is a portable device designed to create a calming auditory environment, aiding in relaxation, sleep, and focus. It features a variety of soothing sounds, customizable timer settings, and a memory function for convenience. Its compact design and dual power options make it suitable for use in various settings, including nurseries, bedrooms, and during travel.

## SETUP

Follow these steps for initial setup:

1. **Power On:** Connect the device using the provided USB cable to a USB power source (e.g., computer, power bank, wall adapter) or ensure the built-in battery is charged. Press and hold the power button (**U**) to turn on the device.
2. **Initial Sound Selection:** The device will start playing the last selected sound. You can change the sound as described in the 'Operating Instructions' section.
3. **Volume Adjustment:** Adjust the volume to a comfortable level using the volume buttons.
4. **Timer Setting:** Select your desired timer duration or continuous play.

## OPERATING INSTRUCTIONS

---

### Power On/Off

- To turn on, press and hold the power button (**U**) until the indicator light illuminates.
- To turn off, press and hold the power button (**U**) again until the indicator light turns off.

### Sound Selection

The device offers 20 unique soothing sounds across four categories. Press the sound selection button (**♪**) to cycle through the available sounds.

Nature Sounds

White Noise

Light Music

Fetal Sound

# 20

## WHITE NOISE CHOICES

Figure 5: Sound Categories

The 20 sounds include:

- **Nature Sounds (9):** Wave, Rain, Piano, Bird, Thunder, Bonfire, Loss of TV signal, and two additional nature sounds.
- **Light Music (5):** Various calming melodies.
- **White Noise (5):** Different variations of white noise.
- **Fetal Sound (1):** A single fetal heartbeat sound.

## 20 WHITE NOISE CHOICES

 Wave	 Rain	 Piano	 Bird
 Thunder	 Fetal Sound	 Bonfire	 Loss of TV signal
★ 9 NATURE SOUNDS		🎵 5 LIGHT MUSIC	🔊 5 WHITE NOISE
❤️ 1 FETAL SOUND

### Volume Adjustment

The device features 16 adjustable volume levels. Use the volume up (+) and volume down (-) buttons to set the desired sound

level.

# 16 VOLUME LEVELS

The image displays a volume control interface for a sound machine. At the top, it says "16 VOLUME LEVELS". Below this is a vertical slider with 16 horizontal bars. To the left of the slider is a speaker icon with a plus sign, and to the right is a speaker icon with a minus sign. The "Volume Up" section features a sun icon, a photo of a smiling baby crawling, and the text "Volume Up" and "Capture serenity amidst the chaos". The "Volume Down" section features a moon icon, a photo of a baby sleeping in a crib, and the text "Volume Down" and "Sleep peacefully in familiar surroundings".

**Volume Up**  
Capture serenity amidst the chaos

**Volume Down**  
Sleep peacefully in familiar surroundings

## Memory Function

The device is equipped with a memory function that saves your last used sound, volume level, and timer setting. When you power on the machine, it will automatically resume play with these saved preferences.

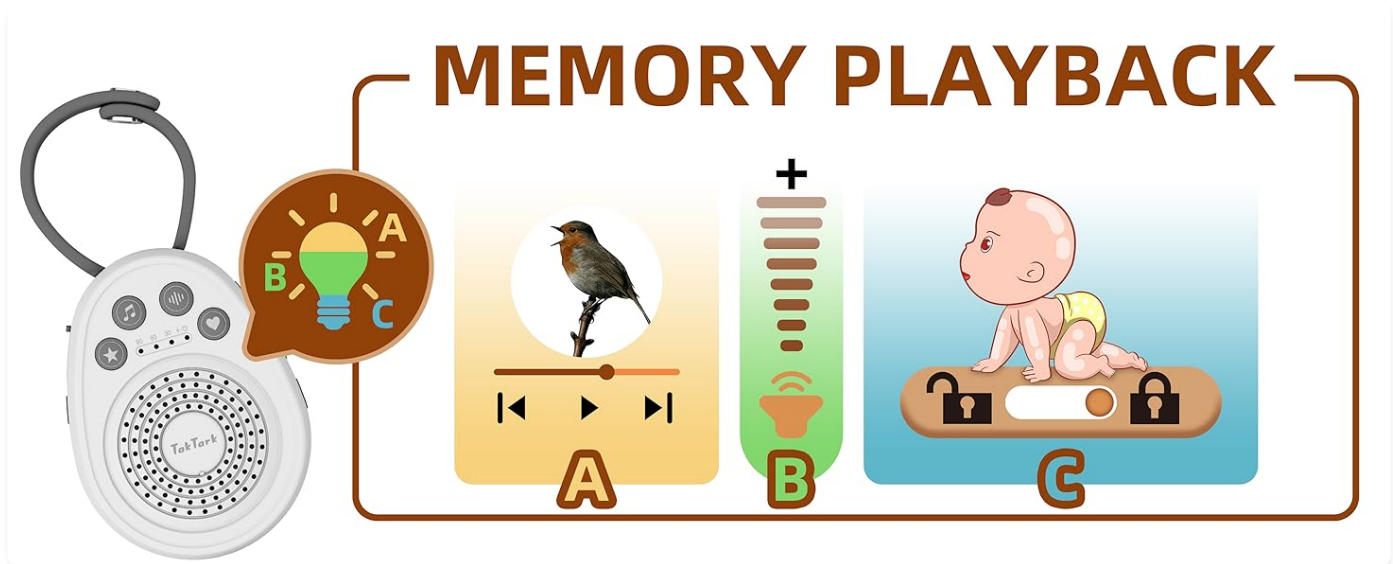

Figure 9: Memory Playback Feature

## Child Lock

To prevent accidental changes to settings, the sound machine includes a child lock feature. Locate the lock switch on the side of the device and slide it to the locked position. This will disable the control buttons.

## MAINTENANCE

To ensure the longevity and proper functioning of your TakTark Sound Machine:

- Clean the device with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- Keep the device away from water and excessive moisture.
- Avoid dropping the device or subjecting it to strong impacts.
- Store in a cool, dry place when not in use for extended periods.

## TROUBLESHOOTING

If you encounter issues with your sound machine, please refer to the following common solutions:

- **Device does not turn on:** Ensure the battery is charged or the device is connected to a working USB power source. Check the USB cable for damage.
- **No sound:** Check the volume level and increase it if necessary. Ensure the device is not muted.
- **Buttons are unresponsive:** Check if the child lock feature is enabled. Slide the lock switch to the unlocked position.
- **Sound quality is poor:** Ensure the speaker is not obstructed. Try a different sound to see if the issue persists.
- **Timer not working:** Verify that a timer setting (30, 60, or 90 minutes) is selected and not continuous play.

If the problem persists after attempting these solutions, please contact customer support.
