## Flieks SF000032AAB-MZJ

# Flieks Queen Size Upholstered Bed Frame

MODEL: SF000032AAB-MZJ

Instruction Manual

## 1. Introduction

Thank you for choosing the Flieks Queen Size Upholstered Bed Frame. This modern platform bed features a hydraulic storage system, integrated LED lighting, and convenient USB charging ports. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure safe and proper use of your new bed frame.

Please read this manual thoroughly before assembly and retain it for future reference.

## 2. Safety Information

- **Read all instructions:** Ensure you understand all assembly steps and safety warnings before beginning.
- **Two-person assembly:** Assembly of this bed frame is recommended for two adults due to its size and weight.
- **Use correct tools:** Only use the tools provided or recommended in the assembly instructions.
- **Weight capacity:** Do not exceed the maximum weight capacity of 660 LBS (299 kg).
- **Mattress thickness:** Use a mattress with a recommended thickness of 6-10 inches for optimal hydraulic system function.
- **Electrical safety:** Ensure the power outlet for the LED lights and USB ports is easily accessible and not overloaded. Do not expose electrical components to moisture.
- **Hydraulic system:** Exercise caution when operating the hydraulic lift mechanism. Keep hands and fingers clear of pinch points. Ensure the mattress is properly seated before lifting or lowering.
- **Children and pets:** Keep children and pets away from the assembly area. Do not allow children to play on or around the hydraulic lift mechanism.
- **Regular checks:** Periodically check all bolts and fasteners to ensure they remain tight.

## 3. Package Contents

Your Flieks bed frame is delivered in two packages. Please verify that all components are present before beginning assembly. Refer to the separate assembly manual included in the packaging for a detailed parts list and hardware

identification.

**Expected components include:**

- Upholstered Headboard sections
- Upholstered Side Rails
- Upholstered Footboard
- Bed Slats and Supports
- Hydraulic Lift Mechanism components
- LED Light Strip and Remote Control
- USB/Socket Power Unit
- Assembly Hardware (bolts, washers, nuts, Allen wrench)

## 4. Setup and Assembly

---

Assembly requires two people. Follow the step-by-step instructions provided in the separate assembly manual. The general sequence involves:

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface to prevent scratches. Verify all parts against the included parts list.
2. **Assemble Headboard:** Attach the headboard sections if they are separate.
3. **Connect Side Rails and Footboard:** Securely attach the side rails to the headboard and footboard using the provided hardware.
4. **Install Hydraulic Mechanism:** Carefully install the hydraulic lift mechanism according to the specific instructions. Ensure all connections are secure.
5. **Place Bed Slats:** Position and secure the bed slats onto the frame.
6. **Install LED Lights and USB/Socket Unit:** Attach the LED light strip to the designated area, typically along the base of the bed frame. Connect the USB/socket power unit, usually located on the headboard. Route any cables neatly and securely.

*Image 4.2: Rear view of the headboard, displaying the power cable for the integrated USB ports and LED lighting. Ensure this cable is connected to a power source.*

Image 4.3: Overall dimensions of the Fliexs Queen Size Bed Frame. Refer to these measurements for space planning and mattress compatibility.

## 5. Operating Instructions

### 5.1. Hydraulic Storage System

The bed frame features a hydraulic lift mechanism to access under-bed storage. To operate:

1. **Clear the bed:** Remove any heavy items or people from the bed surface.
2. **Lift the mattress:** Grasp the designated handle or edge of the bed frame (usually at the foot end) and gently lift upwards. The hydraulic pistons will assist in raising the mattress platform.
3. **Access storage:** Once fully raised, the platform will remain open, providing access to the storage compartment underneath.
4. **Lower the mattress:** To close, gently pull the mattress platform downwards. The hydraulic system will control the descent. Ensure no obstructions are in the way before fully closing.

**Caution: Do not force the mechanism. Keep hands clear of moving parts during operation.**

*Image 5.1: The bed frame with the hydraulic lift system fully open, revealing the spacious storage area beneath the mattress platform.*

Image 5.2: Side view of the bed frame with the hydraulic storage system engaged, showing the angle of the lifted mattress platform.

## 5.2. LED Light System

The integrated LED light system offers customizable lighting options. To operate:

- **Power On:** Ensure the bed frame's power cable (from the headboard) is plugged into a working electrical outlet.
- **Use Remote Control:** The LED lights are controlled via the included remote control.
- **Functions:**
  - **On/Off:** Press the power button to turn the lights on or off.
  - **Color Selection:** Choose from 16 available colors using the color buttons on the remote.
  - **Lighting Patterns:** Select from 4 lighting patterns (e.g., flash, strobe, fade, smooth) to change the light effect.
  - **Brightness Adjustment:** Adjust the intensity of the lights using the brightness control buttons.

Image 5.3: The Fliex bed frame illuminated by its integrated LED lights, showcasing the ambient lighting feature. Note the USB ports on the headboard in use.

## 5.3. USB Ports and Sockets

The headboard includes two USB ports and two standard electrical sockets for convenient charging and powering

devices.

- **Power Connection:** Ensure the bed frame's main power cable is connected to a live electrical outlet.
- **Usage:** Simply plug your USB charging cables or electrical devices into the respective ports/sockets.

**Caution: Do not exceed the rated power output of the integrated sockets and USB ports. Avoid using damaged cables or devices.**

## 6. Maintenance

- **Cleaning the Upholstery:** For routine cleaning, wipe the faux leather upholstery with a soft, damp cloth. For spills, blot immediately with a clean, dry cloth. Use a mild soap solution if necessary, then wipe with a clean, damp cloth and dry thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Dusting:** Regularly dust the bed frame with a soft, dry cloth.
- **Hardware Check:** Periodically inspect all bolts, screws, and fasteners to ensure they are tight. Re-tighten as needed to maintain stability and safety.
- **Hydraulic System:** The hydraulic pistons are generally maintenance-free. If you notice any issues with lifting or lowering, contact customer support. Do not attempt to lubricate or disassemble the hydraulic components.
- **Electrical Components:** Keep the LED light strip, USB ports, and sockets clean and dry. If any electrical component appears damaged, discontinue use and contact customer support.

## 7. Troubleshooting

Problem	Possible Cause	Solution
Bed frame is wobbly or unstable.	Loose hardware.	Check and tighten all bolts and screws. Ensure all connections are secure.
Hydraulic lift not working smoothly or not staying up.	Incorrect assembly of hydraulic pistons; mattress too heavy/light; obstruction.	Review assembly instructions for the hydraulic mechanism. Ensure mattress weight is within recommended range (6-10 inches thickness). Check for any obstructions. Contact support if issue persists.
LED lights not turning on.	Power cable unplugged; remote control battery dead; faulty connection.	Ensure the bed frame's power cable is securely plugged into a working outlet. Check remote control battery. Verify LED strip connections.
USB ports or sockets not working.	Power cable unplugged; overloaded circuit; faulty device.	Confirm the bed frame's power cable is plugged in. Ensure the connected device is functional. Avoid overloading the ports/sockets.
Missing parts during assembly.	Packaging error.	Carefully check both packages and all packing materials. Contact Flieks customer support with your purchase details and the specific missing parts.

## 8. Specifications

Feature	Detail
Product Dimensions (Overall)	84.3"L x 63"W x 42.9"H

Feature	Detail
Material	Faux Leather
Color	Black
Weight Capacity	660 LBS (299 kg)
Recommended Mattress Thickness	6-10 inches
Special Features	Hydraulic Storage System, LED Light (16 colors, 4 patterns), 2 USB Ports, 2 Sockets
Assembly Required	Yes (Two-person recommended)
Model Number	SF000032AAB-MZJ
UPC	196986731059

## 9. Warranty and Support

For warranty information, please refer to the documentation included with your purchase or visit the official Flieks website. If you encounter any issues during assembly or operation, or if you have questions about your product, please contact Flieks customer support:

- **Customer Service:** Refer to your purchase receipt or the Flieks website for contact details.
- **When contacting support, please provide:** Your model number (SF000032AAB-MZJ), purchase date, and a detailed description of the issue.
