### Phomemo M832

## Phomemo M832 Portable Thermal Printer User Manual

Model: M832

### INTRODUCTION

The Phomemo M832 Portable Thermal Printer is a compact, inkless printing solution designed for convenience and mobility. This manual provides comprehensive instructions for setting up, operating, and maintaining your printer, ensuring optimal performance and longevity.

### WHAT'S IN THE BOX

- 1 x Phomemo M832 Portable Printer
- 1 x Thermal paper roll (pre-installed in the printer paper bin)
- 1 x Flannel Storage Bag
- 1 x USB-C Charging Cable
- 1 x Quick Start Guide

### PRODUCT OVERVIEW

Familiarize yourself with the key components of your Phomemo M832 printer:

# M832 Portable Printer At One Glance

Image: Phomemo M832 Portable Printer showing its dimensions and button locations.

- Power Button:** Press and hold for 3 seconds to turn the printer on or off.
- Open Cover Button:** Press on both sides simultaneously to open the printer cover for paper loading.
- Power Port:** Insert the USB-C cable here for charging the printer.
- Reset Button:** Press to reset the device if needed.

## 1. Charging the Printer

Before first use, fully charge the printer. Connect the provided USB-C cable to the printer's power port and the other end to a 5V 2A power adapter (not included). Avoid using chargers with output above 5V.

**Image:** The Phomemo M832 printer being charged, illustrating its 2600mAh battery and capacity for 150 continuous prints.

The built-in 2600mAh rechargeable battery allows for printing up to 150 sheets on a full charge.

## 2. Loading Thermal Paper

The Phomemo M832 supports various thermal paper types and sizes, including 8.5" x 11" US Letter, A4, 2.08"(53mm), 3.15"(80mm), and 4.33"(110mm). It can use thermal roll paper, folded thermal paper, and single sheet thermal paper.

1. Press the open cover buttons on both sides of the printer to open the top cover.
2. Insert the thermal paper into the paper bin, ensuring the printable side is facing up. For roll paper, remove any plastic wrapping and ensure the leading edge is straight.
3. Adjust the paper guides to fit the width of your paper.
4. Close the top cover firmly until it clicks into place.

# Print on Different Thermal Paper Sizes

**Image:** The Phomemo M832 printer demonstrating compatibility with various thermal paper sizes and types, including single sheet, continuous, and roll paper.

## 3. Connecting to Your Device

### Bluetooth Connection (for Mobile Phones/Tablets)

The Phomemo M832 is compatible with iOS 13 and above, and Android 7 and above.

1. Download the "Phomemo" app from the App Store (iOS) or Google Play Store (Android).

2. Ensure Bluetooth is enabled on your mobile device.
3. Open the Phomemo app and follow the in-app instructions to connect to your printer. The app will guide you through the pairing process.

**Image:** Visual guide for connecting the Phomemo M832 printer to a mobile device via Bluetooth using the Phomemo app.

### **USB-C Cable Connection (for Laptops/Computers)**

The printer is compatible with macOS 10.14 and above, Windows 7/8/10/11 (both 32-bit and 64-bit), Chrome OS, and Linux.

1. Connect your M832 printer to your laptop or computer using the provided USB-C cable.
2. Download and install the necessary drivers from [m832.phomemo.com](http://m832.phomemo.com).
3. Once drivers are installed, select the M832 printer from your computer's print options to begin printing.

**Image:** Instructions for connecting the Phomemo M832 printer to a laptop or computer using a USB-C cable and installing drivers.

## **OPERATING INSTRUCTIONS**

---

### **Basic Printing Steps**

1. Ensure the printer is powered on and connected to your device (via Bluetooth or USB-C).
2. Open the document, image, or web page you wish to print on your device.
3. Select the print option from your application or device settings.
4. Choose "Phomemo M832" as your printer.
5. Adjust print settings (e.g., paper size, orientation) as needed.
6. Initiate the print job. The printer will feed the thermal paper and produce the printout.

**Image:** The Phomemo M832 printer in action, demonstrating its ability to print documents, invoices, and other materials from a connected smartphone.

## Print Quality

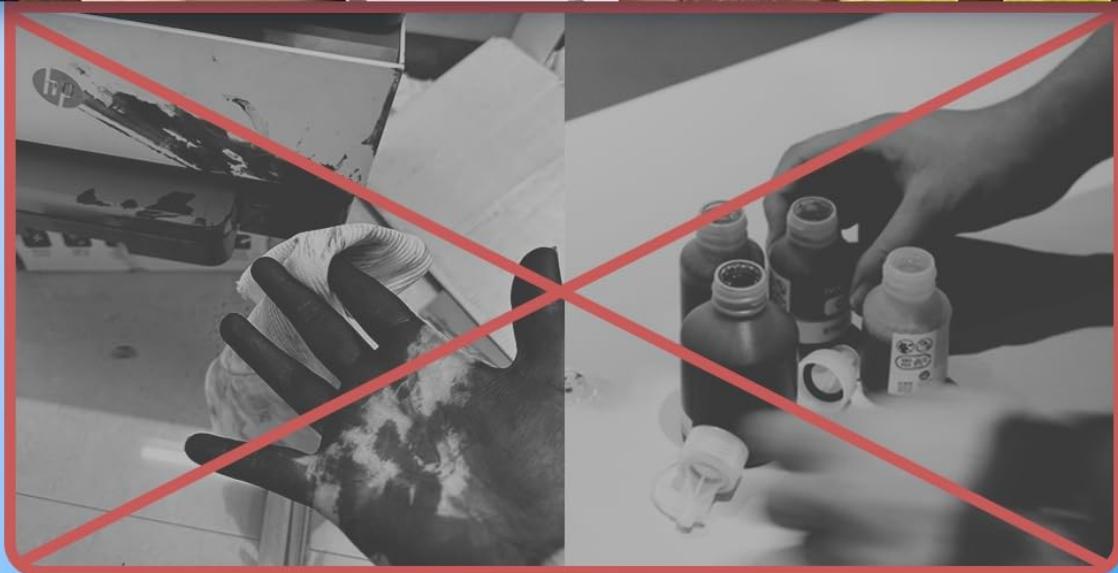

The Phomemo M832 features a 300 DPI (dots per inch) print resolution, providing clear and crisp black and white prints. This high resolution ensures that text and graphics are sharp and legible.

**Image:** A visual comparison highlighting the enhanced print quality of the Phomemo M832 (300 DPI) compared to a 200 DPI printer.

## Inkless Printing Technology

This printer utilizes advanced thermal technology, eliminating the need for ink cartridges, toner, or ribbons. This design prevents common issues like clogging and reduces ongoing costs, making printing more efficient and economical. Only thermal paper is required for operation.

# Inkless Printing

**Image:** Illustration of the Phomemo M832's inkless thermal printing technology, showing no need for ink, toner, or ribbons.

## Versatile Usage

The compact and portable design of the Phomemo M832 makes it suitable for various environments and uses, including:

- **Travel:** Ideal for business trips, vehicle use (cars, trucks), and mobile notary services.
- **Office & Home:** Perfect for small offices, home use, and printing documents, contracts, invoices, and receipts.
- **Education:** Useful for students and teachers for printing study notes, worksheets, and customized cards.

- **Personal Use:** Great for printing recipes, letters, shopping lists, and DIY projects.

**Image:** The Phomemo M832 printer being used in various settings: on a flight, outdoors, in an office, and on a campus, highlighting its portability.

## MAINTENANCE

### Cleaning the Printer

To ensure consistent print quality and prolong the life of your printer, regular cleaning is recommended:

- Turn off the printer and disconnect it from the power source.
- Gently wipe the exterior of the printer with a soft, dry, lint-free cloth.
- To clean the thermal print head, use a cotton swab lightly dampened with isopropyl alcohol. Wipe the print head gently and allow it to dry completely before closing the cover or using the printer.
- Remove any paper dust or debris from the paper path using a soft brush or compressed air.

## Thermal Paper Storage

Store thermal paper in a cool, dry place away from direct sunlight, heat, and humidity. Exposure to these elements can degrade the paper's thermal coating, leading to faded or unreadable prints over time.

## TROUBLESHOOTING

This section addresses common issues you might encounter with your Phomemo M832 printer.

Problem	Possible Cause	Solution
Printer does not turn on.	Low battery or power issue.	Ensure the printer is charged. Connect to a 5V 2A power source using the USB-C cable.
Cannot connect via Bluetooth.	Bluetooth not enabled, app issue, or interference.	Ensure Bluetooth is enabled on your device. Make sure no other devices are connected to the printer. Restart the Phomemo app and the printer. If using multiple Apple devices, turn off Bluetooth on the unused device.
Poor print quality (faded, inconsistent).	Print head dirty, incorrect paper, or low battery.	Clean the thermal print head as described in the Maintenance section. Ensure you are using high-quality thermal paper. Charge the printer fully.
Paper jam or misfeed.	Improper paper loading or damaged paper.	Open the cover and carefully remove any jammed paper. Ensure paper is loaded correctly and aligned with the guides. Use undamaged thermal paper.
Printer not recognized by computer (USB).	Missing or incorrect drivers.	Ensure drivers are installed from <a href="https://m832.phomemo.com">m832.phomemo.com</a> . Try restarting your computer with the printer connected and powered on. Try a different USB-C port or cable.

## SPECIFICATIONS

Feature	Detail
---------	--------

Feature	Detail
Model Name	M832 Portable Printer
Product Dimensions	10.39"D x 1.77"W x 3.07"H
Item Weight	1.52 pounds
Printing Technology	Thermal
Connectivity Technology	Bluetooth, USB Type C
Maximum Black and White Print Resolution	300 DPI
Maximum Media Size	8.5 x 11 inch (US Letter)
Supported Sheet Sizes	8.5" X 11" (US Letter), A4, 4.33" (110mm), 3.15"(80mm), 2.08"(53mm) Inches

Cover is open	Cover is open	Lit (Red)	Lit (Blue)
Charging while power on/off	Off	Off	Off (Slowly Blue)
Charging while power off	On	On	On (Slowly Blue)
Battery	Normal	Lit (Green)	Lit (Blue)
Low Power	Low Power	Blink (Slowly Red)	Lit (Blue)
Connection	Bluetooth Connected	Lit (Green)	Lit (Blue)
Status	Normal	Lit (Green)	Lit (Blue)
Paper Status	No Paper / Paper Not Detected	Lit (Red)	Lit (Blue)
Others	Print Head is overheated	Lit (Red)	Lit (Blue)
	Never Update	Off	On

### 03. Precautions

1. Please use 5V 2A input for charging.
2. Please connect the USB cable to the power adapter before charging, please gently insert the USB cable into the charging cable when charging, to prevent excessive force from damaging the port.
3. After the charge is completed, please unplug the charging cable.
4. Avoid using the printer in a high-temperature environment, such as direct sunlight, high humidity, heavy smoke and dust, such as in bathrooms, steam rooms, near fireplaces, etc.
5. Improper charging may cause damage to the print head.
6. Do not cut the print head to prevent soiling caused by overheating.
7. The heating blade is sharp, please be careful and avoid touching it by mistake.
8. When moving or carrying, turn off the machine to protect the machine.

#### Battery warning (indicating 8 points)

1. It is fatal to damage the battery to cause the battery, or the heat it will be;
2. If the battery is overcharged, please do not use it;
3. Do not place in a high-temperature environment, and it is strictly prohibited to use the battery in the sun;
4. There is a danger of explosion if the battery is replaced by the wrong type. Be sure to dispose of the used battery according to the instructions;
5. If using a power adapter for power supply, they should purchase a power adapter that meets the requirements of corresponding safety standards or a power adapter with CCC certification.

### 04. Install App

#### 1. Download the App

Please search for "Phomemo" on your phone's App market and download the App.  
Search for Phomemo in the Apple App Store, click to download and install.  
Search for Phomemo in the Google App Store, click to download and install.

#### 2. How to download and install driver

Download the latest driver from the official website. Download the relevant driver according to the your operating system version and follow the instruction to install the driver.

### 05. Instructions

#### 1. Instructions for consumable usage

- ① Press the two Open Cover Buttons at the same time to open the cover.
- ② Take out the randomly included paper roll and cut off.
- ③ Install the paper roll back into the paper cap part and pull the paper out of the Paper Output Slot. Close the Cover.
- ④ Press and hold the power button for 3 seconds to turn on the printer.

→ Hint: How to differentiate the front and back of the printing paper  
① Take a piece of printing paper and scratch both sides of the paper with your fingernail. The front side of the side with colors. Install the paper with the front side facing upward.  
② This product can print front & back of paper. Please adjust the position of the consumable holder according to the width of the consumables.  
③ Take the back out, please use our genuine printing paper.

#### 2. Instructions for single sheet paper and folded paper usage

- ① You can fit the paper into the corresponding slot in the app application.  
When using a single sheet of paper or folded paper, please hold the paper and make sure it is straight and aligned. Insert the paper directly into the printer's feeder and pull the paper to the end of the machine's optimal position. To achieve the best results, please use our genuine printing paper.
- ② When you need to take out the printed paper, press the open cover button simultaneously, and the machine's top cover will gently pop open. Then, remove the paper.

→ Hint  
① The paper must be inserted aligned to the paper feeder.  
② This product can print different size of paper. Please adjust the position of the consumable holder according to the width of the consumables.

## Phomemo M832 Portable Printer User Manual and Guide

Comprehensive user manual for the Phomemo M832 portable printer, covering setup, operation, troubleshooting, and specifications. Learn how to connect, print, and maintain your device.

When using "Faded paper", after printing your documents, trace along the perforation lines.

### 3-1. Connect the printer to the App

#### ① Method 1

Turn on the Bluetooth on your phone, launch the Phomemo APP, tap on the icon at the upper right corner of the Phomemo APP main interface, and select the corresponding model and the drop down list to establish a connection.

\*This system needs to enable positioning and allow app to obtain relevant permissions.

#### ② Method 2

Double press the printer's power button to print a QR code. Open your Phomemo App and press the button on the top right of your Phomemo App home page. On the selection page, press scan and scan the QR code to connect to the printer.

### 3-2. Connect the printer to the computer

#### ① Step One

Connect one end of the data cable to your computer and the other end to the printer's USB port. Turn on your printer.

#### ② Step Two

Enter official website and download the printer's drivers. Install the printer's driver.

Official website: [N832.phomemo.com](http://N832.phomemo.com)

#### ③ Step Three

Add the printer to your computer and establish a connection. Once the connection is established, you can print your documents from your computer.

### 06. Official Printing Paper Type

- ① Normal thermal paper: Cannot contain Biphosph A.
- ② Without Quick-drying thermal paper: Thermal paper that does not contain Biphosph A, can be written on, and dries quickly.

\*The printing papers mentioned above are official printing papers.

\*Any issues with your printer arising from using non official printing papers will not be covered under our warranty policy.

### 08. FCC Warning

#### FCC Warning statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Resident or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

#### FCC RF exposure statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

### 09. IC Warning

#### IC Warning statement:

This device contains license-exempt transmitter(s) (radio(s)) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.

2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur(s)/récepteur(s) exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicable aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas provoquer d'interférence.

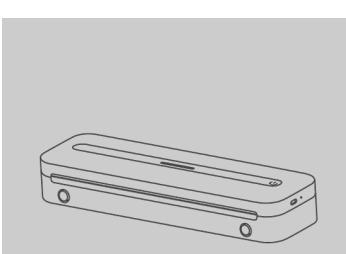

2. L'appareil doit accepter toute interférence, y compris celles qui peuvent entraîner un fonctionnement indésirable de l'appareil.

#### IC RF exposure statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

#### IC Declaration of Acceptance:

Uppanel a été évalué pour répondre aux exigences générales d'exposition au RF d'IC. L'appareil peut être utilisé dans des conditions de portabilité sans restriction.
