Goldair GSGH-400A

Goldair Stainless Steel 4 Burner Gas Hob

Model: GSGH-400A

1. INTRODUCTION

Thank you for choosing the Goldair Stainless Steel 4 Burner Gas Hob. This appliance is designed for efficient and reliable cooking, featuring a durable stainless steel construction and robust cast iron pan stands. This manual provides essential information for the safe installation, operation, maintenance, and troubleshooting of your new gas hob.

Key features include:

- Heavy stainless steel construction for durability and heat resistance.
- Four high-performance gas burners.
- Sturdy cast iron pan stands for stable pot placement.
- Easy-to-clean, stain-resistant surface.

2. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the appliance. Retain this manual for future reference. Improper installation, adjustment, alteration, service, or maintenance can cause injury or property damage. Refer to this manual. For assistance or additional information, consult a qualified installer, service agency, or the gas supplier.

- **Gas Safety:** Ensure proper ventilation. Do not store or use gasoline or other flammable vapors and liquids in the vicinity of this or any other appliance.
- **Installation:** Installation must be carried out by a qualified and registered gas installer in accordance with local regulations and standards.
- **Children:** Keep children away from the appliance during operation and cooling.
- **Hot Surfaces:** Burners and surrounding areas become hot during use. Avoid touching hot surfaces.
- **Ventilation:** Always ensure adequate ventilation in the kitchen area when the gas hob is in use.
- **Regulator Output Pressure:** The appliance requires a regulator output pressure of 2.8kPa. Ensure the correct regulator is used.

3. SETUP AND INSTALLATION

The installation of this gas hob must be performed by a certified gas technician to ensure compliance with all local safety standards and regulations. Incorrect installation can lead to serious hazards.

3.1 Unpacking

- Carefully remove the hob from its packaging.
- Check for any damage during transit. If damage is found, do not install and contact your supplier.
- Ensure all components are present: hob unit, cast iron pan stands, burner caps, and control knobs.

3.2 Gas Connection

- The gas supply connection must be made by a qualified gas installer.
- Ensure the gas type (LPG or Natural Gas) matches the appliance specifications.
- The required regulator output pressure is 2.8kPa.
- After connection, check for gas leaks using a soapy water solution. Never use an open flame.

3.3 Placement and Ventilation

- Install the hob in a well-ventilated area.
- Ensure adequate clearance from combustible materials as per local building codes.
- The hob should be installed on a stable, heat-resistant countertop.

4. OPERATING INSTRUCTIONS

Before first use, ensure all packaging materials are removed and the hob is clean.

4.1 Lighting a Burner

1. Place a suitable cooking utensil on the cast iron pan stand over the desired burner.
2. Push down and turn the corresponding control knob counter-clockwise to the 'High' flame setting (indicated by a large flame symbol).
3. Hold the knob down for a few seconds to allow the flame to ignite. If the burner does not light, release the knob and repeat the process.
4. Once lit, you can adjust the flame intensity by turning the knob between the 'High' and 'Low' flame settings (small flame symbol).
5. To turn off the burner, turn the control knob clockwise to the 'Off' position (dot symbol).

4.2 Using Cookware

- Always use cookware appropriate for the size of the burner.
- Ensure the flame does not extend beyond the base of the pot or pan.
- The cast iron pan stands are designed to support heavy pots steadily.

5. CLEANING AND MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your Goldair Gas Hob.

5.1 Daily Cleaning

- Always ensure the hob is cool before cleaning.
- Wipe down the stainless steel surface with a soft cloth dampened with warm, soapy water.
- For stubborn stains, use a non-abrasive stainless steel cleaner.
- Dry thoroughly with a clean, soft cloth to prevent water spots. The surface is made from stain-resistant material for easy cleaning.

5.2 Burner Components

- Remove the cast iron pan stands, burner caps, and burner heads.
- Wash these components in warm, soapy water. For heavily soiled parts, a mild degreaser can be used.
- Ensure all parts are completely dry before reassembling. Blocked burner holes can affect flame quality.

5.3 General Care

- Avoid using abrasive cleaners, scourers, or harsh chemicals as they can damage the stainless steel finish.
- Regularly check the gas hose for any signs of wear or damage. If any damage is observed, contact a qualified technician immediately.

6. TROUBLESHOOTING GUIDE

Before contacting customer service, please refer to the following troubleshooting table for common issues.

Problem	Possible Cause	Solution
Burner does not light	No gas supply Igniter not sparking Burner components wet or blocked	Check gas cylinder/supply valve Ensure control knob is pushed down fully Clean and dry burner components

Problem	Possible Cause	Solution
Uneven flame	Burner holes blocked Burner cap incorrectly placed	Clean burner holes with a brush Ensure burner cap is seated correctly
Gas smell detected	Gas leak	Immediately turn off gas supply. Open windows. Do not operate electrical switches. Contact a qualified gas technician.
Control knob stiff	Food debris or grease buildup	Clean around the control knob base. Do not force.
