LIGHTAILING 21343

LIGHTAILING LED Lighting Kit for LEGO 21343 Viking Village Instruction Manual

PRODUCT OVERVIEW

This LIGHTAILING LED lighting kit is specifically designed to illuminate the LEGO 21343 Viking Village model. It enhances the visual display of your building set by adding integrated lighting effects. Please note that the LEGO model itself is not included with this lighting kit.

Included Components

The kit includes the following items:

- 1 USB light kit
- Instruction guide
- Battery box

IMPORTANT SAFETY INFORMATION

Power Source: This lighting kit requires three AA batteries or a USB charger. Ensure the voltage from the USB charger is less than 5V to prevent damage to the components.

Handling: Install the LED lights carefully. Avoid hard pulling, bending, or shaking the wires and components to prevent damage.

INSTALLATION GUIDE

The installation of the lighting kit is designed to integrate seamlessly with your LEGO 21343 Viking Village model. Follow the included instruction guide for detailed, step-by-step instructions. General guidance for installation includes:

- Plan the wire routing to ensure they are discreetly hidden within the LEGO structure.
- Connect components gently. Do not force connectors.
- Test sections of the lighting as you install them to ensure proper function.

Video: A demonstration of the LIGHTAILING LED lighting kit installed on the LEGO 21343 Viking Village model, showcasing various illuminated sections and the overall effect. This video provides a visual reference for the completed installation.

Image: Overall view of the fully illuminated LEGO 21343 Viking Village model with the LIGHTAILING LED lighting kit installed, showing the vibrant lighting effects across the entire structure.

OPERATING INSTRUCTIONS

To operate the lighting kit, ensure the battery box is loaded with three AA batteries or the USB cable is connected to a power source (less than 5V). Turn on the power switch on the battery box or USB connector to activate the lights.

CARE AND MAINTENANCE

To maintain the longevity and performance of your lighting kit:

- Keep the components clean and free from dust. Use a soft, dry cloth for cleaning.
- Avoid exposing the kit to excessive moisture or extreme temperatures.
- When not in use for extended periods, disconnect the power source or remove batteries from the battery box.

TROUBLESHOOTING

Issue	Possible Cause	Solution
Lights do not turn on	No power, loose connection, dead batteries	Check battery installation or USB connection. Replace batteries if necessary. Ensure all connectors are securely fastened.
Some lights are dim or flickering	Loose connection, insufficient power	Verify all wire connections. Ensure the power source (batteries or USB) provides adequate and stable power.
Lights do not fit properly	Incorrect placement, obstruction	Refer to the instruction guide for correct placement. Gently adjust the LEGO bricks or wires to allow for proper seating of the lights.
