2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, and injury to persons, including the following:

- Read all instructions before using this heater.
- This heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces.
- Extreme caution is necessary when any heater is used by or near children or invalids and whenever the heater is left operating and unattended.
- Do not operate any heater with a damaged cord or plug or after the heater malfunctions, has been dropped or damaged in any manner.
- Do not use outdoors.
- To disconnect heater, turn controls to OFF, then remove plug from outlet.
- Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
- To prevent a possible fire, do not block air intakes or exhaust in any manner. Do not use on soft

surfaces, like a bed, where openings may become blocked.

- A heater has hot and arcing or sparking parts inside. Do not use it in areas where gasoline, paint, or flammable vapors or liquids are used or stored.
- Use this heater only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or injury to persons.
- This heater includes a tip-over safety switch and overheat protection. If the heater tips over or overheats, it will automatically shut off.
- Constructed with V-0 flame-retardant materials for enhanced safety.
- Features a child lock function to prevent unintended operation.

8. MAINTENANCE

Regular cleaning of the air filter is recommended to maintain optimal performance.

Cleaning the Air Filter

1. Ensure the heater is turned OFF and unplugged from the power outlet.
2. Locate the removable air filter cover on the rear of the heater.
3. Gently remove the filter cover and the filter element.
4. Clean the filter using a soft brush or vacuum cleaner to remove dust and debris. If heavily soiled, rinse with lukewarm water (do not use hot water or harsh detergents) and allow it to air dry completely before reinserting.
5. Reattach the filter element and cover securely.

9. TROUBLESHOOTING

- **Heater does not turn on:** Ensure the power cord is securely plugged into a working outlet. Check if the power button is pressed. Verify that the child lock is not activated.
- **Heater shuts off unexpectedly:** This may be due to the tip-over protection or overheat protection. Ensure the heater is on a stable, flat surface and not covered. Allow it to cool down before restarting.
- **Error Code "E4" on display:** This indicates the tip-over protection has been activated. Place the heater upright on a stable surface.
- **Remote control not working:** Check and replace batteries if necessary. Ensure there are no obstructions between the remote and the heater.
- **Insufficient heat output:** Ensure the correct heating mode (P1, P2, P3) is selected. In ECO mode, check the set temperature. Clean the air filter if it is clogged.
