

## Beinkap NC06

# Beinkap Noise Reduction Earplugs NC06 User Manual

Model: NC06

## INTRODUCTION

---

Thank you for choosing Beinkap Noise Reduction Earplugs NC06. These reusable silicone earplugs are designed to provide effective hearing protection and reduce unwanted noise, enhancing your ability to sleep, study, work, or concentrate in various environments. With a Noise Reduction Rating (SNR) of 35 dB, they are crafted for comfort and durability. This manual provides essential information on how to properly use, maintain, and care for your earplugs to ensure optimal performance and longevity.

## PRODUCT OVERVIEW

---

The Beinkap NC06 earplugs are made from soft, antibacterial, eco-friendly silicone, offering a comfortable and secure fit. Each package includes:

- 2 pairs of earplug bodies
- 3 sets of S/M/L soft silicone ear tips
- 3 sets of S/M/L double-layer ear tips
- 1 portable storage case

Below the diagram, a graph illustrates the noise reduction effect, showing sound levels before and after using the earplugs.

## SETUP AND FITTING

- 1. Unpack:** Carefully remove the earplugs and all accessories from their packaging.
- 2. Choose Ear Tip Size:** Select the appropriate size of silicone ear tips (S, M, or L) that best fits your ear canal. The goal is a snug, comfortable seal without causing pressure. You have options for both soft silicone and double-layer ear tips. Experiment with different sizes and types to find your ideal fit.
- 3. Attach Ear Tips:** Gently attach the chosen ear tips to the earplug bodies. Ensure they are securely fastened.
- 4. Insert Earplugs:**
  - Gently pull your outer ear upwards and backwards to straighten your ear canal.
  - Insert the earplug into your ear canal with a slight twisting motion until it feels secure and comfortable.
  - Release your outer ear and allow the earplug to settle.
  - Check for a proper seal: Noise should be noticeably reduced. If not, re-adjust or try a different

ear tip size.

## OPERATING INSTRUCTIONS

Once properly fitted, your Beinkap NC06 earplugs are ready for use in various situations where noise reduction is desired:

- **For Sleeping:** Insert the earplugs before going to bed. The ergonomic circular design is specifically engineered to minimize pressure and discomfort, even for side sleepers, allowing for a peaceful night's rest.
- **For Studying or Working:** Use the earplugs to block out distracting background noise, helping you maintain focus and concentration in noisy environments.
- **For Travel:** Reduce engine noise, chatter, and other disturbances during flights, train rides, or bus journeys.
- **For Concerts or Loud Events:** Protect your hearing from excessively loud music or sounds while still allowing you to hear important details.

# Stay with You All Night

Roll over, sleep on your side without ear pressure

## MAINTENANCE AND CLEANING

To ensure hygiene, effectiveness, and extend the lifespan of your Beinkap NC06 earplugs, regular cleaning is recommended:

1. **Daily Cleaning:** After each use, gently wipe the earplugs with a clean, damp cloth to remove any earwax or debris.
2. **Thorough Cleaning:** When necessary, the earplugs are washable.
  - Remove the silicone ear tips from the earplug bodies.
  - Wash both the earplug bodies and ear tips with mild soap and lukewarm water.
  - Rinse thoroughly under running water to remove all soap residue.
  - Allow them to air dry completely before reassembling or storing. Do not use harsh chemicals or abrasive materials.
3. **Storage:** Always store your clean and dry earplugs in the provided portable storage case to protect them from dust, dirt, and damage.

## TROUBLESHOOTING

If you encounter any issues with your Beinkap NC06 earplugs, please refer to the following common solutions:

- **Insufficient Noise Reduction:**

- Ensure the earplugs are inserted correctly and form a tight seal in your ear canal.
- Try a different size of ear tip (S, M, or L) to achieve a better fit.
- Experiment with both the soft silicone and double-layer ear tips to see which provides better noise isolation for your ears.

- **Discomfort or Pressure:**

- The earplugs might be inserted too deeply or the ear tips might be too large. Try a smaller ear tip size.
- Re-adjust the earplugs to ensure they are not pressing against sensitive parts of your ear.

- **Earplugs Falling Out:**

- The ear tips might be too small or not creating a sufficient seal. Try a larger ear tip size.
- Ensure your ear canal is clean and free of excessive earwax, which can affect retention.
