Vactidy V8 Pro

Vactidy Cordless Vacuum Cleaner User Manual

Model: V8 Pro

1. INTRODUCTION

Thank you for choosing the Vactidy Cordless Vacuum Cleaner. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read it thoroughly before first use and keep it for future reference.

2. WHAT'S IN THE Box

Carefully unpack all components and check against the list below:

- **Main Motor Unit** (with Dustbin and Battery)
- **Retractable Metal Tube**
- **Motorized Floor Brush Head** with LED Lights
- **Long Crevice Tool**
- **2-in-1 Brush Tool**
- **Wall Mount** with Charging Port
- **Power Adapter/Charger**
- **Extra HEPA Filter**
- **User Manual**

3. SETUP AND ASSEMBLY

Follow these steps to assemble your vacuum cleaner:

- 1. Attach the Retractable Metal Tube:** Align the metal tube with the main motor unit and push until it clicks securely into place.
- 2. Attach the Floor Brush Head:** Connect the motorized floor brush head to the other end of the metal tube, ensuring it clicks firmly.
- 3. Charging:** Before first use, fully charge the vacuum. Connect the power adapter to the wall mount and then place the main motor unit onto the wall mount. The LED screen will indicate charging status.

4. OPERATING INSTRUCTIONS

4.1 Power and Mode Selection

The vacuum features an intuitive LED touch panel. Press the power button to turn the unit on/off. Use the mode selection button to switch between two suction power levels: Eco Mode (for lighter cleaning and longer runtime) and Max Mode (for powerful suction on stubborn dirt).

Multifunctional with Various Accessories

Retractable metal tube and versatile brushes
are suitable for different cleaning scenarios.

Figure 4.1: LED Touch Panel displaying battery level and current power mode.

4.2 General Usage

The motorized floor brush head is designed for effective cleaning on both hardwood floors and carpets. Its 180° rotatable design allows for easy maneuverability around furniture and obstacles. The 4 LED brush head lights illuminate dust and debris in dark areas, ensuring thorough cleaning.

Impressive 25KPA Powerful Suction
Easily capture pet hair, dust, debris, crumbs, pet food, and other messes with ease.

Figure 4.2: Vacuum in use on a hard floor, demonstrating powerful suction.

Storage Wall Mount

Easy and convenient to store the vacuum and the accessories all together in one place.

Figure 4.3: Vacuum in use on a carpet, showcasing the EasyGrab™ roller brush technology.

4.3 Self-Standing Design

The V8 Pro features a convenient self-standing design, allowing you to pause cleaning and place the vacuum upright anywhere without needing to lean it against a wall or furniture. To engage, simply push the brush head forward until it locks into the upright position.

Humanized Self Standing Design

Free your hands and allow you to place the vacuum wherever you want.

Figure 4.4: The vacuum's self-standing capability.

4.4 Using Attachments

The vacuum comes with versatile attachments for different cleaning scenarios:

- **Long Crevice Tool:** Ideal for narrow gaps, corners, and hard-to-reach areas like between sofa cushions or along baseboards.
- **2-in-1 Brush Tool:** Can be used as a soft brush for delicate surfaces (e.g., keyboards, curtains) or as a wider crevice tool by retracting the brush bristles. Perfect for upholstery and car interiors.

LED Touch Panel

Keep informed in real time with operating status, power mode and battery level.

5. MAINTENANCE

5.1 Emptying the Dust Cup

To maintain optimal suction, empty the dust cup after each use or when the MAX line is reached. Press the release button on the dust cup to open the bottom flap and discard debris into a trash bin.

Figure 5.1: Emptying the dust cup.

5.2 Cleaning Filters

The Vactidy V8 Pro utilizes a 4-stage CycloneFlow™ Technology Filtration System, including a HEPA filter, Multi-Cyclone Filtration, Stainless Steel Filtration, and Cyclone Separation Filtration. For best performance, clean the filters regularly (recommended every 2-3 months or as needed). Twist to remove the dust cup and separate the filter components. Rinse the filters with cold water and allow them to air dry completely for at least 24 hours before reassembling.

CycloneFlow™ Technology Filtration System

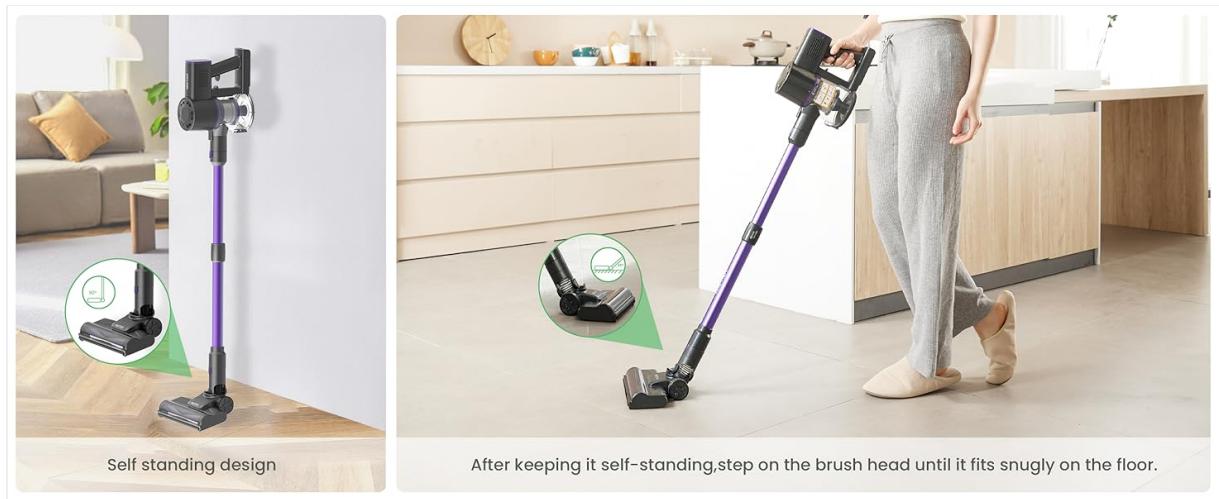

Figure 5.3: Cleaning the dust cup and filters.

5.3 Cleaning the Roller Brush

Periodically check the roller brush for tangled hair or debris. Remove the roller brush from the floor head and use scissors or a brush to clear any obstructions. Reinsert the roller brush securely.

Storage Wall Mount

Easy and convenient to store the vacuum and the accessories all together in one place.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Vacuum not turning on	Low battery; improper assembly.	Charge the battery fully. Ensure all parts are securely clicked into place.
Weak suction power	Full dust cup; clogged filters; tangled roller brush.	Empty dust cup. Clean all filters. Clear any obstructions from the roller brush and tube.

Problem	Possible Cause	Solution
Vacuum stops unexpectedly	Overheating; low battery.	Allow the vacuum to cool down. Recharge the battery.
Brush head not rotating	Obstruction in brush roll; brush head not properly attached.	Remove any tangled hair or debris. Reattach the brush head securely.

If the problem persists, please contact Vactidy customer support.
