EUHOMY BRU-DD04

EUHOMY 24-Inch Dual Zone Wine and Beverage Refrigerator

Model: BRU-DD04 | **Brand:** EUHOMY

INTRODUCTION

This manual provides essential information for the safe and efficient operation of your EUHOMY 24-inch Dual Zone Wine and Beverage Refrigerator, Model BRU-DD04. Please read these instructions thoroughly before installation and use, and retain them for future reference.

Image: The EUHOMY 24-inch dual zone wine and beverage refrigerator with stainless steel trim and glass doors, showcasing wine bottles on the right and beverage cans on the left.

This appliance features two independently controlled temperature zones, designed for optimal storage of both wine and various beverages. It can accommodate up to 21 wine bottles and 88 standard beverage cans.

SAFETY INFORMATION

- Ensure the appliance is properly grounded.
- Do not use electrical appliances inside the storage compartments unless they are of the type recommended by the manufacturer.

- Keep ventilation openings clear of obstruction.
- Do not damage the refrigerant circuit.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.

SETUP AND INSTALLATION

Your EUHOMY wine and beverage refrigerator is designed for both built-in and freestanding installation. Proper ventilation is crucial for optimal performance.

Unpacking

1. Remove all packaging materials, including foam and adhesive tape.
2. Inspect the appliance for any damage. Report any damage to your retailer immediately.
3. Clean the interior and exterior of the appliance with a soft cloth and mild detergent.
4. Allow the unit to stand upright for at least 24 hours before plugging it in. This allows the refrigerant to settle.

Location Requirements

- Place the appliance on a flat, level surface capable of supporting its weight when fully loaded.
- Avoid direct sunlight or heat sources (e.g., oven, radiator).
- Ensure adequate air circulation around the unit. The front vents must not be obstructed.
- For built-in installation, ensure the cabinet opening meets the specified dimensions.

Dimensions

The appliance dimensions are approximately 22.6"D x 23.4"W x 34.3"H (including handle).

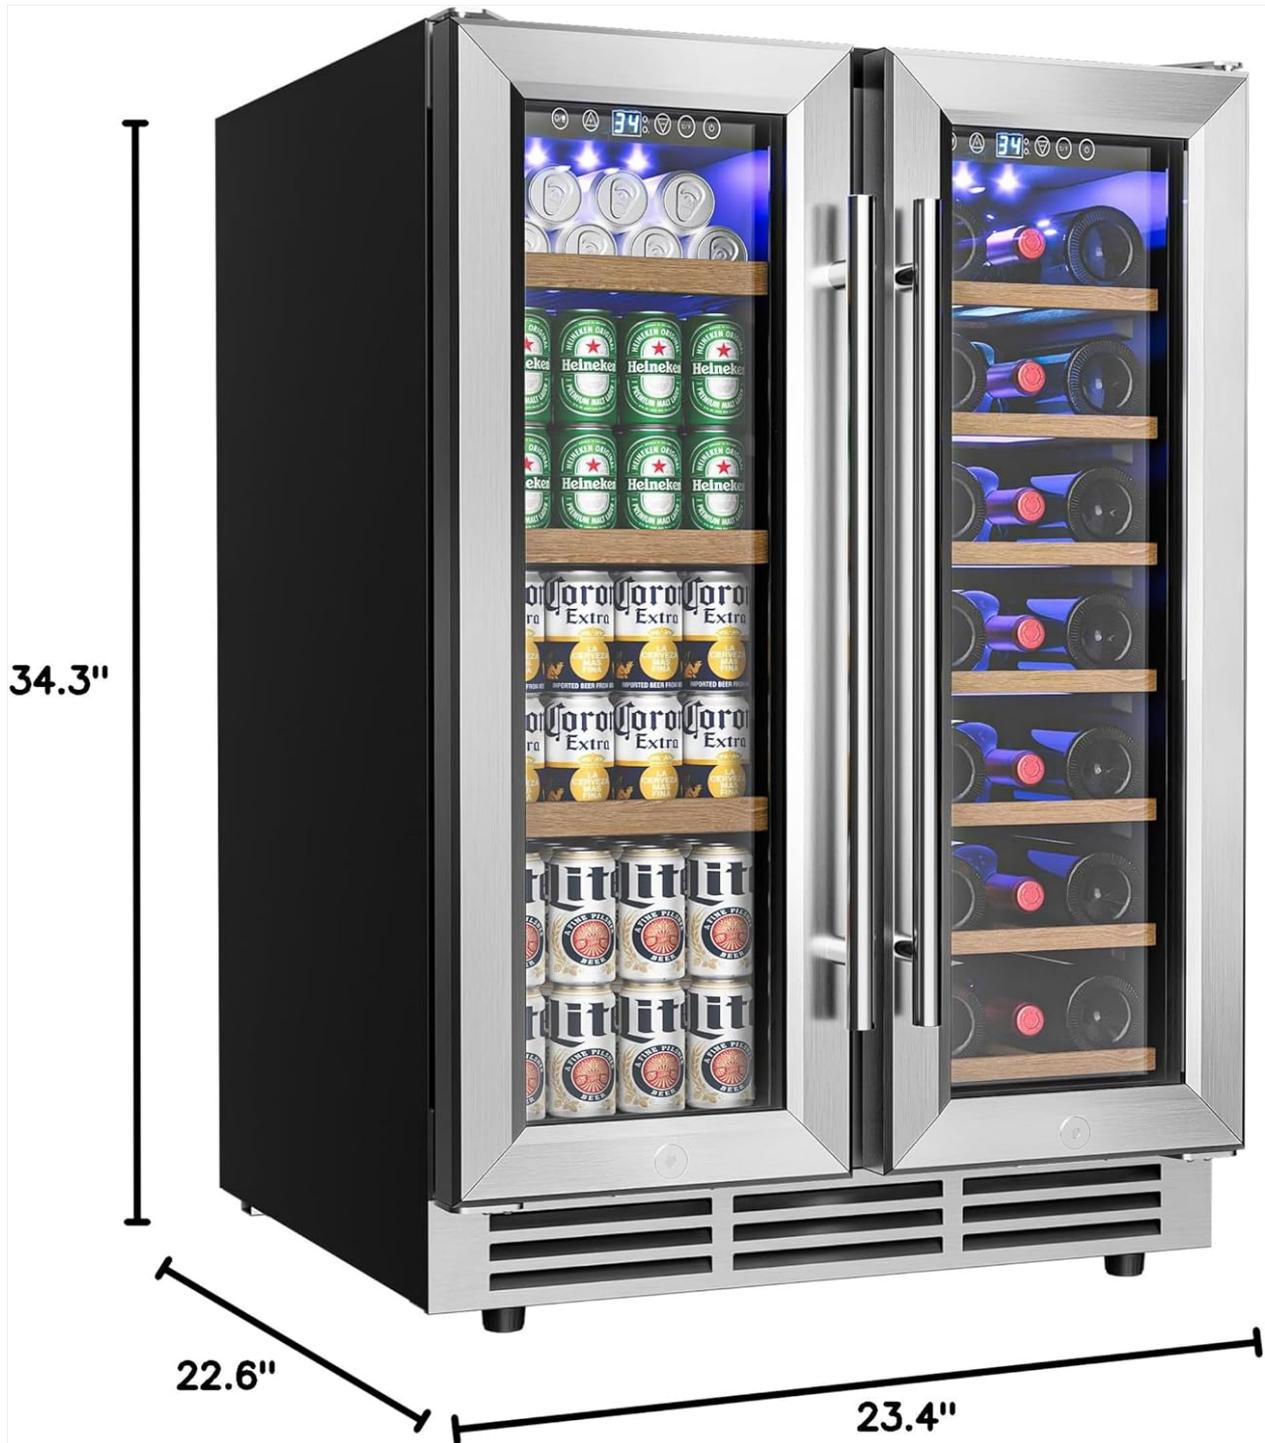

Image: Front view of the refrigerator with dimensions labeled: 34.3 inches height, 23.4 inches width, and 22.6 inches depth.

Electrical Connection

- Connect to a dedicated, grounded 115 Volt, 60 Hz AC outlet.
- Do not use extension cords or ungrounded adapters.

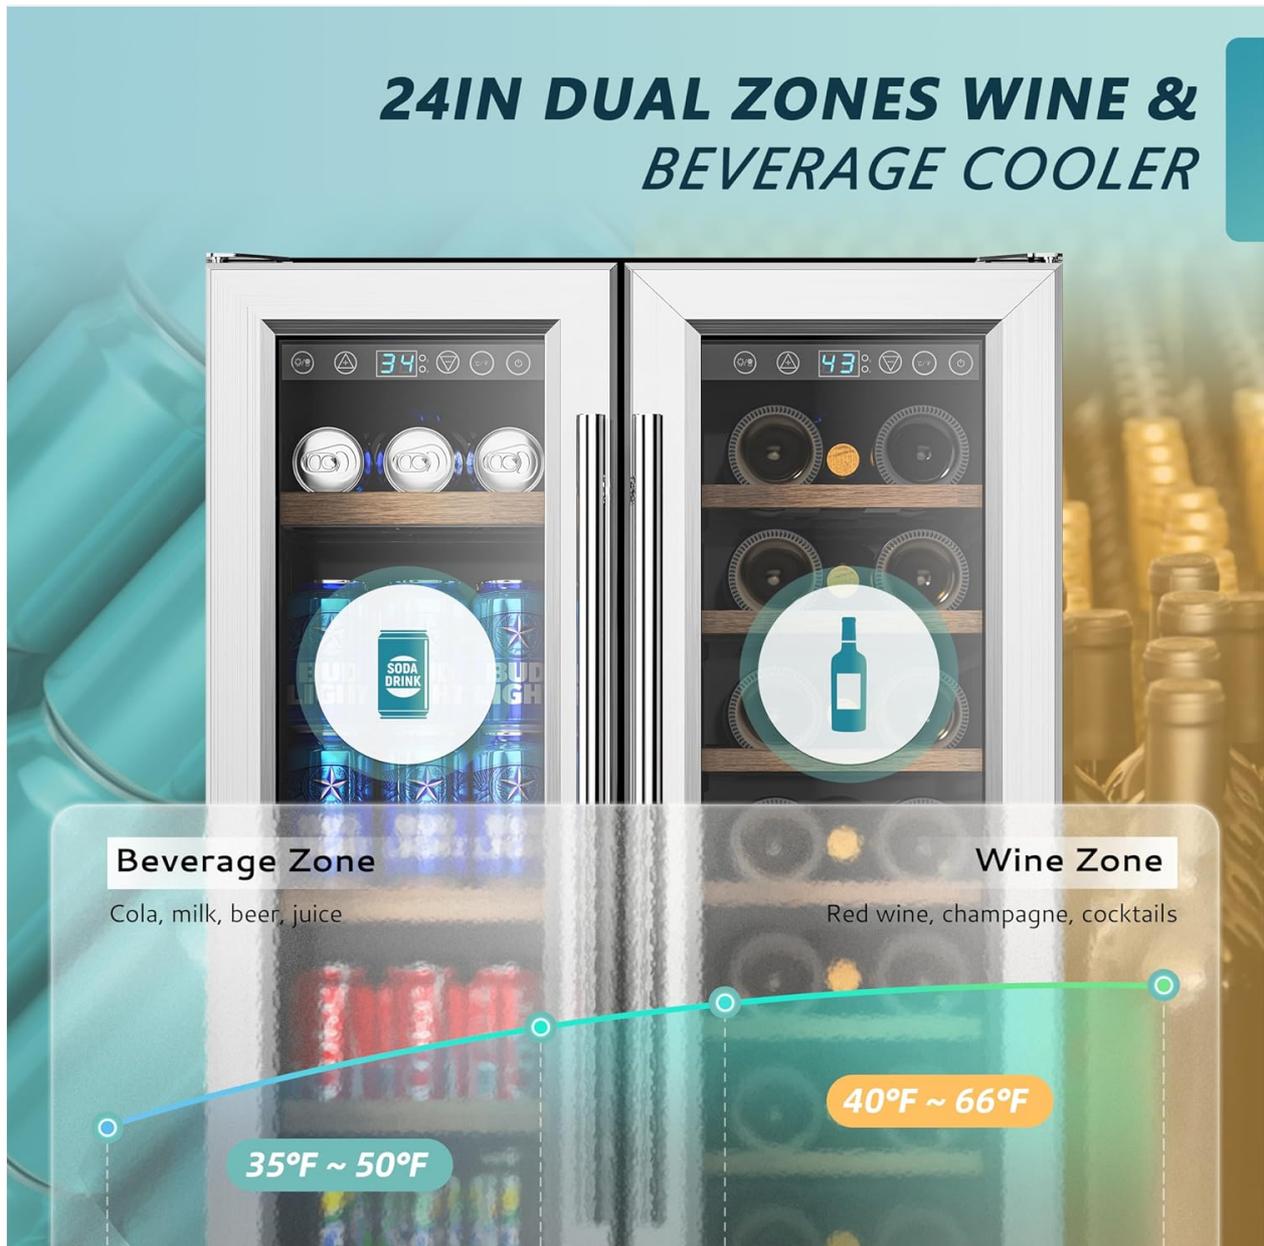

Door Reversibility

The doors are reversible. Refer to the detailed instructions in the separate door reversal guide (if provided) or contact customer support for assistance.

OPERATING INSTRUCTIONS

This appliance features dual-zone temperature control, allowing independent temperature settings for the wine and beverage compartments.

24IN DUAL ZONES WINE & BEVERAGE COOLER

Beverage Zone

Cola, milk, beer, juice

Wine Zone

Red wine, champagne, cocktails

35°F ~ 50°F

40°F ~ 66°F

Image: The top section of the refrigerator showing two separate digital control panels for the left (beverage) and right (wine) zones, each with temperature display and control buttons.

Each zone has its own digital display and control buttons for temperature adjustment, light control, and unit power.

Temperature Setting

- **Beverage Zone (Left):** Temperature range 35°F - 50°F (1.7°C - 10°C). Ideal for beer, juice, and soda.
- **Wine Zone (Right):** Temperature range 41°F - 64°F (5°C - 17.8°C). Suitable for red and sparkling wines.
- Use the temperature up/down arrows on each control panel to set the desired temperature for each zone.
- The display will show the set temperature, then revert to the actual internal temperature.

LED Lighting

The appliance is equipped with blue LED interior lighting. You can control the lighting mode (sensor-activated or normal continuous light) by pressing the dedicated light button on the control panel.

Power Failure Recovery

In the event of a power outage, the built-in sensitive temperature sensing chip will restore the last set temperature when power is reinstated. This feature helps maintain optimal storage conditions.

Door Lock

A concealed door lock is provided to secure the contents of the refrigerator. Use the provided key to lock and unlock the doors.

Shelving

The refrigerator includes 7 wooden shelves for the wine zone and 3 wire shelves for the beverage zone. These shelves are removable and adjustable to accommodate various bottle and can sizes.

Image: Interior view of the dual-zone refrigerator, highlighting the wooden shelves for wine bottles on the right and wire shelves for beverage cans on the left. Text indicates capacity for 88 cans and 18 bottles.

MAINTENANCE

Automatic Defrost

The appliance features an automatic defrost system that operates every 6 hours, eliminating the need for manual defrosting.

Cleaning

- **Interior:** Clean regularly with a mild detergent and warm water. Avoid abrasive cleaners.
- **Exterior:** Wipe down with a soft cloth and mild cleaner. For stainless steel surfaces, use a stainless steel cleaner.
- **Door Gasket:** Clean the door gasket regularly to ensure a proper seal.
- Always unplug the appliance before cleaning.

Power Saving Tips

- Ensure the door is closed properly and the gasket is sealing well.
- Avoid opening the door too frequently or for extended periods.
- Do not place hot items directly into the refrigerator.
- Keep the appliance away from direct sunlight and heat sources.

TROUBLESHOOTING

Before contacting customer service, please refer to the following common issues and solutions:

Problem	Possible Cause	Solution
Appliance does not operate	Not plugged in. Circuit breaker tripped. Power switch off.	Ensure plug is securely in outlet. Check circuit breaker. Ensure power switch is on.
Temperature is not cold enough	Door not closed properly. Frequent door openings. Temperature setting too high. Poor ventilation. Ambient temperature too high.	Check door seal and close firmly. Minimize door openings. Adjust temperature setting lower. Ensure front vents are clear. Relocate appliance if possible.
Excessive noise	Appliance not level. Vibrating components.	Adjust leveling feet. Ensure bottles/cans are not rattling against each other or shelves.
Water on floor	Drain pan overflowing. Door gasket not sealing.	Check and clear drain pan/tube. Inspect and clean door gasket.
