PonPed Replacement Mopping Cloths

PonPed Replacement Mopping Cloths for Mamibot Exvac680s Robot Vacuum Cleaner

Instruction Manual

INTRODUCTION

This manual provides essential information for the proper installation, use, and maintenance of your PonPed Replacement Mopping Cloths, designed for compatibility with the Mamibot Exvac680s Robot Vacuum Cleaner. Adhering to these instructions will help ensure optimal cleaning performance and extend the lifespan of your product.

PRODUCT OVERVIEW

The PonPed Replacement Mopping Cloths are high-quality microfiber pads engineered to effectively clean various floor surfaces when used with the Mamibot Exvac680s robot vacuum. These cloths are designed for durability and superior cleaning performance.

Key Features:

- **Non-Shedding Microfibers:** Constructed from selected microfibers that are gentle on floors and prevent scratching.
- **High Compatibility:** Designed to be highly matched with the original equipment of the Mamibot Exvac680s.
- **Softness and Protection:** Possess good softness to protect floors while effectively cleaning dirt.
- **High Absorbency:** Highly absorbent material for efficient cleaning and easy reuse.
- **Pack Quantity:** Includes 5 replacement mopping cloths.

Figure 3: Mopping cloth with dimensions (273mm x 98mm).

SETUP AND INSTALLATION

Follow these steps to replace the mopping cloth on your Mamibot Exvac680s Robot Vacuum Cleaner:

1. **Power Off:** Ensure your robot vacuum cleaner is powered off and disconnected from its charging base before beginning any maintenance.
2. **Locate Mop Pad Holder:** Turn the robot vacuum upside down to access the mop pad holder, typically located at the rear or underside of the unit.
3. **Remove Worn Pad:** Carefully detach the old or worn mopping cloth from the holder. It is usually secured by hook-and-loop fasteners or clips.
4. **Attach New Pad:** Align a new PonPed replacement mopping cloth with the mop pad holder. Press firmly to ensure it is securely attached to the fasteners.
5. **Verify Attachment:** Gently tug on the new cloth to confirm it is properly secured and will not detach during operation.
6. **Resume Operation:** Place the robot vacuum back on its wheels and power it on. It is now ready for cleaning.

OPERATING INSTRUCTIONS

Once the replacement mopping cloth is installed, your Mamibot Exvac680s Robot Vacuum Cleaner will utilize it during its mopping cycles. Ensure the water tank of your robot vacuum is filled according to its specific instructions for wet mopping. The microfiber material of the PonPed cloths is designed to absorb water and effectively lift dirt and grime from hard floor surfaces.

MAINTENANCE

Regular maintenance of your mopping cloths is crucial for consistent cleaning performance and hygiene.

Cleaning the Mopping Cloths:

- After each mopping cycle, remove the cloth from the robot vacuum.
- Rinse the cloth thoroughly under running water to remove dirt and debris.

- For deeper cleaning, the cloths can be hand-washed with mild detergent or machine-washed on a gentle cycle with similar colors.
- Allow the cloths to air dry completely before reattaching them to the robot vacuum or storing them. Do not tumble dry.

Replacement Frequency:

It is recommended to replace the mopping cloths every 3 to 6 months, or more frequently depending on usage and cleaning habits, to maintain the machine's peak performance and cleaning efficiency.

TROUBLESHOOTING

If you encounter issues related to the mopping cloths, consider the following:

- **Poor Cleaning Performance:** Ensure the cloth is clean and properly attached. If the cloth is heavily soiled or worn, replace it with a new one.
- **Cloth Detaching During Operation:** Verify that the cloth is securely fastened to the mop pad holder. Check for any damage to the hook-and-loop fasteners on either the cloth or the robot vacuum.
- **Excessive Wear:** If cloths wear out quickly, ensure they are being cleaned gently and not exposed to harsh chemicals or abrasive surfaces during washing.

SPECIFICATIONS

Attribute	Value
Product Type	Replacement Mopping Cloths
Compatibility	Mamibot Exvac680s Robot Vacuum Cleaner
Material	Microfiber
Quantity	5 Pack
Item Weight (per cloth)	Approximately 0.035 ounces
