Timex 5:47 Pm Eyeglass Frame User Manual

Model: 5:47 Pm | Brand: Timex

1. INTRODUCTION

This manual provides essential information for the proper handling, use, and care of your Timex 5:47 Pm Stretch T Series Premium Collection Eyeglass Frame. Please read this manual thoroughly to ensure optimal performance and longevity of your eyewear.

2. PRODUCT OVERVIEW

The Timex 5:47 Pm eyeglass frame is designed for comfort and style, suitable for a variety of face shapes. It features a full-rim design crafted from durable metal and high-quality acetate plastic components. The frame is sold with demo lenses, which are intended for display purposes only and have a logo stamped on them.

Figure 2.1: Front view of the Timex 5:47 Pm Eyeglass Frame. This image illustrates the overall design and structure of the frame, highlighting its full-rim construction and material combination.

Key features include:

- Frame Type:** Full-rim
- Frame Material:** Metal and high-quality acetate plastic
- Lens Type:** Non-Polarized (demo lenses included)
- Comfort:** Designed for a comfortable fit

3. SETUP AND INITIAL USE

Upon receiving your Timex 5:47 Pm eyeglass frame, please follow these steps:

- Inspection:** Carefully inspect the frame for any visible damage during shipping.
- Lens Fitting:** The frame comes with demo lenses. These are not prescription lenses and should be replaced. Take your frame to a qualified optical store to have your prescription lenses fitted by a professional optician.
- Case:** An original case is not included with this frame. However, a generic hard case or pouch will be provided to help protect your eyeglasses when not in use.

4. OPERATING (WEARING) INSTRUCTIONS

To ensure proper use and comfort:

- **Proper Fit:** Ensure the frame sits comfortably on your nose bridge and behind your ears. If the fit is not ideal, a professional optician can make adjustments.
- **Handling:** Always use both hands to put on and take off your eyeglasses to prevent bending or misalignment of the frame.
- **Lens Care:** Once your prescription lenses are fitted, follow the care instructions provided by your optician for those specific lenses.

5. MAINTENANCE AND CARE

Proper maintenance will extend the life and appearance of your Timex eyeglass frame:

- **Cleaning the Frame:**
 - Use a soft, damp cloth with mild soap and water to gently clean the frame.
 - Avoid harsh chemicals, abrasive cleaners, or solvents, as these can damage the frame material and finish.
 - Rinse thoroughly with clean water and dry with a soft, lint-free cloth.
- **Storage:**
 - When not in use, always store your eyeglasses in the provided generic hard case or pouch to protect them from scratches, dust, and accidental damage.
 - Avoid leaving eyeglasses in direct sunlight or extreme heat (e.g., on a car dashboard), as this can warp the frame material.
- **Regular Adjustments:** Over time, frames may become loose or misaligned. Visit your optical store for professional adjustments to maintain a comfortable and secure fit.

6. TROUBLESHOOTING

While the Timex 5:47 Pm frame is designed for durability, minor issues may arise:

- **Loose Screws:** If a screw holding the temple arm or nose pad becomes loose, do not attempt to tighten it with inappropriate tools. Visit an optical professional for proper tightening or replacement.
- **Frame Misalignment:** If the frame feels crooked or uncomfortable, avoid bending it yourself. Professional adjustment by an optician is recommended to prevent damage.
- **Scratches:** Scratches on the frame are typically cosmetic and cannot be removed. Handle your frame with care and store it properly to minimize scratches.
