# Fancii LED Rechargeable Portable Makeup Mirror User Manual

Model: FC-RFOM110XPK

## INTRODUCTION

Thank you for choosing the Fancii LED Rechargeable Portable Makeup Mirror. This manual provides essential information for the safe and effective use of your new mirror. Please read it thoroughly before operation and retain it for future reference.

## PRODUCT OVERVIEW

The Fancii LED Rechargeable Portable Makeup Mirror is designed for convenience and precision, featuring adjustable height, multiple lighting modes, and a detachable 10x magnetic magnifying mirror. Its ultra-slim, foldable design makes it ideal for both home and travel use.

### Key Features:

- **Adjustable Height:** Effortlessly transitions from handheld to vanity use, allowing for optimal viewing angles.
- **10x Magnetic Magnifying Mirror:** A detachable 3-inch magnifying mirror for detailed tasks, attaching magnetically to the main mirror.
- **3 Color LED Light Settings:** Choose between warm, neutral, and natural daylight modes to simulate various environments.
- **Dimmable Lighting:** Adjust the brightness of the LED lights to your preference.
- **Rechargeable Battery:** Provides up to 12 hours of brilliant lighting on a full charge.
- **Foldable Design:** Ultra-slim and lightweight (0.7 lbs) for easy portability and storage.

### SETUP

1. **Unboxing:** Carefully remove all components from the packaging. Ensure the main mirror, 10x magnifying mirror,

and charging cable are present.

2. **Initial Charge:** Before first use, fully charge the mirror. Connect the provided charging cable to the charging port located on the back of the mirror's base and plug the other end into a compatible USB power source. The charging indicator light will illuminate. Charging typically takes approximately 1 hour.

## Rechargeable

Up to 30 days of  
cordless use

3. **Positioning:** Unfold the mirror from its compact travel position. Adjust the stand to your desired height and angle.

## OPERATING INSTRUCTIONS

### Power On/Off and Light Mode Selection:

The mirror features touch controls on the main mirror surface.

- **Power On/Off:** Tap the power icon (circle) on the mirror surface to turn the LED lights on or off.
- **Change Light Color Mode:** Tap the light mode icon (sunburst) to cycle through the three color temperature settings: Warm, Neutral, and Daylight.

- **Adjust Brightness (Dimming):** While the lights are on, press and hold the power icon (circle) to dim or brighten the lights. Release when the desired brightness is achieved.

### Adjusting Mirror Height and Angle:

- To adjust the height, gently pull the mirror head upwards from the base. It can be extended to various positions, including fully extended or partially extended.
- The mirror head can also be tilted to achieve your preferred viewing angle.
- For travel, fold the mirror completely flat into its base for compact storage.

## MAINTENANCE

- **Cleaning:** To clean the mirror surfaces, gently wipe with a soft, lint-free cloth. For stubborn spots, dampen the cloth slightly with water or a mild, non-abrasive glass cleaner. Avoid harsh chemicals or abrasive materials that could scratch the mirror or frame.
- **Battery Care:** To prolong battery life, avoid fully discharging the mirror frequently. Recharge the mirror when the lights begin to dim or when the battery indicator suggests a low charge. If storing for an extended period, charge the mirror to approximately 50% every few months.
- **Storage:** When not in use, especially during travel, fold the mirror flat to protect the mirror surface and LED lights. Store in a dry, cool place away from direct sunlight.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Mirror lights do not turn on.	Battery is depleted.	Connect the mirror to a power source using the provided USB cable and allow it to charge fully.
Lights are dim or flickering.	Low battery charge.	Recharge the mirror.
Cannot change light color or brightness.	Incorrect operation of touch controls.	Ensure you are tapping the correct icons (power for on/off, sunburst for color mode) and pressing/holding the power icon for dimming.
10x magnifying mirror does not stay attached.	Magnetic surface or magnifying mirror is dirty.	Clean both the main mirror surface and the back of the magnifying mirror to ensure a strong magnetic connection.
Mirror feels wobbly when extended.	Improper placement or uneven surface.	Ensure the mirror is placed on a flat, stable surface. Adjust the base for optimal balance.
