Spigen ACS07265

Spigen Tough Armor Case for Google Pixel 8a

Model: ACS07265

INTRODUCTION

The Spigen Tough Armor case is engineered to provide robust protection for your Google Pixel 8a. It combines a dual-layer design with advanced shock absorption technologies to safeguard your device against drops, impacts, and scratches. This case also features a convenient built-in kickstand for hands-free viewing.

INSTALLATION (SETUP)

Follow these steps to properly install the Spigen Tough Armor case on your Google Pixel 8a:

1. **Prepare Your Device:** Ensure your Google Pixel 8a is clean and free of dust or debris.

2. **Separate Case Components:** The Tough Armor case consists of two main parts: a soft TPU inner layer and a hard polycarbonate outer shell. Gently separate these two components.

3. **Install Inner Layer:** First, carefully place your Google Pixel 8a into the flexible TPU inner layer, ensuring all edges and corners are properly seated.

4. **Attach Outer Shell:** Once the phone is in the TPU layer, align the hard polycarbonate outer shell over the TPU layer. Snap the outer shell into place, starting from one side and working your way around until it is securely fastened.

5. **Verify Fit:** Check that all buttons are functional and all ports are accessible. The case should fit snugly around your device.

FEATURES AND OPERATION

Dual-Layer Protection

The case features a combination of Thermoplastic Polyurethane (TPU) and Polycarbonate materials. The soft TPU absorbs shock from impacts, while the rigid polycarbonate shell provides structural integrity and scratch resistance, offering comprehensive protection for your device.

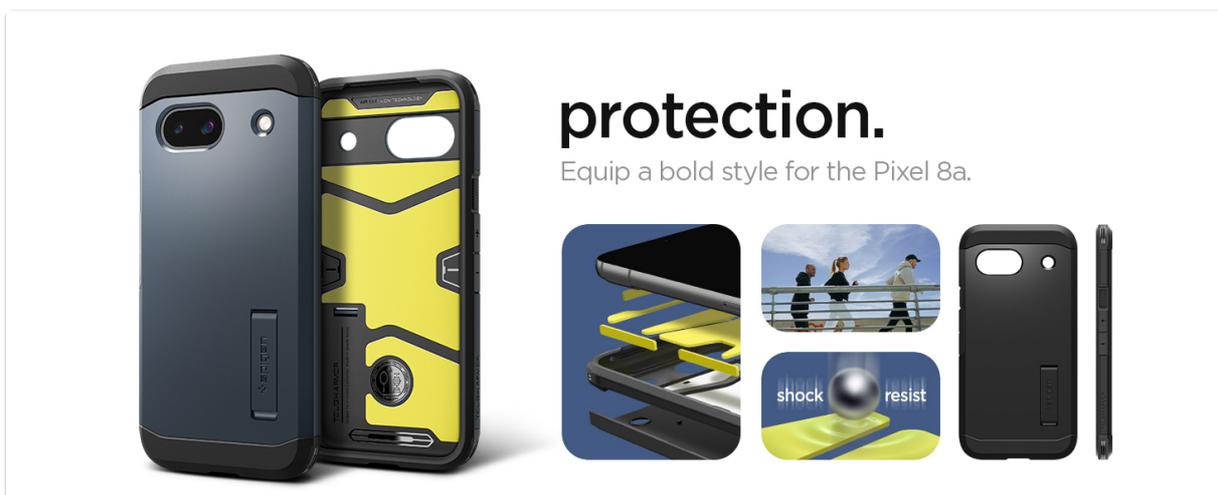

Image: Diagram illustrating the extreme protection technology, showing how the case layers and internal foam resist shock from impacts.

Air Cushion Technology

Integrated Air Cushion Technology in all four corners of the case provides enhanced shock absorption, dispersing impact force away from your phone during drops. This feature contributes to the case's military-grade protection certification [MIL-STD 810G-516.6].

Raised edges.

Protect without the bulk, featuring a slim and sleek profile to showcase your Pixel.

Sleek silhouette.

Built-in Kickstand

The integrated kickstand allows for convenient hands-free viewing of content in landscape orientation. To use, simply pull out the kickstand from its recessed position on the back of the case. Push it back in until it clicks to secure it when not in use.

Air Cushion Tech.

Guard your Pixel from daily drops and scuffs with unique shock-absorption at every corner.

Raised Edges

The case features raised bezels around the screen and camera cutout. These elevated edges help protect the display and camera lenses from direct contact with surfaces when the phone is placed face down or dropped.
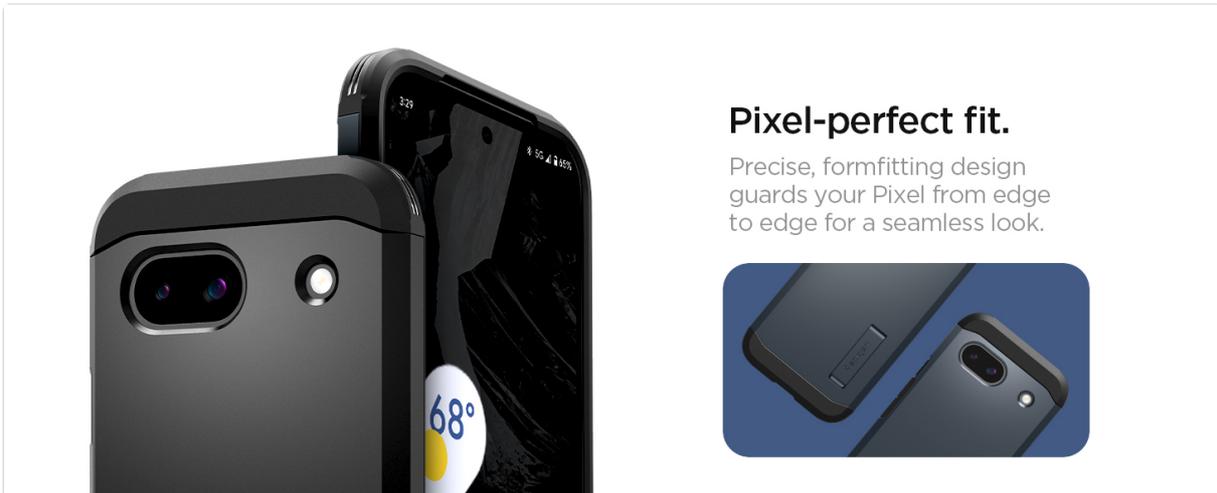

Solid Kickstand.

Sit back and enjoy your Pixel with a built-in kickstand.

Comfortable Grip and Wireless Charging Compatibility

The case is designed for a comfortable grip while maintaining an optimal slimness. It is also compatible with wireless charging, allowing you to charge your Pixel 8a without removing the case.

Pixel-perfect fit.

Precise, formfitting design guards your Pixel from edge to edge for a seamless look.

CARE AND MAINTENANCE

To ensure the longevity and appearance of your Spigen Tough Armor case, follow these simple care instructions:

- **Cleaning:** Regularly wipe the case with a soft, damp cloth to remove dust, dirt, and fingerprints. For stubborn stains, a mild soap solution can be used, but avoid harsh chemicals or abrasive cleaners.

- **Avoid Extreme Temperatures:** Do not expose the case to extreme heat or cold, as this can affect the material's integrity and fit.

- **Inspect Regularly:** Periodically check the case for any signs of wear or damage. If the case is significantly damaged, consider replacing it to ensure optimal protection for your device.

TROUBLESHOOTING

If you encounter any issues with your Spigen Tough Armor case, consider the following:

- **Case Not Fitting Snugly:** Ensure your phone is correctly aligned within the TPU inner layer before attaching the polycarbonate outer shell. Press firmly around all edges to secure the fit.

- **Buttons Not Responsive:** Verify that the case is properly seated and not obstructing the phone's buttons. Remove and re-install the case if necessary.

- **Kickstand Issues:** If the kickstand does not deploy or retract smoothly, check for any debris obstructing its mechanism. Avoid forcing the kickstand, as this may cause damage.

SPECIFICATIONS

Product Dimensions	3 x 0.4 x 6 inches
Item Weight	1.83 ounces
Item Model Number	ACS07265
Compatible Phone Models	Google Pixel 8a
Material	Polycarbonate, Thermoplastic Polyurethane
Special Features	Heavy Duty Protection, Kickstand, Air Cushion Technology
Color	Metal Slate
