INSTALLATION INSTRUCTIONS

Follow these steps carefully for optimal installation. Perform installation in a clean, dust-free environment if possible.

1. **Clean the Screen:** Use the provided microfiber cleaning cloth to thoroughly clean the display of your ABLEGRID Digital Smart Bathroom Scale. Ensure all dust, smudges, and fingerprints are removed. For stubborn marks, a screen cleaner (not included) can be used sparingly.
2. **Remove Dust:** Use the dust removing sticker (if provided) to lift any remaining dust particles from the screen. Lightly dab the sticker across the screen surface.
3. **Align the Protector:** Carefully peel back a small portion of the protective layer (usually marked '1' or with a tab) from one end of the screen protector. Align the exposed edge of the screen protector with one edge of your device's screen. Ensure precise alignment with all cutouts (if any) and edges.
4. **Apply Gradually:** Once aligned, slowly and steadily peel back the rest of the protective layer '1' while simultaneously applying the screen protector to the device's screen. Use the applicator card to gently smooth out any air bubbles as you go, pushing them towards the nearest edge.
5. **Remove Top Layer:** After the screen protector is fully applied and all major bubbles are removed, carefully peel off the second protective layer (usually marked '2' or with a tab) from the top of the screen protector.

6. **Final Smoothing:** Use the microfiber cloth to gently wipe down the newly installed screen protector and remove any remaining small bubbles by pushing them towards the edges.

Note: The special low-tack adhesive may take approximately 2 days of regular use to fully adhere around the edges, during which time small air gaps may clear out naturally.

OPERATION AND BENEFITS

Once installed, the ClearTouch Crystal Screen Protector operates passively, providing continuous protection without interfering with the functionality of your ABLEGRID Digital Smart Bathroom Scale. Its benefits include:

- **Scratch Resistance:** Shields the original screen from scratches caused by keys, coins, or other abrasive materials.
- **Dust Protection:** Prevents dust and debris from accumulating on the screen surface.
- **High Clarity:** Maintains 99% visual transparency, ensuring vibrant colors and an unobstructed view of your scale's display.
- **Smooth Touch:** The glossy surface provides a smooth touch experience, preserving the original feel of the device's screen.

BOXWAVE

2 PACK

ClearTouch® CRYSTAL

SCREEN PROTECTOR

- COLOR BRILLIANCE**
High-quality optical film that optimizes color rendition.
- CLARITY**
Your vibrant screens don't deserve blur or bland. 99% transparency means perfect clarity. No loss of color. No loss of resolution.
- PRECISION**
Precision cut. Precision Accuracy. Cut exactly for your device for increased touchpad accuracy and recognition.
- REUSABILITY**
ClearTouch® comes equipped with installation forgiveness. Reuse and reinstall as needed.

CARE AND MAINTENANCE

To ensure the longevity and clarity of your screen protector, follow these simple maintenance

guidelines:

- **Cleaning:** Use the provided microfiber cleaning cloth to gently wipe the screen protector. For smudges or fingerprints, lightly dampen the cloth with water or a screen-safe cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Avoid Sharp Objects:** While the protector is scratch-resistant, extreme pressure or sharp objects can still damage it.
- **Replacement:** If the screen protector becomes heavily scratched or damaged, it can be removed and replaced with the second protector included in your package. The glueless adhesive ensures no sticky residue is left behind upon removal.

TROUBLESHOOTING

Bubbles after installation:

Small bubbles are common immediately after installation. Use the applicator card to gently push them towards the nearest edge. For very small bubbles, allow 24-48 hours for the adhesive to fully set; many will disappear naturally.

Dust trapped under the protector:

If dust is trapped, carefully lift the nearest corner of the screen protector using a piece of tape. Use another piece of tape to dab and remove the dust particle from both the screen and the adhesive side of the protector. Reapply the protector slowly.

Protector not adhering properly:

Ensure the screen was thoroughly cleaned before application. If the edges are lifting, gently press them down with your finger or the applicator card. Allow time for the adhesive to fully cure.

SPECIFICATIONS

Feature	Detail
Product Name	ClearTouch Crystal Screen Protector
