## Amazon Basics FA620BT

# Amazon Basics Bluetooth Computer Speakers (Model FA620BT) Instruction Manual

Model: FA620BT

## 1. INTRODUCTION

This manual provides instructions for the Amazon Basics Bluetooth Computer Speakers (Model FA620BT). It covers setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your speakers. Please read this manual thoroughly before using the product.

## 2. PACKAGE CONTENTS

Upon unpacking, ensure all items are present and in good condition:

- Two (2) Satellite Speakers
- One (1) Control Pod (integrated with speaker cables)
- Quick Start Guide (QSG)

## 3. PRODUCT OVERVIEW

The Amazon Basics Bluetooth Computer Speakers feature a compact design with integrated blue LED lighting and a convenient control pod for easy access to functions.

# Connect Your Way

Blue speaker lights improve ambiance

0.1 in / 3.5 mm AUX  
input headphone jack

Control pod for source,  
volume, LED, and AUX IN

Bluetooth 5.3 for  
faster transmission

Boost speaker efficiency with a  
5V/2A adapter (not included)

Image 3.1: Front view of the two speakers and the central control pod.

## Superior Sound Quality

2 Bluetooth / USB speakers for computers, TVs, and more.

Enjoy powerful, clear bass with custom-tuned 1.75 in / 4.44 cm drivers. Easy USB plug-and-play setup.

**Image 3.2:** Diagram illustrating the 3.5mm AUX input, control pod functions, and USB power connection.

### **Control Pod Functions:**

**Image 3.3:** Close-up of the control pod, showing the volume up/down, source, and LED on/off buttons, along with the AUX IN port.

- **Volume Control:** Buttons to increase (+) or decrease (-) audio volume.
- **Source Button:** Toggles between Bluetooth, USB, and 3.5mm AUX input modes.
- **LED On/Off Button:** Activates or deactivates the blue LED lighting on the speakers.
- **AUX IN Port:** 3.5mm jack for connecting external audio devices.

## 4. SETUP

### 4.1 Speaker Placement

Place the two satellite speakers on a stable, flat surface, typically on either side of your computer monitor or television for optimal stereo sound. Ensure adequate space for air circulation around the speakers.

### 4.2 Power Connection

1. Locate the integrated USB cable from the control pod.
2. Connect the USB cable to an available USB 3.0 port on your computer, laptop, or a compatible 5V/2A USB power adapter (not included). The speakers are USB powered and do not contain an internal battery.
3. The speakers will power on automatically once connected to a power source.

## 4.3 Audio Connection

The speakers support three audio input methods: Bluetooth, USB Audio, and 3.5mm AUX IN.

### 4.3.1 Bluetooth Connection

1. Ensure the speakers are powered on.
2. Press the **Source** button on the control pod until the Bluetooth indicator light (if present) is active or you hear an audible prompt for Bluetooth pairing.
3. On your audio device (smartphone, tablet, laptop), enable Bluetooth and search for available devices.
4. Select "**Amazon Basics Speakers**" from the list of found devices to pair.
5. Once paired, you will hear a confirmation sound, and audio will play through the speakers.

### 4.3.2 USB Audio Connection

1. Connect the USB cable from the control pod directly to a USB port on your computer.
2. The computer should automatically detect the speakers as an audio output device.
3. You may need to select "Amazon Basics Speakers" as the default audio output in your computer's sound settings.
4. *Note: USB ports on some TVs may not support audio transmission. Consult your TV's manual for compatibility.*

### 4.3.3 3.5mm AUX Input Connection

1. Connect a 3.5mm audio cable (not included) from your audio device's headphone jack or audio output to the **AUX IN** port on the control pod.
2. Press the **Source** button on the control pod until the AUX input mode is selected.
3. Adjust the volume on both your audio device and the speaker control pod.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Power On/Off

The speakers power on automatically when the USB cable is connected to a power source. To power off the speakers, simply unplug the USB cable from the power source.

### 5.2 Volume Adjustment

Use the **+** and **-** buttons on the control pod to increase or decrease the speaker volume. You can also adjust the volume directly on your connected audio device.

### 5.3 Source Selection

Press the **Source** button on the control pod to cycle through the available audio input modes: Bluetooth, USB Audio, and 3.5mm AUX IN.

### 5.4 LED Lighting Control

Press the **LED On/Off** button on the control pod to toggle the blue LED lights on the speaker bases. This allows you to turn the lights on or off according to your preference.

## 6. MAINTENANCE

- Clean the speakers and control pod with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- Keep the speakers away from direct sunlight, heat sources, and moisture to prevent damage.
- Ensure proper ventilation around the speakers.
- Avoid dropping the speakers or subjecting them to strong impacts.

## 7. TROUBLESHOOTING

If you encounter issues with your speakers, refer to the following common solutions:

Problem	Possible Solution
No sound from speakers	<ul style="list-style-type: none"> <li>◦ Ensure the USB power cable is securely connected.</li> <li>◦ Check the volume level on both the control pod and your audio device.</li> <li>◦ Verify the correct audio source (Bluetooth, USB, AUX) is selected using the Source button.</li> <li>◦ Confirm the speakers are selected as the default audio output on your computer/device.</li> <li>◦ Test with a different audio source or cable.</li> </ul>
Bluetooth pairing fails	<ul style="list-style-type: none"> <li>◦ Ensure the speakers are in Bluetooth pairing mode.</li> <li>◦ Make sure Bluetooth is enabled on your audio device.</li> <li>◦ Move the speakers closer to your device (within 32.8 feet).</li> <li>◦ Forget/remove the speakers from your device's Bluetooth list and try pairing again.</li> <li>◦ Restart both the speakers (by unplugging/replugging USB) and your audio device.</li> </ul>
Sound is distorted or unclear	<ul style="list-style-type: none"> <li>◦ Reduce the volume on both the speakers and your audio device.</li> <li>◦ Ensure the audio source is of good quality.</li> <li>◦ Check for interference if using Bluetooth.</li> <li>◦ If using AUX, ensure the cable is fully inserted and not damaged.</li> </ul>
Blue LED lights are not working	<ul style="list-style-type: none"> <li>◦ Press the LED On/Off button on the control pod to ensure the lights are enabled.</li> <li>◦ Verify the speakers are receiving power.</li> </ul>

## 8. SPECIFICATIONS

Feature	Specification
Model Name	AMZ-S6524A
Item Model Number	FA620BT
Connectivity Technology	Bluetooth 5.3, USB, 3.5mm AUX IN
Power Source	Corded Electric (USB Powered)
Speaker Type	Multimedia

Feature	Specification
Speaker Size	1.75 Inches (4.44 cm) full-range drivers
Speaker Maximum Output Power	6 Watts
Bluetooth Range	Up to 32.8 Feet (10 meters)
Product Dimensions (LxWxH)	4.33 x 2.68 x 3.43 inches (11 x 6.8 x 8.7 cm)
Item Weight	7 ounces (0.2 Kilograms)
Special Feature	Blue LED light, Volume Control, Source Selection
Material	Plastic
Color	Black

## 9. WARRANTY INFORMATION

---

This Amazon Basics product is covered by a Limited Warranty. For detailed information regarding the warranty terms, conditions, and duration, please refer to the Quick Start Guide (QSG) included in your package or visit the official Amazon Basics website.

## 10. CUSTOMER SUPPORT

---

For further assistance, troubleshooting not covered in this manual, or warranty claims, please contact Amazon Basics customer support. You can typically find support options through your Amazon account's order history or by visiting the Amazon Basics brand store online.
