Safety Information

WARNING: Failure to follow these safety instructions may result in injury or damage to the product.

- Use screws and wall plugs appropriate for your specific wall type. Consult a professional if you are unsure about suitable fasteners.
- Follow each step of the assembly and installation instructions precisely.
- For the USB port, use a certified 5V USB power source (not included).
- Ensure the cabinet is securely mounted to prevent falling.

Product Specifications

Feature	Detail

| Feature	Detail
Brand	vidaXL
Model Number	357969
Color	White
Material	Engineered Wood with Melamine Finish, Glass
Overall Dimensions (W x D x H)	60 x 13 x 52 cm (23.6" x 5.1" x 20.5")
Mirror Dimensions (W x H)	38.5 x 52 cm (15.1" x 20.5")
Cable Length	1 m
Output Voltage	DC 5V
Power	Max. 10 W
Interface	USB
Features	Fixed shelves, Integrated LED light, On/Off switch, Wall-mountable
Weight	9.35 kg

Setup and Installation

The cabinet requires assembly and wall mounting. Follow these steps carefully.

1. Unpacking and Component Check

1. Carefully unpack all components from the packaging.
2. Verify that all parts listed in the assembly instructions (usually provided in the box) are present and undamaged.
3. Keep packaging materials until assembly is complete to avoid misplacing small parts.

2. Assembly of the Cabinet Structure

Assemble the cabinet body according to the manufacturer's detailed assembly guide included in the package. This typically involves:

- Attaching side panels to the top and bottom panels.

- Inserting fixed shelves into designated slots.
- Securing the back panel.
- Attaching the mirror door and its hinges.

3. Wall Mounting

The cabinet is designed for wall mounting. Proper installation is crucial for safety.

1. **Choose Location:** Select a suitable wall location in your bathroom, ensuring it is free from electrical wires or plumbing.
2. **Measure and Mark:** Use the cabinet's dimensions and the pre-drilled mounting points on the back of the cabinet (refer to the image below) to mark the drilling locations on the wall. Ensure marks are level.
3. **Drill Holes:** Drill holes at the marked locations using a drill bit appropriate for your wall type (e.g., masonry, drywall).
4. **Insert Wall Plugs:** Insert appropriate wall plugs into the drilled holes. *Note: Screws and wall plugs are not included. Use fasteners suitable for your wall material.*
5. **Attach Cabinet:** Carefully lift the cabinet and align the mounting brackets on the back with the wall plugs. Secure the cabinet to the wall using appropriate screws. Ensure it is firmly attached and stable.

4. Connecting the LED Light

The LED light is powered via a USB connection.

1. Locate the USB cable extending from the cabinet.
2. Connect the USB cable to a certified 5V USB power source (e.g., a USB wall adapter, not included).
3. Ensure the connection is secure.

OPERATING INSTRUCTIONS

The LED light is controlled by an integrated switch.

- Once the USB power source is connected, locate the circular on/off switch on the side of the cabinet.
- Press the switch to turn the LED light ON.
- Press the switch again to turn the LED light OFF.

Maintenance

Regular cleaning and care will help maintain the appearance and longevity of your cabinet.

- **Cleaning the Cabinet:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals, as these can damage the melamine finish.
- **Cleaning the Mirror:** Use a standard glass cleaner and a lint-free cloth to clean the mirror surface.
- **LED Light Care:** The LED light strip is integrated. Do not attempt to replace individual LEDs. If the light malfunctions, refer to the troubleshooting section.
- **Moisture:** While the engineered wood is resistant to humidity, avoid prolonged exposure to excessive moisture. Wipe up spills immediately.

TROUBLESHOOTING

If you encounter issues with your cabinet, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
LED light does not turn on.	No power to USB port. USB cable not properly connected. Faulty USB power source. Switch is off.	Ensure the USB power source is plugged into a working outlet. Check that the USB cable is securely connected to both the cabinet and the power source. Try a different certified 5V USB power source. Press the on/off switch to activate the light.
Cabinet feels unstable after mounting.	Incorrect wall plugs/screws used. Mounting screws not tightened sufficiently. Wall material not suitable for mounting.	Verify that the wall plugs and screws are appropriate for your wall type. Tighten all mounting screws securely. Do not overtighten. If the wall material is too weak, consider reinforcing the wall or consulting a professional.
Mirror door does not close properly.	Hinges are misaligned. Obstruction in the cabinet.	Adjust the hinges according to the assembly instructions. Remove any items obstructing the door's closure.

WARRANTY AND SUPPORT
