## OPERATING INSTRUCTIONS

The Cirrus 3 Steamer can be used in two primary ways: as a traditional garment steamer or utilizing its heated ironing plate for a more pressed finish.

### 1. Steaming Garments:

Hang the garment on a hanger. Hold the steamer upright, ensuring the heated plate is facing the fabric. Gently

press the steamer against the fabric and move it downwards, allowing the steam to relax the fibers and remove wrinkles. For best results, use the included steaming pad behind the fabric.

## **2. Using the Heated Ironing Plate:**

For a more crisp finish, similar to ironing, place the garment on a flat, heat-resistant surface (like an ironing board or the included steaming pad). Press the heated plate of the steamer directly onto the fabric and glide it across, applying gentle pressure. This method is effective for collars, cuffs, and hems.
